MEMO

DATE: SEPTEMBER 13, 1993

TO: A35-13053, 13054, 13042 AND 07269.

FROM: ERIC VERNER *EV*

SUBJECT: BASIS FOR RECOMMENDED PRIORITY DATES.

=====

A common 250 acre permissible place of use is being recommended for the above mentions SRBA claims. Analysis of the evidence submitted regarding the development history of the 250 acres showed that there were three changes made to the original development to end up with the current 250 acres place of use. This memo details the basis for the priority date recommendations. Documentation supporting the recommendations is attached.

The water use is partially described by license 35-02162. The IDWR file on this license contains the following information:

- The application for permit was filed on 1/23/1950 and subsequently approved on 1/24/1950.
- Proof of completion of works was due on 1/24/1955.
- Proof of beneficial use was due on 1/24/1961.
- Proof of completion of works was submitted by the owner and was certified as complete by IDWR on 1/25/1955. The certificate mentions that a 75HP pump on the well supplied a flood irrigation system, irrigating the E1/2 NE1/4 Sec 21 and the NW1/4 Sec 22. The point of diversion was within the NENE Sec 21. In a letter dated 2/29/1956 to IDWR by Leonard H. Jacob, Attorney for then owner Douglas Rhead, mentions that Rhead had knowledge that "the pump has been installed for a period of about five years and proof of completion of works could have been made some time ago".
- Late proof of beneficial use was submitted on 3/27/74.
- The Director issued an order advancing the priority date to 3/26/1963. This is the licensed priority date.
- The licensing examination was done by IDWR on 6/30/1974 and found that a 75HP pump was used to supply a flood irrigation system included a relift pump in a waste water collection pond used to sprinkle irrigate approximately 30 acres. The diversion capacity was measured and found to be 4.39 cfs.

Other documents submitted by the claimant include:

- A power line easement issued to Idaho Power Company on April 20, 1951 for the power service to the pump and home in the NENE Sec 21.
- A power line easement issued to Idaho Power Company on August 12, 1957 by Douglas Rhead for the power service to the relift pump in the SENW Sec 22.
- An aerial photo used by the SCS for designing the sprinkler irrigation system now used by Evans. The design is dated 2/76. The photo appears to be the same that was used in the 1974 beneficial use exam of license 35-02162.

Analysis of recommended priority dates:

A35-13053

This claim is filed for the initial development. Based upon discussions with Craig Evans and the available information, the well was likely installed by the time electrical service was installed. Pursuant to the power line easement, this date was April 20, 1951. Mr. Rheads' statement (Jacob letter) tends to support that the well was in place by 1951.

The extent of use is harder to pin point but it would seem probable, based upon the "Completion of Works" certificate that the acres flood irrigated in 1974 were the same as those irrigated in 1955. There is no evidence that contradicts this assumption. Using the aerial photo in the 1974 examination, it appears that 172 acres were flood irrigated (this excludes that lands later sprinkler irrigated with the relift pump).

The "Completion of Works" certificate mention that a 75HP pump on the well discharged into open ditches. The 1974 beneficial use exam verified that a 75HP pump was still in use and that it open discharged into ditches. It is reasonable to assume that the two were the same pump so the diversion capacities would likely be the same at 4.39 CFS.

Based upon this information I have recommended A35-13053 with a priority date of 4/20/51, irrigation of 172 acres with a diversion rate of 3.44 CFS (1"/acre).

A35-13054

This claim was filed to record the expansion allowed by the relift pump. The evidence submitted supporting this expansion is the power easement issued on August 12, 1957. Pursuant to the 1974 field exam photo, it appears that an additional 30 acres were irrigated by the new sprinkler system.

Based upon this information I have recommended A35-13054 with a priority date of August 12, 1957, irrigation of 30 acres with a diversion rate of 0.60 CFS (1"/acre).

A35-07429

This right was licensed for additional lands irrigated in the N1/2 SW1/4 Sec 22. The recommendation follows the license including a priority date of July 1, 1974, irrigation of 30 acres with a diversion rate of 0.60 CFS with the limitation that when used with the other 4 rights, not to exceed 4.39 CFS.

A35-13042

In 1976 the SCS designed and helped fund the installation of sprinkler system over the entire place of use. By doing so an additional 18 acres were irrigated (high spots and corners were irrigated). This claim is filed as a second presumption expansion of the other appurtenant rights. It is recommended with a priority date of 4/1/1976, irrigation of 18 acres and a diversion rate of 0.29 CFS with the limitation that when used with the other rights, shall not exceed 4.39 CFS.

BEFORE THE DEPARTMENT OF WATER ADMINISTRATION
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT NO. 21344/35-2162)
IN THE NAME OF LESTER AND KIZZIAH TRACY)

ORDER

WHEREAS, on January 23, 1950, Willie W. Sova applied to the Department of Water Administration (formerly the Department of Reclamation) for a permit to appropriate 4.14 cfs of water from a groundwater source within the NE¹/₄ Sec. 21, Twp. 28, Rge. 33E, B.H., Bingham County, to be used for irrigation purposes; and,

WHEREAS, on January 24, 1950, the Department approved said application and issued Permit No. 21344/35-2162 with the condition that one-fifth of the work be completed on or before July 24, 1952; that the whole of said work be completed on or before January 24, 1955; and that proof of beneficial use of water be submitted on or before January 24, 1961; and,

WHEREAS, on March 17, 1953, Willie W. Sova assigned all his right, title and interest, in and to Permit No. 21344/35-2162 to Charles L. Bleazard; and,

WHEREAS, on January 25, 1955, the Department received proof of completion of works; and

WHEREAS, on April 4, 1956, Charles L. Bleazard assigned all his right, title, and interest in and to Permit No. 21344/35-2162 to Douglas M. Rhead; and,

WHEREAS, on March 27, 1974, Douglas M. Rhead assigned all his right, title and interest in and to Permit No. 21344/35-2162 to Lester and Kizziah Tracy and the new permit holders made proof of beneficial use; and,

WHEREAS, Section 42-218a of the Idaho Code provides that in the event that proof of beneficial use is submitted after the deadline set forth in the conditions of approval, the priority date of such permit shall be advanced the same number of days that said proof is late;

IT IS, THEREFORE, HEREBY ORDERED that the priority under Permit No. 21344/35-2162 be advanced to March 26, 1963.

Dated this 17 day of April, 1974.

RECEIVED
MAR 1 1955
Department of Reclamation

February 29, 1955

Department of Reclamation
State Capitol
Boise, Idaho

Attention: Mrs. Jeanne L. Anderson

Dear Mrs. Anderson:

21344
I am writing relative to Water Permit No. 31244 which originally was taken out in the name of Ollie W. Sora of Route #2, Blackfoot, Idaho. The permit was later assigned to Charles L. Bleazard and was filed in your office on March 17, 1953. Since that date Mr. and Mrs. Bleazard sold the real property involved in the permit to Mr. Douglas Rhead of Blackfoot, Idaho.

Mr. Rhead has now paid off his contract and has just received the water permit. I note that proof of completion of works should have been made on Jan. 24, 1954. Mr. Rhead advised me that the pump has been installed for a period of about five years and proof of completion of works could have been made some time ago.

Would you please advise me of the status of this permit, both as to the record holder of the same and also if proof of completion of works has been made.

If proof of completion of works has not been made, is it too late to make the same and would the present owner have to make application for a new permit?

With best personal regards, I remain

Very truly yours,

Leonard H. Jacob

Leonard H. Jacob

Permit No. 21344
 CERTIFICATE OF COMPLETION OF WORKS

TO ALL WHOM IT MAY CONCERN:

This is to certify that CHARLES L. BLEAZARD of Blackfoot, County of Bingham, And State of Idaho, the holder of Permit No. 21344, bearing date of priority of January 23, 1950, authorizing the diversion of 4.14 second feet of the waters of the Snake River from a well County of Bingham, State of Idaho, for irrigation purposes, has fully complied with the provisions of the laws of the State of Idaho relating to the proof of completion of the works of diversion set out and described in said Permit; that said works are adequate for diverting and conveying to the place of intended use 4.14 second feet of the waters of said well; that the point of diversion of said waters is in the NE 1/4 Section 21, Township 2 South, Range 33 East, B. M. and that the lands proposed to be irrigated by the use of said water are described as follows, to-wit: E 1/4 NE 1/4 Section 21; NW 1/4 Section 22; Twp. 2 South, Range 33 East, B. M.

Witness my hand this 12th day of February, A. D. 1955.

MARK R. KULP
 State Reclamation Engineer.

Prior to Completion of Works made January 25, 1955.
 Certificate of Completion of Works issued February 12, 1955.

A S S I G N M E N T

For value received, I hereby assign all my right, title, and interest in and to Permit to appropriate the public waters of the State of Idaho, No. 21344 to Douglas Rhead of Blackfoot, Idaho, Box 54, Horseland, Idaho

CHARLES BLEAZARD

 County of Bingham) ss

I, this 16th day of March, 1956, before me, a Notary Public for the State of Idaho, residing at Blackfoot, personally appeared Charles Bleazard also known as Charles L. Bleazard and Kathryn Bleazard, known to me to be the persons whose names are subscribed to the within instrument, and duly acknowledged to me that they executed the same. In witness whereof, I have hereunto set my hand and affixed my Notarial seal, the day and year in this certificate first above written.

AGNES GRIFF
 Notary Public, residing at
 Blackfoot, Idaho

My commission expires October 26, 1958.

Received and filed for record in the Department of
 Reclamation, at Boise, Idaho, April 4, 1956.

MARK R. KULP
 State Reclamation Engineer

Permit No. 21344

STATE OF IDAHO
Department of ReclamationProof of Completion of Works
AFFIDAVIT OF HOLDER

STATE OF IDAHO

ss.

County of Bingham

Charles L. Eleazard

being first duly sworn, upon his oath deposes and says:
First: That he is the holder and owner of Permit to appropriate the Public Waters of the State of Idaho, No. 21344, and that his postoffice address is Route 3, Blackfoot State of Idaho

Second: That the name of the stream from which said water is to be diverted is underground waters

Third: That the point of diversion of said water is as has been completed by
JANUARY 24, 1955 NE 1/4 of Section 21, Township 2 South, Range 33 E.P.M.

Fourth: That under the terms and conditions of said permit, construction thereunder was required to be completed by JANUARY 24 1955

Fifth: That the use for which said water is intended is irrigation

Sixth: That on the date above mentioned, the works constructed under said permit were (xxxxxx) fully completed and consisted of the following:

I. Kind of works: well with pump and ditches. The well is about 210 feet deep, cased 10 or 12 feet to rock (Reservoir, dam, ditch, pump, pipe or otherwise).
II. Dimensions of work: electric line 450 feet, turbine pump. The pump is a 75 h.p.

(a) Height of dam feet, length of dam at top feet, length of dam at bottom feet. Material used in construction

(State whether wood, earth, stone or concrete)

(b) Capacity of reservoir acre feet.(c) Size of headgate: Width feet, height feet.(d) Conduit/ditch width at bottom 3 feet, width at water line 5

(State whether ditch, flume or pipe)
feet, depth of water 1 1/2 feet; diameter of pipe inches, average grade per mile is 10 feet. Length of conduit is 2 miles, total.

Seventh: That said works are capable of conducting to the place of intended use 4.8 second feet of water.

Eighth: That water appropriated under said permit is available for acres of land described as follows: The East Half of the NE 1/4 of Section 21 and the NW 1/4 of Section 22, Township 2 South, Range 33 E.P.M.

Ninth: Remarks: That filing of this would have been made earlier but affiant has been working away from home.

2.

DATE/VOLUME CALCULATIONS: (IRRIGATION)

1a. IRRIGATION RATE
ACRES 250 X 0.02 CFS/ACRE = 5.00 CFS
(Taken from p/d review)

1b. CALCULATIONS

DOES AMOUNT CLAIMED EXCEED 0.02 CFS/ACRE? Y() N()

XXX IF YES ADDITIONAL WATER USE FORM FILLED AND ATTACHED Y() N() XXX

3. IRRIGATION CONSUMPTIVE USE

CLAIMED CONSUMPTIVE USE = 90.0 AE/A

ACRES 250 X CONSUMPTIVE VOL. AE/A FOR AREA 3.0 =

TOTAL CONSUMPTIVE USE 750 AE/A

3. IRRIGATION DIVERSION VOLUME

CLAIMED DIVERSION VOLUME = AE/A

ACRES 250 X DIVERSION VOL. AE/A FOR AREA 4.0 =

TOTAL DIVERSION VOLUME 1000 AE/A

4. CALCULATIONS FOR USES OTHER THAN IRRIGATION:

SEE ATTACHED SHEET? Y() N()

NOTES: (Include limitations on CONSUMPTIVE USE for combined rights.)
