Re: Recommendations for right #75-10062A and others.

Dear Mr. & Mrs. Burns:

We have modified the diversion rate on 75-10062A to be 0.026 cfs as requested. The total number of irrigated acres was not changed at this time because the outline of the place of use when it is overlayed on the aerial photo computes to 10.9 acres. Although you may own 11.6 acres, the right is only for those acres actually irrigated. When roads, driveways, homes and outbuilding are removed the irrigated acreage equals 10.9 acres.

Right number 75-14248 is recommended with the 1915 priority date as requested.

After you receive the Director's Report, you may still file an objection with the Court if you disagree with any portion of your rights.

Please do not hesitate to contact me if you have any questions.

Sincerely,

Gregory J. Taylor
IDWR
