DEPARTMENT OF
WATER RESOURCES

Mr Judge Eric J Wildman
My Problem in this Statment written
to you from the ~~term~~ of Lawyers
Barker Roshalts & Simpson LLP
have tried to Make you Believe that
I do not Like to follow the Law.
This is a faulse Statment and
damaging to my Charter. I am the
one that Retaines the water right
#6332533, which again I was forced
to do so and pay for, when I held
the original water right. then again
this Rivier Side Water Right has Continously
be Related to as I just a Statment to I indicat
other source of Water and should not be
admissable in a Court. It does not
apply to the water Right in dispute.

Again Mr Booth, Refuses or his
office, to come down or give Boise the
Authority to do so without there SRBA
approval and they will not give them this
or I can prove to you through them
that the water is not waste water
it is spring water and in my Rebutel
I state that I have 120 Pitchures to Prove
this is live Running Water in a ditch.

over

... again - have a water right # to pay
this water. Live Running Water is open 2-4
to Public use and again I have Right
to this Water from 1933 before anyone
Prior that are making these decisions,
that are seated at this time in office
positions.

they Lawyer for Wilder Irrigation
are again Learning Real hard on the
fact of Vern Case affidavit, and he is
a Board member, and Bill Aten
Saying and Stating this is a drainage Water
Just what the Lawyers want to here
this has no Bearing on this
is not Seepage water it is under ground
Creek water and again it flows constantly
through winter, when no drainage is
draining into ditch, which is Real Drainage
water. And not Live Running water which
it is, and not nearly Seepage. This
is a ruse. So I ask you Mr Judge
Eric J Wildman to ask the SRBA to Come
down and we will look at this water.
and Prevent them from doing so.

So that I might give this Case
is being one sided and Pushing me a
farmer of this land to the Back Burner
which is misbehavior.

Over

by not letting these people come down.

Again I still retain this water right, no matter what you want to call it and I will continue to retain this water right, no matter what or how bad you try to make use look.

And if you take, or cease to give or take this water from use divert or use for sale to another party down or up stream, you will be sued in Supreme Court for taking this water right, given by the State ^{of Idaho} to this family in 1933 as a homestead of this property.

This ditch should show that this is not merely a drain ditch but is a live creek water running constantly through winter and summer. not merely seepage.

So this case is not settled at this time.

The Burden of proof is upon the State. and the State Refuses to send down people to indicate that this is true about this ditch. And I have proof of this in sketch... etc...

17. As I have ask for "proof otherwise" through bail and do not have.

3 or 4 lets continue this and do
thing that are prudent to Both Parties
w/out using Bill. Atms and Vern
Cases ~~Adelovict~~, to lean hard on
to present your case for this matter.

I also feel your or Wilder
Irrigation is trying to protect
Big Business such as Simplot and
from sucking this ditch dry, and
hence not being able to do anything
about it. And through there pivot
systems this could happen, and then
Poor Joe, Bill, Matthew, Maria,
will just simply not get there
water which they were granted
by the state of Idaho through the
State as a legal document as Water Right.

and if these ~~pirates~~ interfere with this water live running not seepage, they have infringed upon my Water Right. Dated 1933. and I shall have Recourse at that time

Bill Atter

Call this Live Water.

Bill Allen
Thank you Joe Allen
Matthew Allen
Maria Morales
