RE: Notice of Change of Water Right Ownership (NCO) for 35-2567B, 35-2567C, 35-8612, 35-13242 and 35-13248 and Notice of Completed Administrative Proceeding (NCAP)

Dear Mr. Dewey:

On January 16, 2002, the Idaho Department of Water Resources (IDWR) received an NCO changing the right holder for the above referenced water right(s). Based on this NCO, IDWR water right records for the Snake River Basin Adjudication (SRBA) have been updated.

Furthermore, as directed by the SRBA Court, this office mailed a copy of the updated water right record(s) to each party listed on the enclosed NCAP. The intent of this mailing is to ensure each party has a current record of water right(s) as recorded in the SRBA.

Please feel free to contact me if you have any questions concerning this matter.

Respectfully,

Cheri Vandermeulen

Change of Address

Dear Water Right Holders:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your water right or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by January 18, 2002. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

Sally Sherman

Re: water right #35-02567C

To Whom it May Concern,

In regards to the below described farm. Prior to the sprinkler system that was installed on it, as it now exists, in late summer of 1970 this farm along with the farm bordering it on the south and the one bordering on the west were irrigated from three separate wells and flood irrigation systems. I was working for my grandfather C.L. Williams helping to tend the water in the summers of 1964 thru 1966 and remember that all of the farm described below was irrigated and farmed, but was split between the three different wells because of the different elevations of the property and the northern portion of the parcel belonged to someone else. C.L. Williams acquired the rest of the land and put in the sprinkler systems and squared up the farms into three parcels, this left some of the ground without water previously irrigated by the well farthest east of the three. The ground left with out water borders the below described farm to the east. This well was abandoned and point of diversion changed.

Part of Sections 12 & 13, T 2 S, R 33 EBM, Bingham County, Idaho,
described as:

Beginning at the NW corner of said Section 13; and running thence S 00 deg. 21' 53" W 1416.48 feet along the section line; thence S 89 deg. 03' 53" E 2651.30 feet; thence N 00 deg. 23' 39" E 851.73 feet along the North-South half section line to the southerly right-of-way of the Mackay Branch of the UPRR; thence along said right-of-way N 47 deg. 48' 21" W 895.82 feet to its intersection with the North section line of said Section 13; thence continuing on said right-of-way in Section 12 N 47 deg. 48' 21" W 1596.44 feet to the P.C. of a curve to the left (Curve Data: Delta = 10 deg. 02' 26", Radius = 5629.58 feet, Length = 986.53 feet, Chord = 985.27 feet, Tangent = 494.53 feet), thence along said curve 986.53 feet to its intersection with the west section line of said Section 12; thence in a non-tangent direction S 00 deg. 24' 34" W 1661.31 feet along the section line to the point of beginning.

Parcel is subject to a 30 foot right-of-way along the west side.

Re: Irrigated lands not covered by SRBA claims A35-02567B and A35-02567C

Dear Mr. Williams:

During a recent review of the Notices of Claim to the water rights listed above, the irrigated acreage identified exceeds the acreage covered by the water rights. Pursuant to § 42-1426 IC, the additional acreage may qualify for an "enlargement claim" thus allowing continued irrigation of these lands. For your reference, I have enclosed a computer-simulated illustration of the lands being irrigated. And, I have enclosed (SRBA) Proof Reports of the water rights referenced above. When comparing acreage amounts of the proof report for A35-02567C and the GIS illustration it appears that there are approximately 48 acres being irrigated, which may qualify for an enlargement claim. We have already discussed the enlargement for A35-02567B, and I am awaiting the fees and proof of priority document needed.

Also, for your reference, I have shown adjacent lands and the appurtenant water rights. Note on the GIS illustration that the blue and tan areas are covered by Non-Adjudication Licenses. We had previously discussed these areas so I included them in this letter. No action is required.

To file an enlargement claim you will need to furnish evidence showing when the additional land was placed under irrigation. The enclosed pamphlet entitled "Evidence of Priority" provides some guidelines for fulfilling this requirement.

Notices of Claim for the area in question are currently being reviewed by the Department prior to submitting them to the court. The court reporting deadline is coming soon, you need to respond this letter by 20 October. Otherwise you will be required to deal with the court for these outstanding matters. Please call this office to schedule an appointment if you wish to discuss this important matter or obtain assistance in filing an enlargement claim. I look forward to your timely response.
