Scott,

The attached amended claim is in the form of a Word document so you can easily make additional changes if you see fit. I partially completed the signature block on the second page, but you will need to fill in your "Title" that authorizes you to sign for the Quigley Family Trust. I have also attached a copy of "How You Will Receive Notices in the CSRBA". That document is only accessible from the Finalize and Submit page, and cannot be accessed once you have submitted your claim.

Carter,

Thanks for your prompt response and assistance. Please send me the amended claim; I want the correct one on file. Unless you instruct me otherwise, I'll sign the claim, scan it, and then e-mail the document to you.

Regards,  
Scott Quigley

Scott,

Thank you for the well log. It does not match the copy the driller submitted to IDWR (see attached). It is not uncommon for the legal description on the well log to vary a bit from the actual location of the well, but this one is unusual. I will see that the correct legal description is documented for your claim file.

Also, I can send you an amended claim with the correct legal description for your property at 14863 N. Freddi Rd. that you could sign and return to IDWR. The amended claim is not essential because of the documentation you have provided; however, it is always best to have the claim match the location of the actual water use.

**Subject:** RE: Coeur d'Alene-Spokane River Basin Adjudication Claim No. 95-11334

Carter,

Thanks for your e-mail.

I don't understand the source of the confusion, because I used the legal description on the attached well driller's report. My well tag number is indeed D0033899.

My address is 14863 N. Freddi Rd, Rathdrum. The county parcel number for my property is 0J3870010010. Claim No. 95-11334 pertains to well #D0033899 on that parcel.

Please advise what I need to do.

Regards,  
Scott Quigley

Dear Mr. Quigley:

Thank you for filing your Coeur d'Alene-Spokane River Basin Adjudication claim online. An initial review of your claim reveals that the legal description entered for the claimed point of diversion and place of use, Township 50 North, Range 05 West, Section 33, SW ¼ of the SW ¼, is land owned by the Stimson Lumber Company.

A search of Kootenai County Assessor records indicates you own property with a residential improvement at 14863 North Freddi Road in Township 51 North, Range 05 West, Section 4, Government Lot 3 (NE ¼ of the NW ¼).

Additionally, there is a well log on record for Scott Quigley that may or may not be for the well you are claiming. The driller noted the well was to be drilled at the end of Freddi Road, and entered the legal description on the well log as Township 52 North, Range 05 West, Section 20, SW ¼ of the SW ¼. This well should have a metal tag on or near it with a tag number of D0033899.

I surmise that your claim is for the domestic water use at 14863 North Freddi Road in Township 51 North, Range 05 West, Section 4, Government Lot 3 (NE ¼ of the NW ¼). Please let me know whether or not that is the case, and if tag number D0033899 is associated with the well that provides the water for Claim No. 95-11334.

Sincerely,

Carter Fritschle  
Section Manager, Adjudication Bureau
