MEMO TO FILE

LICENSE NO. 35-2253 & PERMIT NO. 35-7171

License 35-2253 (G-23048) has two wells, each irrigating separate and distinct lands. The well located in the NE 1/4, Sec. 1, T. 2S, R. 32E (License G-23048) is the same well as shown on permit 35-7171. This has been confirmed by a field check. Our records show a license of ~~4.00~~^{3.90} cfs with a priority of 7/15/1952 on this well. The field exam on 35-7171 shows 313 acres which allow 6.26 cfs, less the ~~4.00~~^{5.90} cfs already provided on License G-23048, and would mean that permit 35-7171 could possibly be licensed for 2.26 cfs. However, the well is only capable of producing ~~0.67~~^{0.77} cfs over that which it is already licensed for under G-23048. Permit 35-7171 should be licensed for ~~0.67~~^{0.77} cfs.

RODNEY A. PARKER
Sr. Water Resource Agent

We can condition the permit to read that no more than 4.67 cfs can be diverted from the well when the two rights are combined and issue this license for 2.40 cfs as these sands are completely different.
