RE: Subcase Nos. 27-11355 & 27-12211 (Rich)

Dear Julie:

Enclosed for filing, please find an SF5 for each of the above-referenced water rights. You will note that 27-12211 has not been previously reported. In review of the original Director's Report for 27-11355, the Department determined that the recommendation incorrectly described diverted stockwater use and in-stream stockwater use in the same recommendation. Accordingly, those uses have essentially been split, with the SF5 for 27-11355 reflecting the in-stream stockwater use and the SF5 for 27-12211 reflecting the diverted stockwater use.

If you should have any questions or comments, please don't hesitate to contact me at 287-4815.

Sincerely,

A handwritten signature in blue ink that reads "Ray Williams".

	)	STIPULATED ELEMENTS OF A
	)	WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described as per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.
