RE: Reference Maps for Lemhi River Diversions

Dear Mr. Stokes,

Per our conversation I am enclosing 7 maps that show various views of the area where you claimed water use under 74-14691 and where water right 74-843 was decreed.

What I am hoping is you can take one or more of the maps and draw the following features:

- Point of diversion from where the 3.25 cfs under water right 74-843 is diverted from the Lemhi River.
- Point of diversion where water for the 10 ish acres claimed under 74-14691 is diverted from the Lemhi River.
- Location of the Cockrell Ditch
- Points water is diverted from the Cockrell Ditch to the place of use for 74-14691
- Anything else that could help explain how the place of use for 74-843 and 74-14396 is irrigated.

→ Small Ditch Just At the top of yellow. Flood irrigation

If you can describe what you need to on one map, you only need to send me one back.

I am enclosing a pre-paid envelope to my attention to send the map(s) with your additions back to me.

Thanks for your help with this.

Respectfully,

Craig L. Saxton
