Attorneys for City of Weiser

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA

Case No. 39576

Subcase Nos. 3-7009, 3-7034, 3-10010,
3-10198, 67-2320, 67-4291, 67-4412,
67-10971, 67-10975, and 67-14129
(City of Weiser)

**JOINT STATUS REPORT OF IDWR AND
THE CITY OF WEISER**

The City and IDWR agreed to submit a joint written status report no later than January 28, 2010, to advise the Court regarding the unresolved issues affecting six of the subcases. The underlined materials are the status report.

(1) The first issue is whether a combined capacity limitation is necessary for the Snake River and Weiser River rights that are diverted for the City of Weiser's potable system (3-10010, 3-10267¹, 3-7009, and 67-14129²). The City has been able to determine and is discussing with IDWR that records are available to show that plant capacity as of 1987 was not restricted by the licensed capacity for the Snake River diversions into the plant.

¹ 3-10267 is a 1912 priority for 1.94 cfs late claim which will be filed to reflect staged development of the City of Weiser's diversion facilities. 3-10010 will reflect 1.87 cfs for 1903. 3-7009 will be 0.65 cfs from 1972. All three rights are from the Snake River)

² Depending upon the resolution of the diversion capacity issue, there will either be a withdrawal of the objection to 67-14129 or an SF5 will be executed for 67-14129 for 0.65 cfs with a 1972 priority date; and two new claims (1.8 cfs with priority of 1903, and 1.94 cfs with priority of 1912) will be filed. These are all Weiser River rights for the City's potable system.

(2) The second issue concerns the points of diversion for the two ground water rights in the Weiser drainage which are part of the potable system (67-4291 and 67-2320).³ The review indicates there is no reason to amend these two claims.

The remaining SRBA claims for the City have been resolved as follows:

- 3-10198 – An amended claim will be filed by the City of Weiser. The elements of the amended claim have been stipulated between IDWR and the City. As a result of the amended claim 3-10198, IDWR will issue an Amended Director's Report for 3-10198 and a Director's Report for 3-10264⁴ (Snake River irrigation).
- 3-7034 – A Standard Form 5 will be submitted (Snake River irrigation).
- 67-4412 – A Standard Form 5 will be submitted for 0.4 cfs with a 1954 priority date (Weiser River irrigation).
- 67-10975 – A Standard Form 5 will be submitted for 0.24 cfs with a 10/12/1887 priority date (ground water – domestic and fire protection).
- 67-10971 – A Standard Form 5 will be submitted for 0.04 cfs with a 1980 priority date (ground water – domestic use at airport).

The City of Weiser and IDWR will submit a joint written status report no later than January 28, 2010 to advise the Special Master regarding the unresolved issues affecting 3-10010, 3-10267, 3-7009, 67-14129, 67-4291, and 67-2320.

Respectfully submitted this 28th day of January 2010.

By

Josephine P. Beeman

³ The City's potable ground water rights 67-4291 and 67-2320 currently list only a single point of diversion for each water right. The City does not intends to file amended claims to show two alternate points of diversion for these two ground water rights. ~~It is possible there may be more alternate points of diversion for these two ground water rights. This will be reflected in the amended claims for 67-4291 and 67-2320.~~

⁴ The amended claim for 3-10198 will be split by the Department into amended recommendation 3-10198 and new recommendation 3-10264 once the motion to amend 3-10198 is granted.
