Subject: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-11271

Dear Corrina:

Idaho Department of Water Resources (IDWR) has completed the initial processing of adjudication claim 95-11271 that you filed online. A review of the claim you filed indicates two different water sources and diversion systems appear to be claimed on a single adjudication claim.

If you have a domestic well, and you are also pumping water from a surface water source, you will most likely want to file another claim, so both water uses can be decreed by the CSRBA Court.

Also, a search of IDWR's records indicates a water right from the Spokane River was perfected under license 95-8550 for use on your property. Therefore, if the water from the Spokane River is still being used on your property, filing an additional claim for water right 95-8550 is suggested.

If you decide to file a claim for licensed right 95-8550, you may wish to change the purpose of use from "Irrigation" to "Domestic" since the license was limited to 0.5 acres, and the water is used in connection with your residence. By claiming it as a domestic use instead of an irrigation use, the filing fee for a claim to water right 95-8550 would be \$25.00 rather than the \$51.00 fee for the claim if it were filed for an irrigation use.

Please contact me if you have any questions or need more information. I can be reached by phone during business hours at (208) 287-4917 or (800) 451-4129, or by email at Carter.Fritschle@idwr.idaho.gov.

Sincerely,

Carter Fritschle
Section Manager, Adjudication Bureau
Idaho Department of Water Resources
