Today, October 8th, 2009, I was looking in our legal file that contained documents pertaining to a lawsuit that we are involved in as defendants, regarding "water access rights" on Lower Twin Lake and discovered the unopened envelope from the State of Idaho, Department of Water Resources. There was no date on the letter of when it was made or sent in addition to no postage date either! Apparently, one of us saw the letter from the State of Idaho and with "IMPORTANT WATER RIGHT INFORMATION" noted on the face of the envelope, and placed it in this above mentioned file, thinking it pertained to our suit on the "water access rights"! Wrong!

Upon opening this letter and discovering it involved claiming of water rights and stated we should file a notice of claim by September 18th, 2009, I called the northern region office and spoke and made an appointment with Mr. Shaun Maxey for a meeting Wednesday, October 14th, to make a proper "claim of our water rights"!

We are presenting pictures and documents confirming our ownership and lake water use as of September 18th, 1977 Plus the list of when previous ownership transfers took place regarding Lot 1, Block 8, of Echo Beach on Lower Twin Lake. It was my understanding that this property had been using lake water for irrigation since at least from in the early 1950's or before! We are sorry for the misfiling and delay problem but would hope that you would consider our application be accepted as completed in a timely manner!

Yours Respectively,
