Brief

Applicants have proposed to change the P/U and P/D on a 38.5 acre portion of license 63-9156 for irrigation use in Quail Ridge Estates Subdivision. The transfer was prepared by ERO consultants.

Historical Use

Applicant provided a 1987 FSA photo showing irrigation of the licensed acres. 1994 and 2000 photos available in Arc View also show the licensed acres irrigated. Applicant stated in Attachment C that the acres have been continuously planted in alfalfa crop.

Overlaps

The overlap analysis for the current P/U shows water from Tenmile Creek, in the name of Pleasant Valley Irrigation District, overlaps the licensed acres. Applicant stated in Attachment 3 that the well has always been the only source of water for irrigation of the licensed acres. Applicant also stated that Pleasant Valley Irrigation District's President Eric Bodily and Attorney Terry Copple were contacted by ERO and both confirmed that Pleasant Valley Irrigation District has never provided surface water to the property covered by water right 63-9156. ERO provided an affidavit for supporting documentation (see attachment D).

The overlap analysis for the proposed P/U shows various filings for domestic and irrigation uses that have been previously submitted by individual lot owners in Quail Ridge Estates Subdivision. Right 63-8732 was once used for irrigation at the proposed P/U, however after Dept analysis, the right appeared forfeited based on non-use. At the advice of the Dept., some lot owners limited their irrigation to ½ acre and filed

applications for permit for additional irrigation, which are being held due to the moratorium. Others developed over 1/2 acre irrigation anyway and filed SRBA claims on a portion of the old irrigation right that looks forfeited. Now with resumption of use being recognized in the SRBA, forfeiture may not be an issue. Those following the advice of the Dept. seem to be getting punished for doing so now that resumption of use is possible.

In an effort to remedy the above mess, the lot owners united and through ERO, purchased ground water and filed this transfer to take care of all the subdivision's irrigation needs. Jeff Peppersack and Norm Young decided that one transfer, representing all the participating Quail Ridge lot owners, was easier to process than a separate transfer for each, even though there are 15 private wells involved. The subdivision plat map (attachment E) has been included which identifies the location of each individual well and owner. Attachment F lists the owners names, addresses and phone numbers.

Every parcel within Quail Ridge Estates has been included in this transfer for irrigation except for lot 1, block 3. The owner of this parcel refused to participate and did not purchase irrigation water. Sherl Chapman of ERO stated that the lot owner was made fully aware of the consequences of his decision. Sherl said that currently lot 1, block 3 is not irrigated.

Once this transfer is approved, participating lot owners will be notified by Steve Lester to file a change in ownership and upgrade their domestic drilling permits. Those who have filed some kind of claim or application will be advised to withdraw their previous filing. Their filing fees will be applied towards their well upgrade fee. Any excess fees will be refunded.

Recommendations

Request well upgrade fees prior to sending to SO.

NOTE: THE TOTAL CFS FOR THIS WATER RIGHT HAS BEEN INCREASED TO .88 CFS RATHER THAN THE .84 CFS ISSUED ON THE LICENSE. THE REASON FOR THIS IS DUE TO AN ERROR IN THE FIELD EXAM REPORT WHEN THE DOMESTIC .04 CFS AND THE IRRIGATION .84 CFS WERE NOT ADDED TOGETHER. THERE ARE TWO WELLS SHOWN ON THE EXAM, THE IRRIGATION WELL WAS MEASURED AT .84 CFS , THEN IN ADDITION THE DOMESTIC WELL SHOULD HAVE BEEN ADDED IN SINCE IT IS A SEPARATE WELL. DUE TO THE FACT IT WAS THE DEPARTMENTS ERROR, THIS RIGHT SHOULD BE AMENDED TO SHOW .88 CFS. ALSO, THE CLAIMANT WAS NOT HOME AT THE TIME THE 10-DAY NOTICE LETTER WAS SENT, BUT AS SOON AS HE RETURNED A CALL WAS MADE TO JIM JOHNSON QUESTIONING THE .84 CFS TOTAL. HE WAS INFORMED IT SHOULD NOT CAUSE A PROBLEM AND THE .84 CFS WAS ISSUED. HOWEVER, DURING A SALE THE .84 CFS CAME UP AND DID CAUSE PROBLEMS, THEREFORE, THE CLAIMANT REQUESTS THIS CHANGE. NOTE: THE TOTAL CFS FOR THIS WATER RIGHT HAS BEEN INCREASED TO .88 CFS RATHER THAN THE .84 CFS ISSUED ON THE LICENSE. THE REASON FOR THIS IS DUE TO AN ERROR IN THE FIELD EXAM REPORT WHEN THE DOMESTIC .04 CFS AND THE IRRIGATION .84 CFS WERE NOT ADDED TOGETHER. THERE ARE TWO WELLS SHOWN ON THE EXAM, THE IRRIGATION WELL WAS MEASURED AT .84 CFS , THEN IN ADDITION THE DOMESTIC WELL SHOULD HAVE BEEN ADDED IN SINCE IT IS A SEPARATE WELL. DUE TO THE FACT IT WAS THE DEPARTMENT'S ERROR, THIS RIGHT SHOULD BE AMENDED TO SHOW .88 CFS. ALSO, THE CLAIMANT WAS NOT HOME AT THE TIME THE 10-DAY NOTICE LETTER WAS SENT, BUT AS SOON AS HE RETURNED A CALL WAS MADE TO JIM JOHNSON QUESTIONING THE .84 CFS TOTAL. HE WAS INFORMED IT SHOULD NOT CAUSE A PROBLEM AND THE .84 CFS WAS ISSUED. HOWEVER, DURING A SALE THE .84 CFS CAME UP AND DID CAUSE PROBLEMS, THEREFORE, THE CLAIMANT REQUESTS THIS CHANGE.

MEMORANDUM

TO: File

FROM: Steve Lester 

DATE: April 1, 2003

RE: Voiding Application for Permit No. 63-31271

The applicant was included in my 9/11/02 mailing noted in the file. I suggested the application be withdrawn so a refund could be issued. The Post Office did not return that mailing. The applicant did not respond regarding the application or request a refund for this application.

Another letter was sent to the applicant on 2/25/03. This letter explained that the application is considered void due to no response by the applicant. The Post Office did not return the letter.

The letters are presumed to have been delivered. The applicant took no action for this application. The applicant did complete a notice of water right ownership change related to the transfer discussed in my first mailing. The applicant has demonstrated full awareness of the process surrounding water rights for the site. Indeed, this applicant first started the conversation with me many years ago about solving the water right dilemma now resolved by approval of Transfer 69712 and subsequent ownership changes related to the situation.

The application should be voided, and a refund should not be issued under these circumstances.

A right resulting from the ownership split, Adjudication Claim 63-31652, serves the property in question. Voiding Application 63-31271 does not adversely affect the land in question.

Re: Original Notice of Claim to a Water Right No. 63-31429

Renumbered Notice of Claim to a Water Right No. 63-31652

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section

TO: Quail Ridge Estates Homeowners

Re: Multiple Splits of Water Right No. 63-31429

Dear Homeowner:

This letter concerns use of your existing or proposed domestic well to irrigate your acreage in the subdivision. As you probably know, a solution to the long-standing water rights problem has been reached to allow your well to legally irrigate your property. The solution was approval of *Transfer No. 69712*. The transfer moved a portion of a water right to the subdivision, and that portion has been identified as *Adjudication Claim No. 63-31429*. The new approval lists many points of diversion (wells) to irrigate 38.5 acres in your subdivision. Transfer approval already included the upgrade of drilling permits for existing domestic wells to also be used for irrigation (\$125 per upgrade).

One more step is needed to complete the picture. Fortunately this last step does not require additional fees. Indeed, several owners will be eligible for refunds as explained later in this letter.

The last step is for each owner to file a *Notice of Change in Water Right Ownership*. *Each irrigated acre is authorized 0.0122 cubic feet per second and 4.5 acre feet per year*, a sufficient amount to fully irrigate each acre. Refer to the list of participants and the subdivision plat at the end of the enclosed transfer approval to determine how many acres you should include in an ownership change to be recorded with this office. You should complete items 2 and 4 through 7 on the form.

Several owners filed various other applications seeking individual solutions for their parcels in recent years. Those filings serve no purpose at this point and can be withdrawn, and a full refund of fees previously paid will be made. See enclosed Table 1 for a summary of possible refunds and how to seek refunds.

Acknowledgments are made to ERO Resources Corp. and to Senior Agent Lori Graves of the Idaho Department of Water Resources. Their efforts were instrumental in shepherding the transfer application to a successful approval.

The distribution list for this letter matches the participant list in the enclosed transfer document with one exception. Alves Trust has been replaced by Kaiser as owner of Lot 3 Block 2, but Alves Trust is included in this mailing. Alves Trust can withdraw an application but does not need to file an ownership change. Kaiser should file the ownership change for that lot.

Please complete the enclosed ownership change forms and return them to this office within thirty (30) days. Since I will be absent during the next few weeks, please direct any questions to Lori Graves at 334-2190. Thank you for your prompt attention to this last step required by Idaho law to fully protect your continued irrigation. It has been a long and confusing struggle to reach this point, and I am gratified to see a workable solution for your situation.

Sincerely,

Steve Lester
