Subject: Idaho Water Rights

Mr Ching,

A water right ownership form you submitted or submitted on your behalf sometime ago surfaced on my desk recently. The water rights are related to the Downton property you and others purchased in 2008. The form identified several water rights by number. The water rights from the Salmon River appear in order. A domestic water right 72-10234 was apparently missed. The water right 73-12028 from the Pahsimeroi River for the property between Highway 93 and the Salmon River also is associated with the property.

Two other water rights on the form, however, appear errant. Both are domestic wells. Nothing in the deed documents received at IDWR indicate right 73-10033 in T15N R20E Section 1 Lot 1 was conveyed to you as was not right 73-10035 in T16N R20E Section 25 SWSW.

IDWR will be guided as to the ownership by the 2008 deed showing divided interest in the property unless subsequent conveyances show otherwise. The ownership change form listed you individually as sole owner. A letter confirming the name change will be sent in the near future at your Limelight address in Oroville.

Thank you for attending to these property matters.
