LAST WILL AND TESTAMENT
OF
REX S. JENSEN

I, REX S. JENSEN, a resident of Canyon County, State of Idaho, declare this to be my Last Will and Testament and revoke all prior wills and codicils made by me.

ARTICLE I
FAMILY INFORMATION

My wife is Roxy C. Jensen and all references in this Will to my wife are to her. My children living at the execution of this Will are:

<u>Name</u>	<u>Date of Birth</u>
Marion L. James	December 14, 1916
Roxy Elizabeth McDonough	December 22, 1918
Chrystal J. Evans	January 25, 1927

ARTICLE II
COMMUNITY AND SEPARATE PROPERTY

I confirm to my wife her one-half (1/2) interest in our community property. It is my intent by this Will to dispose of my separate property and my one-half (1/2) interest in our community property. Nevertheless, if my spouse survives me, I

Rex S. Jensen

SCANNED
NOV 18 2003

request that our community property be divided such that the real property comprising 300 acres more or less in Canyon County, Idaho, otherwise known as the Lakeview property, is allocated to my share of our property and other "offsetting" assets of equal value be allocated to my wife's share of our property.

ARTICLE III

TANGIBLE PERSONAL PROPERTY

A. Certain Dispositions by Memorandum. I give certain items of tangible personal property (excluding money, evidences of indebtedness, documents of title, securities, and property used in a trade or business), including insurance policies and claims under such policies, in accordance with a memorandum signed by me or in my handwriting, which I intend to leave at my death.

B. Other Personal Property. I give all my jewelry, clothing, household furniture and furnishings, personal automobiles, and other tangible articles of a personal nature, or my interest in any such property, not otherwise specifically disposed of by this Will or in any other manner, together with any insurance on the property, to my wife if she survives me for ninety (90) days, and if she does not, to my children who survive me for that period in equal shares as they shall agree, or as my

Rex S. Jensen

Personal Representative shall in my Personal Representative's discretion determine if my children do not agree. It should be noted that we do not own our principal residence, it having been previously transferred.

ARTICLE IV

RESIDUARY ESTATE

A. Defined. All of the residue of my estate, both real and personal, of every nature and wherever situated and whenever acquired shall constitute my residuary estate.

B. Gift of Residuary. If my wife survives me by ninety (90) days, then I give my residuary estate to my testamentary Trustee, in trust, on the following terms:

1. So long as my wife survives me, the net income of the trust shall be paid to or applied for the maintenance, education, or support of my wife or of any or all of my children at such times and in such proportions as my Trustee shall determine in his or her absolute discretion. Any accumulated income shall become part of principal. In the event the income shall be insufficient to provide my wife with adequate maintenance or support, the Trustee may invade principal for this purpose. Nevertheless, it is my non-binding

Rex S. Jensen

preference that such income or principal be paid or applied for my wife's benefit only in the event her other sources of maintenance or support are inadequate.

2. Upon the death of my wife, the then remaining principal shall be distributed to my then living issue, by right of representation.

3. If any portion of the principal of the trust shall be payable to a beneficiary who is then less than twenty-one (21) years of age, such portion shall immediately vest in such beneficiary, but distribution thereof shall be postponed by the Trustee until such beneficiary attains the age of twenty-one (21) years, and in the meantime the Trustee shall pay such part of the income on such portion, and the principal of such portion, as the Trustee shall deem necessary or proper to provide for such beneficiary's suitable support, education and maintenance, adding any unused income to the principal at the end of each year.

4. Should there be no living beneficiary of this trust, the principal shall go to the person or persons named in Article IV C. of this Will.

5. Prior to actual receipt, no beneficiary of this trust shall have any right to alienate, encumber,

Rex S. Jensen

or hypothecate his or her interest in the principal or income of the trust in any manner, nor shall such interest of any beneficiary be subject to claims of his or her creditors or liable to attachment, execution or other process of law.

C. First Alternate Gift of Residuary. Should the prior provisions of this Will not dispose of all of my property, I give such property to my issue, by right of representation, but subject to Articles IV B.3. and IV B.5. above.

ARTICLE V

FIDUCIARIES

A. Personal Representative. I appoint Robert L. Bilow and Edward T. Evans as Co-Personal Representatives of this my Last Will and Testament. In the event either is unable or unwilling to serve at any time, I appoint the other as such Personal Representative, or if he is unable or unwilling to serve, I appoint the Trust Department of First Interstate Bank of Idaho, N.A., Boise, Idaho, as my Personal Representative.

----- AGREEMENT AS OF JULY 1, 1988 ON DIVISION OF REAL PROPERTY -----

WATER:

There are two wells on the lakeview property at this time. These wells were drilled and developed under previous agreements between Bryce Millar and Rex S. Jensen. The licenses for these wells (63-7156 and 33559/63-3597) are issued to Bryce Millar and, under the original contract, will revert to Rex S. Jensen at such time as Bryce no longer leases the land. These two licenses, as issued, provide for the following amounts and locations:

total licenses; 2.81 cfs and 7.53 cfs = 10.34 cfs total,
total acreage under licenses; 280 + 908 = 1188 acres total as follows,
sec 10 = 414 acres, sec 11 = 498 acres, sec 14 = 120 acres, and
sec 15 = 156 acres, with priority dates of 4/13/67 and 10/7/68.

Subsequently, under a deed dated 10/19/80, 60 inches (1.2 cfs) was assigned specifically to the South 1/2 of the South West 1/4 of Section 11 from the wells in section 11, together with an easement as necessary to transport said water for use on these premises. (Trade for 80 acres and water in sections 13 and 14).

To the best of our knowledge today these two wells are currently capable of producing 3.25 cfs in the spring and taper off to 2.8 cfs by July. Subtracting the 1.2 cfs previously deeded this would leave from 2 cfs (100 inches) down to 1.6 cfs (80 inches) available for the approximately 350 acres under consideration.

We are trying to divide the property into three equal value pieces, as per the appraisal by Idaho Land and Appraisal Service and our own discussions, without unnecessarily complicating management of the parcels. We recognize that this land is subject to a lease to Bryce Millar. We have agreed that:

said lease to Bryce Millar which expires 12/31/2004 will continue as per contract as though there had been no change in ownership,
if for any reason this lease is terminated and the water licenses revert to the heirs of Rex S. Jensen the available water should be equally divided amongst the three of us (or our heirs) with 1/3 of the available water going to each of the daughter's parcels of land,
that this be specified in the deeds we each receive for our parcels of land, and that each parcel be granted the necessary easements to make this water available to our parcels as part of the original distribution.

ROADWAYS AND ACCESS

Parcel #2, as shown on the maps prepared by the appraiser, does not have access to the main road. This parcel will need an easement from the main road to gain access.

BILLING, TAXES, AND MANAGEMENT

It was agreed that each parcel should have an equal say - one vote per parcel - in future decisions. To simplify this each owner, or their successors, must designate one "voting representative" for their parcel with the authority to speak for the parcel. We have agreed that it will be necessary for these "voting representatives" to elect a "management representative" for the collection of rental fees, paying the property taxes, and distributing to each of the other parcels their fair share of the proceeds. It was agreed that this job should be recompensed at the rate of 2% of the rental collected for the present and would be renegotiated in the event the duties increased in the future. The point was made that this job would require working with and cooperating with Bryce to avoid cancellation of the contract.

WELL, PUMP, OR WATER SYSTEM REPAIRS AND MAINTENANCE OR REPLACEMENT

Under the existing lease, repairs and maintenance are the responsibility of the lessee. In the event this lease is terminated, all repairs, maintenance, or replacement costs to the water system become the responsibility of the owners and costs must be equally shared by the owners of the three parcels because all the water is provided by this one system. In the event of a problem this shall be handled as follows (it is assumed there will be someone renting, farming or providing some supervision on at least one of the parcels):

- 1) When the "management representative" is notified of a problem he shall immediately attempt to define the seriousness of the problem, possible solutions, and probable costs.
- 2) The "management representative" must immediately attempt to communicate this information to the "voting representatives", request their suggestions and determine if, when, and how the problem is to be solved. If any of the "voting representatives" cannot be contacted it will be assumed they would desire to have the system put back into operation.
- 3) If a unanimous decision is reached that the probable costs of solving the problem exceed the benefits this should be agreed upon in writing and the system will be allowed to continue in whatever condition exists.
- 4) If any one or more of the "voting representatives" feel that the benefit of having water outweigh the cost of solving the problem they may direct the "management representative" to proceed in a reasonable manner to get the problem solved, and costs will be billed to the three parcels equally. There is not sufficient water at best to meet the maximum allocation of 1 inch per acre for any of the parcels, so in the event any one or more of the "voting representatives" of these parcels does not promptly (within one week) pay their share upon notification or billing (by registered mail return receipt requested) the water representing their share as above shall be forfeit and shall be divided equally between the owners who do pay their share plus their share of the costs assigned to the forfeiting parcel.

DISCUSSION OF CONSERVATION RESERVE

We have discussed the advisability of putting whatever land is possible in the conservation reserve and have agreed that this is a good idea under present conditions. Bryce Millar will be instructed to pursue this, and, if an agreement satisfactory to him can be negotiated, we agree to place this land in the conservation reserve under the present contract with Bryce.

ALLOCATION OF PARCELS

Using the map and appraisal sheet as prepared by Idaho Land and Appraisal Service as a base we discussed the relative values of the parcels and how they should be allocated. In a free blind ballot, with each daughter indicating her choice of parcels in order from 1-first choice, to 3-last choice, the following selections were made (parcel numbers from appraisal):

Parcel number	CJE choice	MLJ choice	REMcD choice
1	2	1	3
2	3	2	1
3	1	3	2

As each parcel received equal ranking from the three future owners (each parcel receiving one first choice, one second choice, and one third choice) it is apparent that the division made by the appraisers was a good one. Each of the three daughters is to be deeded her first choice parcel with the allocations of water, expenses, and income as discussed above.

FUTURE SALE OF PARCELS

We have agreed, and so direct our successors, because of the shortage of water for these parcels that in the event any parcel individually is offered for sale the following terms will apply:

- 1) sale of any parcel will be priced in two ways - the land without water and the land with the share of water and responsibilities belonging to said parcel,
- 2) the difference between these two prices shall be considered as the value of the share of water described above,
- 3) the "voting representatives" of the other parcels shall have the right of first refusal of this share of the water (or their proportionate share thereof if more than one parcel wishes to buy additional water) and the responsibilities attached to this water at the value determined above. The "voting representatives" will be bound by the same conditions as described above - the "voting representatives" of these parcels must promptly (within one week) upon notification (by registered mail return receipt requested) indicate their desire to purchase this right or the right shall be forfeit and shall be divided equally between the owners who do indicate their desire to exercise this right - in order that the sale may proceed in a timely manner.

DISCUSSION OF TIMING OF ESTATE DISTRIBUTION

We, the heirs of Rex S. Jensen, discussed the timing of the distribution of the corpus of the estate and the effect such timing would have for us. We agreed that, as our present intention is to re-invest the capital we receive as soon as possible after receipt, there was no reason to try to "outguess" the market in converting the present assets to cash as per our previous agreement. We will request the trustees of the estate to proceed as promptly as prudent, after the above mentioned deeds are prepared, to convert the remainder of the estate to cash and begin the distribution of the assets to the three of us. We suggest that they continue to hold some assets in the trust until such time as they are reasonably certain all bills and liabilities have been satisfied and distribute these assets when the trust is closed.

AGREEMENT

We agree that this is a true statement of our intentions and the agreement we have reached, and that we have served as witnesses for the signatures of our sisters.

Part 1.d. Remarks

The members of the estate of Rex S. Jensen negotiated a settlement with regard to Mr. Jensen's property in Section 11, Township 2 North, Range 3 West, which is set forth in an agreement dated July 1, 1988 (Attachment B). Within that agreement the estate recognized that two water rights, 63-7156 and 63-3597, were appurtenant to Section 11, as well as other property. The agreement ultimately resulted in two water rights being appurtenant to Section 11, 63-3597D and 63-7156B. The total quantity of water under those water rights is 4.26 cfs. Water right 63-7156B has a later priority date but is not a supplemental right in the normal sense of the word. Because the quantity of water appurtenant to the total irrigated lands in Section 11 is much less than one (1) miners inch per acre, both water rights have been used as primary water rights for irrigation of the property. There are no surface water rights for this land.

Because of the agreement and a deed dated October 19, 1980, 1.2 cfs (60 miners inches) was assigned specifically to the south half of the SW $\frac{1}{4}$ of Section 11, Township 2 North, Range 3 West. The balance of the water under the two water rights discussed above was to be distributed equally across the properties within Section 11, held by members of the Rex S. Jensen estate. Unfortunately, the water rights records were not modified to recognize the agreement of July 1, 1988 and the deed. This transfer seeks to accomplish the intent of those documents.

Since modification of water rights and redistribution of water becomes incredibly complex when water is disproportionately assigned to acreage, the applicant requests that the Department approve this Application for Transfer, which distributes the water equally across the unique 365 acres held by the estate of Rex S. Jensen. The applicant further requests that the Department of Water Resources include a condition in the approved Application for Transfer that clearly assigns 1.2 cfs of water under these rights to the south half of the SW $\frac{1}{4}$, Section 11, Township 2 North, Range 3 West. It is the applicant's belief that after consultation with representatives of the Department of Water Resources that this is the easiest and most concise method of recognizing the agreement entered into by the heirs of Mr. Jensen without unnecessarily complicating the water right records of the Department. The applicant has provided a draft condition for insertion into the approved Application for Transfer at the end of this narrative as a convenience for the Department. If this approach is considered inappropriate after review, the applicant requests that they be given an opportunity to modify the transfer application to meet the intent and letter of the agreement and the subsequent deed prior to action of the Department.

Draft Condition

The water rights described in this approved transfer are distributed as follows: **SCANNED**

The lands within the south half of the SW $\frac{1}{4}$, Section 11, Township 2 North, Range 3 West, are assigned 1.2 cfs for irrigation of 78 acres. The balance of the water (3.06 cfs) is distributed evenly over the remaining 287 acres described within the Application for Transfer. **NOV 19 2003**

RE: ERO Project 1473; Estate of Rex S. Jensen

Dear Steve:

I am in receipt of your letter dated January 23, 2001 regarding the transfer application no. 68832 in the name of the Estate of Rex S. Jensen. I have enclosed the completed page 2 of the transfer application and apologize for my oversight.

Your second question related to the beneficial use of water on the property for the past five years. All of this property has been in the conservation reserve program (CRP) from about 1990 to 2000. It was irrigated up to the point that it was put into the CRP and came out last year. I have acquired documentation of its inclusion in the CRP program and have attached copies. I hope this information is sufficient but if not please let me know.

Again, thank you for your help on this complicated transfer.

Sincerely yours,

Notice of Claim to a Water Right No. 63-31800, 63-31535, 63-31802, 63-3597H

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflect the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a final determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,
