This is an aerial photograph of a rural landscape. A large area in the center and right is highlighted in red, while a smaller area in the lower center is highlighted in blue. A yellow line runs horizontally across the middle, and a green line runs vertically through the center. A white callout box with a black border and a pointer indicates a specific location within the red area. The label 'MAILHOT' is written in blue text inside this box. The label 'SEW' is written in yellow text in the blue area. The image has a grainy, pixelated appearance.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
63-31737	63-31737				

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Bull Development Inc.

WATER RESOURCES
WESTERN REGION

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
<u>63-4849</u>	<u>A63-4849</u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u>63-3162</u>	<u>A63-3162</u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

2. The following **REQUIRED** information must be submitted with this form:

A. The appropriate **FILING FEE**. See instructions for fee amounts.

B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.

C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Pedro & Betty Echanove and Alfred & Anita Gibbens
Rt. 1, Dry Creek Rd., Boise, ID 83703
4. New Owner/Claimant(s) Bull Development, Inc.
Name Connector (Check one): ☐ and, ☐ or, ☐ and/or
- New Mailing Address 2229 W. State St., Ste. B
- City, State and ZIP Code Boise, ID 83702
- New Telephone Number () 208-429-1900
5. Date you acquired the property September 21, 2000

6. **If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7.** If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

Change of Address

Dear Water Right Holder(s):

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation that this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your claim or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to our office. Make corrections to your name and address if necessary before returning this letter. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update or records.

If there has been a change in ownership of any of the properties connected with the water right referenced above, please call this office to obtain a form to make this required change to the water right records.

Sincerely,

Denise Buffington
Office Specialist 1
Adjudication Section

MEMORANDUM

TO: CRAIG SAXTON

FROM: DANIEL A. NELSON

DATE: 10/7/04

SUBJECT: TELEPHONE CALL REFERAL

Craig, I received a telephone call from a Mathew Castrigno regarding the Enchanove Ranch (Bull Development) water rights. Mr. Castrigno is claiming that he can move water anywhere within the 40-acre tract without filing a transfer. He said that Ron Howerton told him this was possible without filing a transfer. I am not sure what is going on in this situation, so I thought I better forward the call to you.

I did tell him that based on the transfer memo, we are bound on the allocation side to what was irrigated in 1987, and can't allow movement within a 40-acre tract without a transfer. However, I am not sure what the adjudication folks can allow on this issue, so I thought I better pass it onto you to let you give him the skinny. We are dependent on what you folks will allow, so it is probably better that you work with him directly. I hope you don't mind.

His telephone number is 939-5663.

10/26/04 - found: more acreage than in 1987
same as in 1987. John Howerton spoke with Mathew Castrigno
yesterday and explained the situation. Mathew said he was going to
file a transfer.

MEMORANDUM

DATE: 9/28/2004

FROM: Lori Graves

TO: SRBA Claim Files 63-31737 & 63-31739

RE: Groothuis Change in Ownership

Groothuis called 9/23/04 asking how long he had to install his sprinkler system before losing his water rights. As it turns out, he purchased Lots 1 & 2, Block 2 of Echanove Estates from Bull Development. He plans to build and install a sprinkler system on his property within the next two years and did not want to lose his water rights in the process. The developer sold him Lot 1 with 8.05 acres irrigation and Lot 2 with 6.04 acres irrigation from original water rights 63-3162 (ground water) and 63-4849 (Dry Creek).

M.D. (Butch) Groothuis filed the attached change in ownership 9/23/04. When I looked at his property location, I asked him to delay installation of his sprinkler system until I had a chance to review the files and consult with an SRBA agent.

Ron Howerton did an initial review of these rights. Based on Ron's analysis and Craig Saxton's re-analysis, Groothuis' property actually only has ~4.76 of the total recommended acres that Ron determined historically irrigated.

I called Groothuis with the news and he stated that he was going to confront the developer with the discrepancy. I'm sure we haven't heard the last of this one.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

RECEIVED

SEP 28 2004

WATER RESOURCES
WESTERN REGION

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
63-4849	63-31737	Y			
63-3162	63-31739	Y			

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s)

Bull Development

4. New Owner/Claimant(s)

M.D. and Judy L. Groothuis

Name Connector (Check one): [] and, [] or, ☒ and/or

New Mailing Address

3490 N. Saddleman Place

5. Date you acquired the property

3-3-2004

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

- NOTES:**
- ANY RE-SUBDIVISION OF THIS PLAT SHALL COMPLY WITH THE APPLICABLE REGULATIONS IN EFFECT AT THE TIME OF THE RE-SUBDIVISION.
 - ONCHORDAL STANDARDS IN THIS SUBDIVISION SHALL BE IN COMPLIANCE WITH THE APPLICABLE ZONING REGULATIONS OF ADA COUNTY.
 - THIS SUBDIVISION IS SUBJECT TO COMPLIANCE WITH IDAHO CODE 31-3005 CONCERNING IRRIGATION WATER.
 - A TEN FOOT (10') WIDE EASEMENT IS HEREBY RESERVED ADJACENT TO THE SUBDIVISION BOUNDARY AS SHOWN (EXCEPT IN CONSERVATION EASEMENT) FOR PUBLIC UTILITIES, DRAINAGE AND IRRIGATION.
 - A TEN FOOT (10') WIDE EASEMENT IS HEREBY RESERVED CENTERED ON ALL INTERIOR LOT LINES FOR PUBLIC UTILITIES, DRAINAGE AND IRRIGATION EXCEPT AS SHOWN. THIS EASEMENT SHALL NOT PRECLUDE THE CONSTRUCTION OF HARD SURFACE DRIVEWAYS TO EACH LOT.
 - LOTS SHALL NOT BE REDUCED IN SIZE WITHOUT PRIOR APPROVAL FROM THE CENTRAL DISTRICT HEALTH DEPARTMENT.
 - THIS DEVELOPMENT RECOGNIZES SECTION 22-4503 OF THE IDAHO CODE, RIGHT TO FARM ACT, WHICH STATES "NO AGRICULTURAL OPERATION OR AN APPLICANCE TO IT SHALL BE OR BECOME A NUISANCE, PRIVATE OR PUBLIC BY ANY CHANGED CONDITION IN OR ABOUT THE SURROUNDING NONAGRICULTURAL ACTIVITIES AFTER THE SAME HAS BEEN IN OPERATION FOR MORE THAN ONE (1) YEAR, WHEN THE OPERATION WAS NOT A NUISANCE AT THE TIME THE OPERATION BEGAN; PROVIDED, THAT THE PROVISIONS OF THIS SECTION SHALL NOT APPLY WHENEVER A NUISANCE RESULTS FROM THE IMPROPER OR NEGLECTED OPERATION OF ANY AGRICULTURAL OPERATION OR APPLICANCE TO IT."
 - IN ACCORDANCE WITH ARTICLE 8-B OF THE ADA COUNTY CODE, NO BUILDING SHALL BE CLOSER THAN 100' FROM ANY PROPERTY LINE.
 - CONSTRUCTION OF ANY IMPROVEMENTS, INCLUDING BUT NOT LIMITED TO DRIVEWAYS, RETAINING WALLS AND STRUCTURES, ON LOTS 1 & 2, BLOCK 2 SHALL AVOID THOSE AREAS WITH SLOPES OF GREATER THAN 15% AS INDICATED ON THE FINAL PLAT OR SHALL FULLY COMPLY WITH ARTICLE 8-B OF THE ADA COUNTY CODE.
 - CONSTRUCTION WITHIN AREAS OF SLOPES OF 15% OR GREATER IS PROHIBITED UNLESS APPROVED BY THE ADA COUNTY ENGINEER IN ACCORDANCE WITH ADA COUNTY HILLSIDE REGULATIONS.
 - NO ADDITIONAL DOMESTIC WATER SUPPLIES SHALL BE INSTALLED BEYOND THE WATER SYSTEM APPROVED IN SANITARY RESTRICTION RELEASE.
 - REFERENCE IS MADE TO THE PUBLIC HEALTH LITTER ON FILE REGARDING ADDITIONAL RESTRICTIONS.
 - DIRECT LOT ACCESS TO DRY CREEK ROAD IS LIMITED TO THOSE COMMON DRIVEWAYS AS SHOWN.
 - AN EXISTING CONSERVATION EASEMENT (INSTRUMENT NO. 101012647) ALONG DRY CREEK FROM MAFARLAND ROAD TO BROKEN HORN ROAD, AND ALONG CURRANT CREEK FROM THE SUBDIVISION BOUNDARY TO THE CONfluence OF DRY CREEK AND CURRANT CREEK IS PRESENT AS SHOWN. THE TERMS OF THE EASEMENT PROVIDES FOR ACCESS TRAIL(S) WITHIN THE EASEMENT ON THE SOUTH SIDE OF DRY CREEK FROM MAFARLAND ROAD TO BROKEN HORN ROAD. A PLANT PALATE WILL BE PROVIDED BY ADA COUNTY PARKS AND WATERWAYS TO HOMEOWNERS WISHING TO ESTABLISH VEGETATION WITHIN THESE EASEMENTS.
 - ANY LOT CONTAINING A CONSERVATION EASEMENT SHALL BE REQUIRED TO FENCE OUTSIDE OF THE EASEMENT PRIOR TO THE INTRODUCTION OF LIVESTOCK TO SAID LOT. FENCING SHALL BE SUFFICIENT TO KEEP LIVESTOCK OUT OF SAID EASEMENT.
 - BUILDING AREAS ARE THOSE OUTSIDE OF 15% SLOPES AND THE 100' SETBACK AS REQUIRED FOR THE WILDLAND-URBAN FIRE INTERFACE OVERLAY DISTRICT AS DESCRIBED IN 8-B OF THE ADA COUNTY CODE.
 - A TWENTY FOOT (20') IRRIGATION EASEMENT IS RESERVED, AS SHOWN, FOR THE PURPOSE OF MAINTENANCE AND OPERATION OF THE EXISTING IRRIGATION HEAD GATE AND LATERAL.
 - A TWENTY SIX FOOT (26') A.C.J.D. DRAINAGE EASEMENT IS RESERVED ALONG THE EAST SIDE OF LOT 7, BLOCK 1 AS SHOWN. THE EASEMENT SHALL REMAIN FREE OF ALL ENCROACHMENTS AND OBSTRUCTIONS (INCLUDING FENCES AND TREES) WHICH MAY ADVERSELY AFFECT DRAINAGE OR OPERATION AND MAINTENANCE OF THE FACILITY.
 - A SOUTH DRAIN FOLD EASEMENT SHALL BE GRANTED TO THE LANDOWNER SOUTHEASTERLY AND ADJOINING TO SAID EASEMENT AND LOT 10, BLOCK 1. SAID EASEMENT SHALL RUN WITH THE SAID ADJOINING LAND.

Re: Applications for Transfer for Water Right no. 63-03162 - Echanove Ranch

Dear Mr. Homan:

The Idaho Department of Water Resources (IDWR) recently published notice of 15 applications for transfer, filed by Bull Development, proposing to add or change points of diversion to water right no. 63-03162. In total, the applications propose the drilling of a well for each of 15 ten-acre subdivision lots in the Dry Creek Drainage.

During prior conversations with Pinnacle Engineers, IDWR staff identified a claim to divert surface water flowing in Dry Creek for beneficial use on the property proposed for development. The claim is numbered in the records of IDWR as 63-04849. During the preliminary conversations, the relationship between the use of ground water and surface water was discussed.

IDWR understood that Bull Development did not want to construct a common system for delivery of the ground water or the surface water. Instead, IDWR understood that Bull Development wanted a point of diversion authorized for each of the lots so each individual lot owner could use water without maintaining a common system through a homeowners' association.

Bull Development represented to IDWR that the majority of the water beneficially used on the property had been diverted from ground water. There was some discussion about the possibility that the Dry Creek right had been forfeited or was no longer used for irrigation of the Echanove property, and that the right might be disallowed in the Snake River Basin Adjudication. As a result, the applications for transfer proposed a point of diversion from ground water for each proposed residential lot, but did not propose any parallel diversion or delivery of the surface water rights.

If the applications for transfer proposing points of diversion only from ground water were approved by IDWR as filed, it is likely that whatever surface water had been historically used on the Echanove property would not be beneficially used in the future. Because the surface water use has not been addressed, I am obligated to investigate the beneficial use of ground water to quantify the historical beneficial use of the ground water right. Failure to review the

MICROFILMED

SEP 19 2001

Mike Homan
April 12, 2001
Page 2

historical beneficial use of ground water could result in an enlargement of use of ground water right no. 63-03162. The quantities of water transferred and the number of acres authorized for irrigation by the transfer depend directly upon the historical use of ground water.

Staff extracted power consumption information from IDWR records for Pete Echanove's irrigation well for the years 1995-2000. During the six year period, the pump was only operated during May of 1998. The relationship between power consumption and water pumped can be estimated using the horsepower equation. IDWR estimates that only 0.2 acre-feet was pumped in May of 1998. This compares to a maximum allowable diversion volume of 4.5 acre feet per acre of irrigated ground. I've enclosed a copy of a spreadsheet for your review.

I recognize the power records may be incomplete, or may not represent the entire history of use of water. Water may have been diverted from ground water by some other means than by the electrical pump and motor. There may be other factors that influence the analysis. Nonetheless, the power records are the only information IDWR now has to analyze the historical use of ground water. Without further information, I would conclude that severance of the ground water right from the surface water right would result in recognizing less than one acre that could be irrigated from ground water.

This letter is a request for further information regarding the diversion and beneficial use of ground water under water right no. 63-03162. The information you provide will be used to determine quantities of water diverted and acres irrigated in any approved transfer. As part of the submittal, you should also reconcile IDWR's analysis of the 1995 - 2000 power records with your conclusions. You may contact Dan Nelson at 334-2190 to discuss the information or the spreadsheet computations.

Please submit the requested information within the next thirty (30) days. Failure to submit the information will result in a recommendation to limit total annual volume diverted, flow rate, and acres irrigated based on the power consumption information we now have.

Respectfully,

Gary Spackman

RE: Notice of Withdrawal of Applications for Transfer for Water Right no. 63-03162 -
Echanove Ranch

Dear Gary:

Please be advised that I represent Bull Development concerning the above-referenced applications. I have reviewed your letter of April 12, 2001, as well as the water right files and transfer applications, and I have had conversations with Dan Nelson concerning an alternative to the currently pending transfer applications. I believe the alternative suggested by Dan may be a viable option and one which my Client should explore a bit further.

In the interim, my Client has decided not to pursue the pending transfer applications, which attempt to convert a supplemental groundwater right into a primary right. Therefore, please accept this letter as a notice of withdrawal of the above-referenced applications. Also, Dan mentioned that my Client may be entitled to a refund or that there is a possibility that the filing fees could carry over to a later-filed transfer application. Please let me know how the Department would propose handling the filing fees in this matter.

Very truly yours,

Matt J. Howard

MEMORANDUM

TO: FILE
FROM: DANIEL A. NELSON *DAN*
DATE: 8/10/2000

RE: BULL DEVELOPMENT TRANSFER, RIGHT 63-03162

There are 15 transfers that propose to split water right 63-03162 into 15 separate water rights and irrigation systems. These transfers were filed to subdivide the original property into a 15-lot subdivision known as Echanove Ranch Estates. A new well will be added to each lot and the original well will be abandoned. Each of the 15 lots will have a 0.10-cfs diversion rate and 9.27 acres of land.

DOCUMENTS AND APPLICATION PREPARATION

Each application consists of 6 pages and 3 attachments. Note the location of the following application items:

Attach. A – Proof of ownership documentation (A1 through A3)

Attach. B – Adjudication claim (B1 through B2)

Attach. C – CSFA aerial photo based on 1999 data.

Applicant prepared the application with my assistance.

Other information used in this review includes 1994 IDWR aerial photo, 1987 NAPP aerial photo, Metes & Bounds sheet, Place of Use Comparison Sheet, and a copy of Snake River Basin Adjudication Claim for overlapping right 63-04849 all attached to this memo.

NARRATIVE

The applicant is attempting to split this right into 15 equal parts to supply water to a new subdivision. The applicant wants the lots to be ready to sell so all the new owners would need to do is file a change of ownership with us.

A 1993 CFSA aerial photo was supplied and the CSFA office told the applicant that the acres listed on the photo were from the 1999 irrigation season. I checked these with the 1994 and 1987 aerial available in our office and I am confident that this land was irrigated prior to commencement of the SRBA and within the last 5 years. The applicant supplied a warranty deed as proof of ownership.

MICROFILMED

SEP 13 2001

page 2
Bull Development

The only real problem that I found was the overlapping statutory claim 63-04849. This claim is for the exact same acres as the groundwater right associated with this application. The original owner applied for the groundwater, because the surface water right was only a flood right and usually did not provide any water after the end of June if there was water at all. The current owners do not know if the statutory right has been used, but they did say that the ditches and diversion point were still there. The groundwater right was licensed as a primary right since the department has not validated the statutory claim.

The applicant wanted to add the surface water right into this transfer, but staff decided that the applicant was not actually transferring anything involving the surface water right. Therefore, it was decided that the surface water could be handled in the change of ownership process. Most of the lots should have access to the ditch if they need it, or they can come in and file a transfer to move the point of diversion since most of the lots border Dry Creek.

RECOMENDATIONS

This transfer should be approved as filed. The Statutory claim, 6304849, should remain attached to all of the splits until the SRBA has had the opportunity to review the statutory claim. If the SRBA determines that the statutory claim has been forfeited or is no longer valid, then this water right should be allowed to remain a primary irrigation right.

MICROFILMED

SEP 19 2001

page 2
Bull Development

The only real problem that I found was the overlapping statutory claim 63-04849. This claim is for the exact same acres as the groundwater right associated with this application. The original owner applied for the groundwater, because the surface water right was only a flood right and usually did not provide any water after the end of June if there was water at all. The current owners do not know if the statutory right has been used, but they did say that the ditches and diversion point were still there. The groundwater right was licensed as a primary right since the department has not validated the statutory claim.

The applicant wanted to add the surface water right into this transfer, but staff decided that the applicant was not actually transferring anything involving the surface water right. Therefore, it was decided that the surface water could be handled in the change of ownership process. Most of the lots should have access to the ditch if they need it, or they can come in and file a transfer to move the point of diversion since most of the lots border Dry Creek.

RECOMENDATIONS

This transfer should be approved as filed. The Statutory claim, 6304849, should remain attached to all of the splits until the SRBA has had the opportunity to review the statutory claim. If the SRBA determines that the statutory claim has been forfeited or is no longer valid, then this water right should be allowed to remain a primary irrigation right.

Re: Notice of Claim to a Water Right No. 63-3162 & 63-4849

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflects the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you again for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed claim(s), please feel free to contact this office.

Sincerely,

Denise Hatfield

Ron,

The Echanove Ranch engineer, John Carpenter, is available Thursday, so let's plan on doing the Echanove claims on Thursday, and you and I will do the Frazell-Keys and Brush claims on Friday. Both times will be at 10am at the Hidden Springs coffee shop / merc.

Thanks,
Matt

Matt,

I'm ready to do field exams for some of your clients next week. The days next week are all open except Monday Veterans day.

We could do the Brush-Frazell-Keys on one day and the Echanove (Bull Development) on another.

I assume you want to do the scheduling and let me know...

Thank you,

RE: Diversion Pond Plans – Echanove Ranch Estates

Dear Dan:

Pursuant to your earlier request, enclosed please find a copy of the diversion pond plans for the Echanove Ranch Estates. Before advising my client to move forward with construction of the diversion pond, I had conferred with Norm Young and Jeff Peppersack concerning the Department's most recent policy with respect to diversion ponds. My client also retained Dave Shaw to provide consulting on the project. I believe you should find everything in order.

If you have questions, please feel free to contact me.

Very truly yours,

RE: COMPLAINT AGAINST ENCHANOVE RANCH ESTATES

Dear Mr. Homan:

We recently received a complaint that you have constructed a large storage pond for Enchanove Ranch Estates. I have spoken to you and your representatives about constructing a small irrigation pond to deliver the water for water rights 63-3162 and 63-4849. A small irrigation is defined as being able to be filled and/or drained within a 24-hour period at the diversion rate established by your water rights.

The diversion rate for 63-3162 and 63-4849 is 1.50 cfs. A diversion rate of 1.00 cfs generally can fill a pond with a volume of 1.98-acre feet volume. This would allow you to construct a pond with a volume of approximately 3 acre-feet in conjunction with your irrigation system without acquiring a water right.

In order to address the complaint about your pond, please send the as-built plans for the pond. The plans should include the width, length, and depth of the pond. This will allow us the opportunity to review the complaint and determine if a site visit is necessary. If the pond has a larger volume than can be used in a 24-hour period, you will need to file a transfer to move water from the appurtenant irrigation land that is now covered with roads to pond storage.

Thank you for your co-operation and if you have any questions or concerns please contact Dan Nelson at the above address.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent

Comment Report

Application ID 68907

1. dnelson 2/27/2001 Legal Notice Remarks

Comment: This transfer proposes to separate a 1/15 th portion of water right 63-03162 to supply irrigation to one of 15 lots in the Echanove Ranch Estates subdivision. A new well will be added to supply the water for this lot and the original well will be abandoned. The remainder of the right will be split into proportionate shares to supply the other 14 lots of this subdivision with water. Each share of the original right will have its own well, 0.10 cfs diversion rate and 9.27 acres of irrigation. 15 transfers were filed, one for each lot. The following transfers are associated with these subdivision lots: 68907 = Lot 2 Block 1, 68908 = Lot 3 Block 1, 68909 = Lot 7 Block 1, 68910 = Lot 4 Block 1, 68911 = Lot 1 Block 1, 68912 = Lot 5 Block 1, 68913 = Lot 6 Block 1, 68914 = Lot 8 Block 1, 68915 = Lot 10 Block 1, 68916 = Lot 11 Block 1, 68917 = Lot 1 Block 2, 68919 = Lot 13 Block 1, 68921 = Lot 12 Block 1, 68922 = Lot 2 Block 2, 68923 = Lot 9 Block 1.

2. dnelson 2/27/2001 7:54:08 AM General Comments/Analysis

Comment: Water right 63-04849 overlaps the place of use. 63-04849 is a flood right from Dry Creek and Current Creek. This right is rarely used and some years is undeliverable. The main source of water for this 139 acres is the ground water. Upon approval of the transfer, water right 63-04849 should remain attached to each parcel and used first if available. The ditch delivering the water still exists and the new owners will have access to the creek if they wish to change the point of diversion through a transfer. However, this right was originally licensed as a primary right, since the surface water right is only a statutory claim and has not been verified. If the Snake River Basin Adjudication determines that the statutory right is not valid, then the water right associated with this transfer should maintain its primary status.

3. psdaggs 8/30/2001 Transfer Withdrawn

Comment: Transfer Withdrawn 5-9-2001.

NOTICE OF EXTENSION OF TIME TO AVOID
FORFEITURE OF WATER RIGHTS

Notice is given that **Bull Development, Inc.** of 2229 W State St., Boise, ID 83702 has applied to the Department of Water Resources for an Extension of Time to Avoid Forfeiture pursuant to Idaho Code § 42-222, 2-irrigation rights recorded as follows in T5N R2E S31 Ada County:

Both rights cover the same 139 acres in the W ½ NE and E ½ NW.

Statutory Claim # 63-4849 – Priority date 2/21/1883, for 2.78 cfs diverted from Dry Creek in the NWNE, SWNE, and NENW.

License # 63-3162 – Priority date 7/14/1959, for 1.50 cfs diverted from Ground Water in the NWNE.

The applicant claims the land was last irrigated during the 1998 season. This application was filed to allow sufficient time for the applicant to sell the newly subdivided lots, known as Echanove Ranch Estates, and to form a homeowners association of the new owners to take over administration of the water rights.

Any protests against approval of the proposed water right application must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 for each application on or before December 3, 2001. The protestant must also send a copy of the protest to the applicant.

Karl J. Dreher, Director

Published in the Idaho Statesman on November 15 and 22, 2001.

MEMORANDUM

TO: FILE
FROM: DANIEL A. NELSON
DATE: 8/10/2000

RE: BULL DEVELOPMENT TRANSFER, RIGHT 63-03162

There are 15 transfers that propose to split water right 63-03162 into 15 separate water rights and irrigation systems. These transfers were filed to subdivide the original property into a 15-lot subdivision known as Echanove Ranch Estates. A new well will be added to each lot and the original well will be abandoned. Each of the 15 lots will have a 0.10-cfs diversion rate and 9.27 acres of land.

DOCUMENTS AND APPLICATION PREPARATION

Each application consists of 6 pages and 3 attachments. Note the location of the following application items:

Attach. A – Proof of ownership documentation (A1 through A3)

Attach. B – Adjudication claim (B1 through B2)

Attach. C – CSFA aerial photo based on 1999 data.

Applicant prepared the application with my assistance.

Other information used in this review includes 1994 IDWR aerial photo, 1987 NAPP aerial photo, Metes & Bounds sheet, Place of Use Comparison Sheet, and a copy of Snake River Basin Adjudication Claim for overlapping right 63-04849 all attached to this memo.

NARRATIVE

The applicant is attempting to split this right into to 15 equal parts to supply water to a new subdivision. The applicant wants the lots to be ready to sell so all the new owners would need to do is file a change of ownership with us.

A 1993 CFSA aerial photo was supplied and the CSFA office told the applicant that the acres listed on the photo were from the 1999 irrigation season. I checked these with the 1994 and 1987 aerial available in our office and I am confident that this land was irrigated prior to commencement of the SRBA and within the last 5 years. The applicant supplied a warranty deed as proof of ownership.

The only real problem that I found was the overlapping statutory claim 63-04849. This claim is for the exact same acres as the groundwater right associated with this application. The original owner applied for the groundwater, because the surface water right was only a flood right and usually did not provide any water after the end of June if there was water at all. The current owners do not know if the statutory right has been used, but they did say that the ditches and diversion point were still there. The groundwater right was licensed as a primary right since the department has not validated the statutory claim.

The applicant wanted to add the surface water right into this transfer, but staff decided that the applicant was not actually transferring anything involving the surface water right. Therefore, it was decided that the surface water could be handled in the change of ownership process. Most of the lots should have access to the ditch if they need it, or they can come in and file a transfer to move the point of diversion since most of the lots border Dry Creek.

RECOMENDATIONS

This transfer should be approved as filed. The Statutory claim, 6304849, should remain attached to all of the splits until the SRBA has had the opportunity to review the statutory claim. If the SRBA determines that the statutory claim has been forfeited or is no longer valid, then this water right should be allowed to remain a primary irrigation right.

MEMORANDUM

TO: FILE
FROM: DANIEL A. NELSON
DATE: 8/10/2000

**RE: BULL DEVELOPEMNT INC. FILED FOR AN EXTENSION OF TIME TO
AVOID FORFIETURE OF WATER RIGHTS 63-4849 & 63-3162**

This application was filed to prevent forfeiture for water rights 63-4849 and 64-3162. The applicant claims the land was last irrigated during the 1998 season. This application was filed to allow sufficient time for the applicant to sell the newly subdivided lots, known as Echanove Ranch Estates, and to form a homeowners association of the new owners to take over administration of the water rights. The water rights are diverted and the land is irrigated in the W ½ NE and E ½ of NW in S31 T5N R2E. The applicant has also submitted documentation to change the ownership of the property from Echanove to Bull Development Inc. The property will now be known as the Echanove Ranch Estates.

DOCUMENTS AND APPLICATION PREPARATION

Note the following items included with the application:

- Attach. A – Proof reports for water rights 63-4849 and 63-3162 (A1-A4).
- Attach. B – Warranty Deed and small plat map showing ownership of property by Bull Development (B1-B4).
- Attach. C – Large plat map of property.
- Attach. D - Affidavit of Pedro Echanove that land was irrigated(D1-D2)
- Attach. E - 1998 aerial photo of property.
- Attach. F - 1987 aerial photo of property.
- Attach G. - 1994 and 2000 aerial photo of property (F1-F2).

Matt Howard, Attorney at Law, prepared the application.

NARRATIVE

This application was filed to extend time to avoid forfeiting the above-mentioned water rights in order to allow the owners to sell all of the lots in their new subdivision known as the Echanove Ranch Estates. The Echanove Family formerly owned the land. The applicants filed a transfer and withdrew the application, because they believed that the main source of water for the farm was the groundwater associated with water right 63-3162. It was discovered in the transfer process that groundwater was actually supplemental to the surface water and that it has not been used in sometime.

The applicant's attorney, Matt Howard, has spoken to Norm Young of the Idaho Dept. of Water Resources (IDWR) and has been told by Mr. Young that the groundwater is supplemental to the surface water and would not be considered forfeited if there was adequate surface water to irrigate the land. Mr. Howard confirmed that this is the case and has marked section 9 of the application for forfeiture form that the groundwater right is supplemental to the surface water right (63-4849).

I have reviewed the 1987 aerial photo and it looks as though this ground was irrigated in 1987. The 1994 and 2000 aerial photos confirm that the ground has been irrigated in the past. The property looks to be irrigated in the 2000 aerial photo, which could raise suspicions of the amount of actual irrigation that has transpired in the past. However, the areas irrigated in 1987 and 1994 do seem more defined than the 2000 aerial photo suggesting that the land was irrigated in these years.

The applicant has supplied a 1998 aerial photo of the property and an affidavit from the former owner stating that the land was last irrigated in 1998. I can find no reason to dispute this information. I tried to contact Kathleen Brady who has filed a complaint against this development and she has not responded. A comment letter was sent to Ms. Brady to give her the opportunity to respond to the application.

RECOMENDATIONS

I recommend that this application for extension of time to avoid forfeiture be granted. The ownership of the right should also be changed with this application into the new owner's name, Bull Development Inc.

To
Applications for Extension of Time to Avoid Forfeiture
Water Right Nos. 63-4849 and 63-3162

Bull Development, Inc., purchased the Echanove Ranch, which includes the places of use for right nos. 63-4849 and 63-3162. Purchase of the ranch was based on a series of agreements entered into beginning in late 1997 and ending on November 5, 1998. After purchase of the Echanove Ranch, Bull Development undertook the required studies, engineering work, and related development actions to comply with federal, state, and local regulations for development of the Echanove Ranch Estates Subdivision, including required permit and plat approvals. Because of the ongoing development of the Echanove Ranch as a residential subdivision, irrigation of the Echanove Ranch has not been undertaken since 1998.

As part of the residential development, Bull Development has constructed a pressurized irrigation system to provide irrigation water to the various lots located within the original place of use. (Plans of the irrigation system were previously provided to IDWR on September 14, 2001). Lots in the Echanove Ranch Subdivision are currently being marketed and are available for sale. A five (5) year extension of time is needed to allow sufficient time for the lots to be sold, houses to be constructed, and for the new lot owners to begin irrigating their lots and putting water to beneficial use.

BULL DEVELOPMENT, INC.

AFFIDAVIT OF PEDRO ECHANOVE

STATE OF IDAHO)
County of Ada) ss.

PEDRO ECHANOVE, being first duly sworn upon oath, deposes and says:

1. I make the following statements based on my personal knowledge.
2. I am a resident of Ada County, Idaho. My address is Route 1, Dry Creek Rd., Boise, Idaho 83703.
3. In the early 1920's my family purchased the land now known as the Echanove Ranch located off Dry Creek Road in Ada County. I am 76 years of age, and I have lived on the ranch all my life.

AFFIDAVIT OF PEDRO ECHANOVE - 1

Attach 01

4. During the time that I lived on the ranch, my family and I irrigated and farmed the ground every year up until I sold the ranch in late 1998. We mostly grew alfalfa and grain. To irrigate, I used my Dry Creek water right, no. 63-4849. I would also use my supplemental ground water right, no. 63-3162, to irrigate in years when there was not enough Dry Creek water to irrigate my crops.

5. The last year that I grew crops and irrigated the Echanove Ranch was in 1998.

Further your affiant sayeth naught.

THIS IS TO CERTIFY that HILARIO and PEDRO ECHANOVE - Distribution of Estate of HILARIO ECHANOVE - PETRA, PEDRO ECHANOVE & ELENA ANITA GIBBENS, made application for a permit to appropriate the

public waters of the State of Idaho, dated July 14, 1959; that Permit No. G-28046 was issued under said application; that Certificate of Completion of works, with a carrying capacity of 1.5 second feet, was issued thereunder on October 27, 1965, showing that said works were completed on the 17 day of July, 1964; and that on the 17th day of July, 1964,

PETRA, PEDRO ECHANOVE and ELENA ANITA GIBBENS

of Boise, State of Idaho, made proof to the satisfaction of the State Reclamation Engineer of Idaho, of the right to use the waters of a well

, a tributary of subterranean flow, for the purpose of irrigation

, under Use Permit No. G-28046 of the Department of Reclamation and that said right to the use of said waters has been perfected in accordance with the laws of Idaho, and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume

13 of Licenses at page 8381, on the 27 day of October, 1965;

The right hereby confirmed dates from July 14, 1959;

The Point of Diversion is located

in the NW 1/4 NE 1/4 Sec. 31, Tp. 5 N. R. 2 E, B. M. Ada County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall not exceed 1.5 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
5 N	2 E	31	NW1/4 NE1/4	40	40
			SW1/4 NE1/4	40	37
			NE1/4 NW1/4	40	40
			SE1/4 NW1/4	40	22
			Total number of acres to be irrigated:		139

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this 27th day of October, 1965.

RALPH W. THOMAS

Deputy State Reclamation Engineer.

REPORT OF ENGINEER

Permit No. G-25016

This proof is for Completion of Works & Bene. Use In Water District No.

1. Name of applicant Pedro, Petra, and Elena Anita Gibbons

2. Source of water supply: subterranean

3. Location of point of diversion: Is in the NW 1/4 of Section 31
T. 21 R. 2 E County of Ada

4. Describe works as they exist, giving dimensions and capacities of same: 20 HP US Hailshaft Motor 3245W, E-M Pump PE8738, 6" discharge cast into open ditch. They use a portable sprinkler system that pumps out of the ditch and creek to irrigate land not reached by gravity irrigation.

5. Water is used for: irrigation

6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

W 1/4, E 1/4, Section 31, T 21 N - R 2 E making a total of 160 acres to be irrigated.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach?.....

Remarks: Mrs. Pedro Echinova consulted (wife)

Measured over 2" Cipolletti weir 37' = 1.5 cfs

This examination was made on the day of August, 19 65

MEMORANDUM

TO: FILE
FROM: DANIEL A. NELSON *DAN*
DATE: 8/10/2000

RE: BULL DEVELOPMENT TRANSFER, RIGHT 63-03162

There are 15 transfers that propose to split water right 63-03162 into 15 separate water rights and irrigation systems. These transfers were filed to subdivide the original property into a 15-lot subdivision known as Echanove Ranch Estates. A new well will be added to each lot and the original well will be abandoned. Each of the 15 lots will have a 0.10-cfs diversion rate and 9.27 acres of land.

DOCUMENTS AND APPLICATION PREPARATION

Each application consists of 6 pages and 3 attachments. Note the location of the following application items:

Attach. A – Proof of ownership documentation (A1 through A3)

Attach. B – Adjudication claim (B1 through B2)

Attach. C – CSFA aerial photo based on 1999 data.

Applicant prepared the application with my assistance.

Other information used in this review includes 1994 IDWR aerial photo, 1987 NAPP aerial photo, Metes & Bounds sheet, Place of Use Comparison Sheet, and a copy of Snake River Basin Adjudication Claim for overlapping right 63-04849 all attached to this memo.

NARRATIVE

The applicant is attempting to split this right into 15 equal parts to supply water to a new subdivision. The applicant wants the lots to be ready to sell so all the new owners would need to do is file a change of ownership with us.

A 1993 CSFA aerial photo was supplied and the CSFA office told the applicant that the acres listed on the photo were from the 1999 irrigation season. I checked these with the 1994 and 1987 aerial available in our office and I am confident that this land was irrigated prior to commencement of the SRBA and within the last 5 years. The applicant supplied a warranty deed as proof of ownership.

page 2
Bull Development

The only real problem that I found was the overlapping statutory claim 63-04849. This claim is for the exact same acres as the groundwater right associated with this application. The original owner applied for the groundwater, because the surface water right was only a flood right and usually did not provide any water after the end of June if there was water at all. The current owners do not know if the statutory right has been used, but they did say that the ditches and diversion point were still there. The groundwater right was licensed as a primary right since the department has not validated the statutory claim.

The applicant wanted to add the surface water right into this transfer, but staff decided that the applicant was not actually transferring anything involving the surface water right. Therefore, it was decided that the surface water could be handled in the change of ownership process. Most of the lots should have access to the ditch if they need it, or they can come in and file a transfer to move the point of diversion since most of the lots border Dry Creek.

RECOMENDATIONS

This transfer should be approved as filed. The Statutory claim, 6304849, should remain attached to all of the splits until the SRBA has had the opportunity to review the statutory claim. If the SRBA determines that the statutory claim has been forfeited or is no longer valid, then this water right should be allowed to remain a primary irrigation right.

**NOTICE OF PROPOSED CHANGE OF WATER
RIGHTS, TRANSFER NUMBERS 68907 - 68917, 68919, and 68921 - 68923**

Notice is given that **BULL DEVELOPMENT** of 2229 W State Street, Boise, ID 83702 has applied to the Department of Water Resources to add points of diversion and split a water right pursuant to I.C. § 42-222 for an irrigation right recorded as follows in T5N R2E S31, Ada County:

License 63-03162, priority 7/14/1959, 1.5 cfs, Groundwater (one well) diverted in NWNE and used in W½ NE and E½ NW for 139 acres

PROPOSED CHANGE FOR ALL RIGHTS

15 transfers have been filed to split the right into 15 proportionate parts with each part having its own well, 0.10-cfs diversion rate and 9.27 acres of irrigation. Each part will be associated with one of the 15 lots known as the Enchanove Ranch Estates Subdivision. The 15 wells and proportionate rights will be spread throughout W½ NE and E½ NW. A subdivision plat map showing the proposed wells and lots is available for review at the department address listed below.

Any protest against approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 for each application on or before April 2, 2001. The protestant must also send a copy of the protest to the applicant.

Re: Original Notice of Claim to a Water Right No. 63-31737, 63-31739
Renumbered Notice of Claim to a Water Right No. 63-32404, 63-32413

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section
Western Region
