CONVERSATION MEMORANDUM

**RE: Snake River Basin Adjudication Water Right Nos. A63-2691
Notice of Error Reply**

October 10, 2006

Dan Renfro called in response to the Notice of Error/Preliminary Recommendation packet of information he received in the mail. Both he and I are having a difficult time determining the number of stockwater since nothing in the file specifically states the amount or type of stockwater covered by this right. As a result, I merely added the explanatory remark: "Stockwater use is for range cattle" on the recommendation. In addition, since Mr. Renfro did not own the property in 1987, he was unable to give me a specific answer as to how many stock were watered at that time.

Therefore, based on the department's standard stock charts [I shared information with him from the *Quick Instructions for Domestic Wells* – Instructions for Form No. 42-1409(2)b (Revised August, 1989) and A. Kenneth Dunn's *Operations Division/Administrator's Memorandum*, regarding Annual Use of Water for Stockwater Purposes (dated April 7, 2975)] (copies of each in file) and our discussion, Mr. Renfro decided that the explanatory remark for stockwater use should state: Stockwater use is for 50 head mixed stock.

At the end of our conversation, I requested that Mr. Renfro return the completed *Notice of Error Reply* in the self-addressed stamp envelope we provided and include his determination that stockwater use is for 50 head mixed stock.

For turkeys, round to the next highest 100 and multiply this number by 0.0000033.

*If you have more than: 370 head of dairy cows, or 1000 head of other cattle, horses, or mules, or 3250 head of hogs, or 6500 head of sheep and/or goats, or 130,000 chickens, or 72,200 turkeys you probably use more than 13,000 gallons of water per day. Form No. 42-1409(2)a is used for claims when the amount of water diverted exceeds 13,000 gallons per day.

If you have more than 1000 head of hogs, sheep, or goats, round the number to the next highest 100, and multiply this number by one of the following factors: For hogs, multiply by 0.000074

For sheep or goats, multiply by 0.000037

Round the amount you calculate to the nearest 0.01 cfs and enter this amount in the appropriate space on your claim. You may claim 0.01 cfs even if your calculated amount is less than 0.01 cfs.
