E. REASONS SUPPORTING OBJECTION(S):

This water right should not exist in regards to the additional 255,000 acre feet per year for which Idaho Power is now claiming priority over other water users. This claim by Idaho Power is in contravention to its representations, historical practices and agreements, including the 1923 agreement, that Idaho Power would have priority over other water users storing water in American Falls only for 45,000 acre feet of water per year.
