Boise, Idaho 83720-0098

Attn: Don Shaff

Dear Don ;

Please find enclosed the Bar G Farms House Springs and Well Photograph, on which you requested the Water Rights be Marked.

Further, Please find attached the Photograph which shows the flow from the "House" Spring. This warm spring was designated the "House" Spring so as to make sure that it was not confused with the Hot Spring on which we have the Water Right.

In the 73-11977 claim for Stockwater, the flow from this spring is Taken through a series Pipe and ditches to the barn and extensive corral area Marked "C". Any excess water is collected with the irrigation water.

In the 73-11995 claim for Irrigation and Domestic use, the flow from this spring is Taken through a series Pipe and ditches to the Garden area Marked "A" and House area Marked "B" for domestic uses. The flow from the spring is collected with the irrigation water when it is not used for either Stockwater or Domestic uses. The Spring continues to flow Year round and the water has to be diverted.

The second Photograph shows the location of the Domestic Well 73-10007 at the "Old" House and also the location of the Domestic Well 73-10006 at the House which we currently use.

If you should have any further questions, Please feel free to call or contact me

Respectfully,

Billy Gydesen
