RE: Snake River Basin Adjudication (SRBA)
Motion to File Late Notice of Claim
Claim Number 86-11988

Dear Mr. and Ms. Marek,

The Snake River Basin Adjudication court recently forwarded a copy of late claim 86-11988. After reviewing the information received from the court, I am afraid that it is unclear to me what you are intending to claim for the place of use and points of diversion. For your convenience, I am enclosing a copy of the information packet the court forwarded to IDWR.

I see that there are several attachments submitted along with the claim form. It is not clear if the attachments submitted with the claim are meant to be claimed as points of diversion, places of use, or if it is additional information provided to support the validity of the claim.

For your review, I have prepared and enclosed what I think the intended claim report should look like. Note that I only included the points of diversion listed on the actual claim form. I listed the place of use to have the same legal description as the points of diversion.

Please look over the enclosed claim and if the claim looks accurate, please initial any changes, sign the claim, and send it back to my attention. If, however, the enclosed claim does not represent the water use you intended to claim under 86-11988, please clarify the place of use and points of diversion for claim 86-11988 and send that information back to my attention. For your convenience, I am enclosing a blank claim form.

Please feel free to contact me with any questions.

Sincerely,

Craig L. Saxton
Water Right Supervisor
Adjudication Bureau
