THEORETICAL PUMP FLOW CALCULATIONS

Formula:

$$Q_{cfs} = [(Hp)(8.814)(Eff)] \div [Lift + (psi \times 2.308)]$$

Hp = Horsepower = 40

Eff = Efficiency = 70 (Usually 70%)

Lift: (Static Level + Assumed Draw down)

Static Water Level = 70 ft.

Assumed Draw down = + 10 ft.

Lift = 80

OR

Measured Dynamic Water Level = _____ ft.

psi = Operating Pressure = 40 ^{Assumed} psi

$$Q_{cfs} = \left[\frac{40}{Hp} \times 8.814 \times \frac{.70}{Eff} \right] \div \left[\frac{80}{Lift} + \left(\frac{40}{psi} \times 2.308 \right) \right]$$

Re: SRBA claim A63-27810

Dear Richard:

Your son Tim assisted me yesterday in conducting my field exam for your claim referenced above. Even though you are not currently using the well or irrigating the fields, there is sufficient evidence to support the historical use of the water.

I can recommend 30 acres of irrigation as you claimed but would recommend 17 acres in the NESE and 13 acres in the NWSE as I've indicated on the enclosed aerial map. Please review the map and if you agree return it to me with the additional information requested below. If you want to discuss the acres in more detail call me at the number below.

Prior to making my final recommendation for your claim we need some additional information and documentation. First, as requested in the July 7, 1995 letter, you need to submit evidence to support the February 7, 1963 priority date you claimed. I also need to confirm the depth to the standing water level (static level) in the well and the size (horse power) of your pump. If you have copies of documents in your files to support the pump size and water level please provide me with copies. If not, provide me with the name of your pump company and I will attempt to obtain copies from them.

Call me if you have any questions or discussion concerning these matters.

Sincerely,

Mel Schulte

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): 63-27810

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout or re-file it. You indicated, when these claims were filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. The required evidence supporting the priority date(s) requested needs to be submitted by March 31, 2006.

Please let me know if you have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

Sandy Egbert

Re: Snake River Basin Adjudication claim A63-27810

Dear Mr Dines:

In reviewing the file for the above referenced claim I note we still need evidence to confirm the February 7, 1963 priority date you claimed. I noticed on the invoice copies you provided that a 30 hp pump was installed 4-20-1969. If that implies that water from the well was first used on that date, we have a problem to address.

The State of Idaho enacted a law specifying that any appropriation of groundwater after March 25, 1963 required a permit from the State. Appropriations of groundwater prior to that date were exempt from the permit requirement. Therefore, it is important for you to confirm that the well was first used for irrigation prior to March 25, 1963 for that appropriation to be legal per Idaho's laws.

Enclosed is a second copy of a letter and pamphlet we mailed to you in July 1995 concerning evidence of priority. After you have read these documents, call me at the number below if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads 'Mel Schulte'.
