RE: Change of Ownership for water right 84-10579

RECEIVED

MAY - 3 2010

DEPARTMENT OF
WATER RESOURCES

Dear Claimants:

The department received a Change of Ownership form for the above water right in Nov., 2005. In our recent review, we have found that the change of ownership may not have been completed as you intended.

yes The Quit Claim deed included with the change of ownership was interpreted by IDWR to convey life estates to Kelly Cole and William & Betty Cole with the remainder to pass to Kay Cole upon the deaths of those possessing the life estates. All four names were included as owners of the water right. *OK*

A memo in the file indicates that this was not your wish; that you wanted to split the water right. We also have record that you paid an additional \$75.00 to split the water right. That split was never completed because we did not have the correct documentation to proceed, although you may not have been notified of the need for additional documentation. *- was not*

If you would still like to split this water right, we need deeds (usually a Warranty Deed) or some other legal documents that show the ownership of all parcels involved with this water right.

Copied
I will hold this file until May 31, 2010. If you wish to split this water right, please submit the requested documentation before that date. If you are satisfied with the current ownership of the water right, you may request a refund of the \$75.00 by sending a letter to the above address and referencing receipt no. C081240. I have enclosed a copy of your water right.

If you have any questions, contact me at 208-287-4967 Mon. thru Thurs.

Sincerely,

A handwritten signature in cursive script that reads "Sandy Egbert". The signature is written in black ink and is positioned above the printed name.

IDAHO DEPARTMENT OF WATER RESOURCES

Water Right Report 84-10579

Conditions of Approval:

1. N11 The quantity of water decreed for this water right for stockwater use is not a determination of historical beneficial use.
2. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
3. N13 The quantity of water for stock water under this right shall not exceed 13,000 gallons per day.
