INTER-DEPARTMENT MEMO--1

FROM Steve Lester

DATE 5/9/63

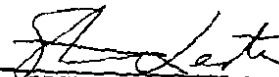

TO File

SUBJECT Dembi Split of A63-8449

From previous research & several conversations, I helped Mr. Dembi file ownership split. He said he owns 23 acres north of canal in NESE (note that A63-8426 covers 10 acres NESE but south of canal).

Appears Dembi has the 20 acres in that tract for A63-8449. But CFSA photo lists 19.2 acres in the field. Since Dembi appears to own all the land north of canal in NESE, I assumed a 20 acres vs. 19.2 acres split. Told him that result might be 19.2 acres but proceeded on 20 acres assumption.

This seems reasonable.

System Description (continued)

3. Narrative: Description. operating at time of measurement. Indica. pressure, number of sprinklers, etc.)

System has a 12" cased well approx 300' deep. Two (2) 5 H.P. Red Jacket submersible pumps are set at 40' and 45' respectively. Each pump has a 4" plastic discharge pipe and are capable of independent operation. The portable weir had only about 2" to 3" of drop so the measured head gave a higher reading for the amount of water being pumped. A 5 gallon bucket was used as an alternate method.

H. REMARKS AND OVERVIEW REVIEW ANALYSIS

of measurement. Each pump could fill the 5 gallon bucket in 1 second or less. The system distributes water via dirt ditches with siphon tube take out. It can operate 80 1/2" ID tubes + 70 3/4" ID tubes. Water is currently being used as the only source of water for the 20 acres in the NESE 1/4 of Sec. 15 2N 2W and supplemental irrigation water for the 36 acres in the SWNE 1/4 of Sec 15 2N 2W. Crops currently being grown include mint, sugar beets and beans.

Re: Original Notice of Claim to a Water Right No. 63-8449

Renumbered Notice of Claim to a Water Right No. 63-32364

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section
Western Region
