RE: Subcase No. 75-10061AA (Edmiston)

Dear Special Master Dolan:

Enclosed please find an Amended Director's Report ("ADR") for the subject water right. On January 14, 2010, the Department submitted its first ADR for this water right. The Department inadvertently left off the "Place of use does not include federal public lands" language which had previously been agreed to by the water right holder and the United States in an SF5. This latest ADR is identical to the January 14, 2010 ADR, except this version includes the "Place of use does not include federal public lands" language.

I have brought this issue to the attention of the counsel for the parties and they agree the amendment to the recommendation does not necessitate the running of a new objection and response deadline, as the language at issue here was previously agreed to in an SF5 and should have been included in the most recent ADR. Therefore, IDWR respectfully requests that the court accept the new ADR without starting a new objection and response deadline.

Sincerely,

GARRICK L. BAXTER
Deputy Attorney General
Idaho Department of Water Resources
