4128 ACRES TOTAL

The rights listed below are limited to the irrigation of a combined total of 800 acres in a single irrigation season within the 4,128 acre land base. Combined Right Nos.: 2-2260, 2-7019B, 2-7019D, 2-7022B, 2-7023B, and 2-7102B.

This right is limited to the irrigation of 300 acres within the place of use described above in a single irrigation season.

After specific notification by the Department. The department must be notified in writing if a change occurs in the location of irrigated land, prior to diverting the water and must be provided a map showing the location of acres to be irrigated within 40 acre tracts.

A second crop cannot be grown and/or harvested from the new lands during the same growing season that a crop has been grown on the old land. "Crop", in this case, also includes irrigated pasture.

Once water is diverted on new lands, water cannot be used on the previously irrigated lands during the remainder of the irrigation season.

If the 4,128 acres are split into multiple ownerships, the water right shall be appurtenant to the 300 acres listed in the last Notice, if any, submitted to the Department unless otherwise provided for in the instrument of conveyance.
