STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

WATER RESOURCES
WESTERN REGION

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
	63-3162 (now numbered 81752)				
	63-4849 (now numbered 81752)				

> see attached
sheet

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts. *NO Fee*
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) PEDRO ECHANDVE

DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

RECEIVED

FEB 25 2003

WATER RESOURCES
WESTERN REGION

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
<u>63-4849</u>	<u>A63-4849</u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u>63-3162</u>	<u>A63-3162</u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>
<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>	<u> </u>

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR
 If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Pedro & Betty Echanove and Alfred & Anita Gibbens
Rt. 1, Dry Creek Rd., Boise, ID 83703
4. New Owner/Claimant(s) Bull Development, Inc.
 Name Connector (Check one): ☐ and, ☐ or, ☐ and/or
- New Mailing Address 2229 W. State St., Ste. B
- City, State and ZIP Code Boise, ID 83702
- New Telephone Number () 208-429-1900
5. Date you acquired the property September 21, 2000

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

Change of Address

Dear Water Right Holder(s):

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation that this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your claim or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to our office. Make corrections to your name and address if necessary before returning this letter. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of any of the properties connected with the water right referenced above, please call this office to obtain a form to make this required change to the water right records.

Sincerely,

Denise Buffington
Office Specialist 1
Adjudication Section
Western Region

MEMORANDUM

TO: CRAIG SAXTON
FROM: DANIEL A. NELSON
DATE: 10/7/04
SUBJECT: TELEPHONE CALL REFERAL

Craig, I received a telephone call from a Mathew Castrigno regarding the Enchanove Ranch (Bull Development) water rights. Mr. Castrigno is claiming that he can move water anywhere within the 40-acre tract without filing a transfer. He said that Ron Howerton told him this was possible without filing a transfer. I am not sure what is going on in this situation, so I thought I better forward the call to you.

I did tell him that based on the transfer memo, we are bound on the allocation side to what was irrigated in 1987, and can't allow movement within a 40-acre tract without a transfer. However, I am not sure what the adjudication folks can allow on this issue, so I thought I better pass it onto you to let you give him the skinny. We are dependent on what you folks will allow, so it is probably better that you work with him directly. I hope you don't mind.

His telephone number is 939-5663.

10-24-04 - found some acreage around the
same 40-acre tract. John Miller spoke with Mathew Castrigno
yesterday and explained that to
him. Mathew said he was going to
hire a lawyer.

MEMORANDUM

DATE: 9/28/2004

FROM: Lori Graves

TO: SRBA Claim Files 63-31737 & 63-31739

RE: Groothuis Change in Ownership

Groothuis called 9/23/04 asking how long he had to install his sprinkler system before losing his water rights. As it turns out, he purchased Lots 1 & 2, Block 2 of Echanove Estates from Bull Development. He plans to build and install a sprinkler system on his property within the next two years and did not want to lose his water rights in the process. The developer sold him Lot 1 with 8.05 acres irrigation and Lot 2 with 6.04 acres irrigation from original water rights 63-3162 (ground water) and 63-4849 (Dry Creek).

M.D. (Butch) Groothuis filed the attached change in ownership 9/23/04. When I looked at his property location, I asked him to delay installation of his sprinkler system until I had a chance to review the files and consult with an SRBA agent.

Ron Howerton did an initial review of these rights. Based on Ron's analysis and Craig Saxton's re-analysis, Groothuis' property actually only has ~4.76 of the total recommended acres that Ron determined historically irrigated.

I called Groothuis with the news and he stated that he was going to confront the developer with the discrepancy. I'm sure we haven't heard the last of this one.

An aerial photograph of a landscape, likely a coastal or wetland area. A road or path runs diagonally from the bottom left towards the center. A callout box with the number 4.76 points to a specific location on the road. The terrain is textured with various shades of gray, suggesting different land cover types like vegetation or water. A large number 31 is overlaid on the bottom right of the image.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

RECEIVED

SEP 28 2004

WATER RESOURCES
WESTERN REGION

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
63-41849	63-31737	Y			
63-3162	63-31739	Y			

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR
 If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Bull Development
4. New Owner/Claimant(s) M.D. and Judy L. Groothuis
 Name Connector (Check one): ☐ and, ☐ or, ☒ and/or
- New Mailing Address 3490 N. Saddlemann Place
- City, State and ZIP Code Eagle, ID 83616
- New Telephone Number (208) 850-0617
5. Date you acquired the property 3-3-2004

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

Re: Applications for Transfer for Water Right no. 63-03162 – Echanove Ranch

Dear Mr. Homan:

The Idaho Department of Water Resources (IDWR) recently published notice of 15 applications for transfer, filed by Bull Development, proposing to add or change points of diversion to water right no. 63-03162. In total, the applications propose the drilling of a well for each of 15 ten-acre subdivision lots in the Dry Creek Drainage.

During prior conversations with Pinnacle Engineers, IDWR staff identified a claim to divert surface water flowing in Dry Creek for beneficial use on the property proposed for development. The claim is numbered in the records of IDWR as 63-04849. During the preliminary conversations, the relationship between the use of ground water and surface water was discussed.

IDWR understood that Bull Development did not want to construct a common system for delivery of the ground water or the surface water. Instead, IDWR understood that Bull Development wanted a point of diversion authorized for each of the lots so each individual lot owner could use water without maintaining a common system through a homeowners' association.

Bull Development represented to IDWR that the majority of the water beneficially used on the property had been diverted from ground water. There was some discussion about the possibility that the Dry Creek right had been forfeited or was no longer used for irrigation of the Echanove property, and that the right might be disallowed in the Snake River Basin Adjudication. As a result, the applications for transfer proposed a point of diversion from ground water for each proposed residential lot, but did not propose any parallel diversion or delivery of the surface water rights.

If the applications for transfer proposing points of diversion only from ground water were approved by IDWR as filed, it is likely that whatever surface water had been historically used on the Echanove property would not be beneficially used in the future. Because the surface water use has not been addressed, I am obligated to investigate the beneficial use of ground water to quantify the historical beneficial use of the ground water right. Failure to review the

MICROFILMED

SEP 19 2001

Mike Homan
April 12, 2001
Page 2

historical beneficial use of ground water could result in an enlargement of use of ground water right no. 63-03162. The quantities of water transferred and the number of acres authorized for irrigation by the transfer depend directly upon the historical use of ground water.

Staff extracted power consumption information from IDWR records for Pete Echanove's irrigation well for the years 1995-2000. During the six year period, the pump was only operated during May of 1998. The relationship between power consumption and water pumped can be estimated using the horsepower equation. IDWR estimates that only 0.2 acre-feet was pumped in May of 1998. This compares to a maximum allowable diversion volume of 4.5 acre feet per acre of irrigated ground. I've enclosed a copy of a spreadsheet for your review.

I recognize the power records may be incomplete, or may not represent the entire history of use of water. Water may have been diverted from ground water by some other means than by the electrical pump and motor. There may be other factors that influence the analysis. Nonetheless, the power records are the only information IDWR now has to analyze the historical use of ground water. Without further information, I would conclude that severance of the ground water right from the surface water right would result in recognizing less than one acre that could be irrigated from ground water.

This letter is a request for further information regarding the diversion and beneficial use of ground water under water right no. 63-03162. The information you provide will be used to determine quantities of water diverted and acres irrigated in any approved transfer. As part of the submittal, you should also reconcile IDWR's analysis of the 1995 - 2000 power records with your conclusions. You may contact Dan Nelson at 334-2190 to discuss the information or the spreadsheet computations.

Please submit the requested information within the next thirty (30) days. Failure to submit the information will result in a recommendation to limit total annual volume diverted, flow rate, and acres irrigated based on the power consumption information we now have.

Respectfully,

Gary Spackman

RE: Notice of Withdrawal of Applications for Transfer for Water Right no. 63-03162 --
Echanove Ranch

Dear Gary:

Please be advised that I represent Bull Development concerning the above-referenced applications. I have reviewed your letter of April 12, 2001, as well as the water right files and transfer applications, and I have had conversations with Dan Nelson concerning an alternative to the currently pending transfer applications. I believe the alternative suggested by Dan may be a viable option and one which my Client should explore a bit further.

In the interim, my Client has decided not to pursue the pending transfer applications, which attempt to convert a supplemental groundwater right into a primary right. Therefore, please accept this letter as a notice of withdrawal of the above-referenced applications. Also, Dan mentioned that my Client may be entitled to a refund or that there is a possibility that the filing fees could carry over to a later-filed transfer application. Please let me know how the Department would propose handling the filing fees in this matter.

Very truly yours,

Matt J. Howard

RE: BULL DEVELOPMENT TRANSFER, RIGHT 63-03162

There are 15 transfers that propose to split water right 63-03162 into 15 separate water rights and irrigation systems. These transfers were filed to subdivide the original property into a 15-lot subdivision known as Echanove Ranch Estates. A new well will be added to each lot and the original well will be abandoned. Each of the 15 lots will have a 0.10-cfs diversion rate and 9.27 acres of land.

DOCUMENTS AND APPLICATION PREPARATION

Each application consists of 6 pages and 3 attachments. Note the location of the following application items:

Attach. A – Proof of ownership documentation (A1 through A3)

Attach. B – Adjudication claim (B1 through B2)

Attach. C – CSFA aerial photo based on 1999 data.

Applicant prepared the application with my assistance.

Other information used in this review includes 1994 IDWR aerial photo, 1987 NAPP aerial photo, Metes & Bounds sheet, Place of Use Comparison Sheet, and a copy of Snake River Basin Adjudication Claim for overlapping right 63-04849 all attached to this memo.

NARRATIVE

The applicant is attempting to split this right into to 15 equal parts to supply water to a new subdivision. The applicant wants the lots to be ready to sell so all the new owners would need to do is file a change of ownership with us.

A 1993 CFSA aerial photo was supplied and the CSFA office told the applicant that the acres listed on the photo were from the 1999 irrigation season. I checked these with the 1994 and 1987 aerial available in our office and I am confident that this land was irrigated prior to commencement of the SRBA and within the last 5 years. The applicant supplied a warranty deed as proof of ownership.

MICROFILMED

SEP 13 2001

page 2
Bull Development

The only real problem that I found was the overlapping statutory claim 63-04849. This claim is for the exact same acres as the groundwater right associated with this application. The original owner applied for the groundwater, because the surface water right was only a flood right and usually did not provide any water after the end of June if there was water at all. The current owners do not know if the statutory right has been used, but they did say that the ditches and diversion point were still there. The groundwater right was licensed as a primary right since the department has not validated the statutory claim.

The applicant wanted to add the surface water right into this transfer, but staff decided that the applicant was not actually transferring anything involving the surface water right. Therefore, it was decided that the surface water could be handled in the change of ownership process. Most of the lots should have access to the ditch if they need it, or they can come in and file a transfer to move the point of diversion since most of the lots border Dry Creek.

RECOMENDATIONS

This transfer should be approved as filed. The Statutory claim, 6304849, should remain attached to all of the splits until the SRBA has had the opportunity to review the statutory claim. If the SRBA determines that the statutory claim has been forfeited or is no longer valid, then this water right should be allowed to remain a primary irrigation right.

Mr. Tuthill,

20 May 2007

I was referred to you by Jan Shurte in regards to a water rights issue that we have been unable to get a clear answer from the district office.

This issue falls under a non-forfeiture from SRBA and an extension of non use from the state board. The in question rights are 63-32414 (ground water), and 63-32405 (Dry Creek). These are splits from the original 63-31739 and 63-31737 respectively that were owned by Pedro Enchanove and then Bull Development prior to the split amongst the new owners who have 10 acre parcels.

Currently the SRBA is in the adjudication process and we are awaiting the court findings on the matter. I was originally told by Jan Shurte that she hoped that the adjudication process would be complete by fall 2006. The other issue is an extension of non use that was filed by Bull Development in Jun 2002 that is set to expire on June 1 2007. I have received conflicting information as to the status of our water rights. According to Jan, we have five years to use the water before forfeiture once the adjudication process has been finalized. Since the adjudication process has not been finalized the five year clock has not started. The other info we have received from neighbors (reference the attached document) states that there is a possibility we could forfeit the right if the water is not used by June 1 2007. What we are asking is to get a position from the Idaho Department of Water Resources on what we need to do to protect our water rights.

Currently we are on active duty in the USAF and are stationed at Hickam AFB in Hawaii. Our current plan is to return to Boise around 2010, when I am retirement eligible and our oldest daughter begins high school. The original plan, when we purchased the land, was to build on the land back in 2002, but due to world events we felt an obligation to return to active duty and do our part to protect our country, allies, and stop the spread of terrorism. With that we were relocated to Wichita Kansas for four years and moved to our current location last summer. Currently a small portion of the land is under irrigation (trees and plants) and we were not planning on extending the coverage until we were ready to move back. Call it the conservation in us but we do not feel it is appropriate to use the water just to use it under a "use it or lose it" criteria. We understand that water is a precious resource and want to be a good steward of that resource as well as to the land.

We would prefer that we be allowed to keep the status quo until we return to Boise in the next three years, if things go as planned, or until the five year clock expires after the adjudication process is complete. As I mentioned to Jan, we would like a "warm fuzzy" in writing that our rights are protected by the state per current policy (as stated by Jan Shurte). We do understand that things can change and if the department needs to change policy direction/criteria for beneficial use that you would allow us the opportunity to comply with the new policy.

Thank you for your time.

Sincerely

Scott and Lisa Wardle

Jan,

This email is in reference to the water rights we have been working on up at Dry Creek on Petro Echanove's former farm. The right numbers that we are currently hold are 63-32414, & 63-32405. The below email contradicts a lot of what I have discussed with you in the past on the use of the water right. The word and understanding that I had with you is that the five year clock on the water right does not start until the right has been adjudicated. It appears that from the adjudication report (from online search shows today's as the date) the date is 30 Mar 2007. My question is what is the real date that the right must be exercised before forfeited. Currently we have been using some of the right but have more land that has not been exercised. The other question I have is there a way to file an additional extension of none use, similar to what Bull Development used in 2002. My current situation is active duty military stationed in Hawaii, if that will help with an extension. I will follow up with you with a phone call today. my cell number is 316 204 7532 and a local number, currently in town is 322-6602. If possible I would like to come down to the office and discuss this matter

Thank you

Scott Wardle

>Subject: Echanove Ranch Water Rights

>Date: Fri, 9 Feb 2007 11:49:13 -0700

>

>Sorry for the delay in getting back to you.

>

>The basic question being posed is whether the irrigation water rights
>associated with the old Echanove Ranch (63-03162 and 63-04849) and all of
>the split rights resulting from them will be forfeited if the water is not
>used by June, 2007. There are essentially two legal issues involved, the
>Application for Extension of Time to Avoid Forfeiture and a completely
>separate court ruling, which likely has some bearing on this situation.
>Both of these issues are fairly clear on their own, but the exact
>relationship between them is less clear.

>

>ISSUE #1: In 2001, Bull Development filed an Application for Extension of
>Time to Avoid Forfeiture to prevent a forfeiture of the water rights while
>the lots were sold and developed. This was meant to give time, "for the
>new lot owners to begin irrigating their lots and putting water to
>beneficial use." According to section 42-222 of the Idaho Code, sixty days
>before the use of the water is to be resumed, IDWR shall notify the owner
>of the impending deadline and provide a form for reporting the resumption
>of use of water. If the use of the water has not been resumed and reported
>to IDWR, the right shall revert back to the state. The date set for the
>resumption of use is June 1, 2007. The most certain way to maintain your
>water rights is to resume the use of water and report that use to IDWR.

>

>ISSUE #2: In 1999, the so-called "Facility Volume" decision in the Snake
>River Basin Adjudication (SRBA) Court found that so long as water rights
>are involved in the SRBA they should not be considered forfeited by IDWR.
>The water rights we are discussing are still part of the SRBA court case
>until the court issues a Partial Decree. This will likely, but not
>definitely, happen this year or in 2008. Once the Partial Decree comes
>from the court, there will be a five-year period within which to
>re-establish beneficial use of the water before forfeiture would be an
>issue again. A less certain way to maintain your water right would be to
>use this court case as a precedent to defend against forfeiture when June
>1, 2007 passes. This would give you more time to resume use of the water.

>

>Using either of these standards, it is fairly easy to establish an answer
>to the basic question of, "Will the irrigation water rights be forfeited if
>they are not used by June, 2007?" Unfortunately they do not give the same
>answer, which is why you and your neighbors have received conflicting
>advice. According to Issue #1, you must resume use and report the
>resumption by June, 2007 to avoid forfeiture. Following Issue #2, you have
>until 2012, or possibly later, to resume use before facing forfeiture for
>non-use. But whether Issue #1 or Issue #2 supercedes the other is not
>clear.

>

>An absolutely guaranteed definitive answer can only be achieved through a
>subsequent court case that clarifies the exact legal relationship between
>42-222 and the "Facility Volume" decision. In the absence of such a court
>case, and as a practical matter, IDWR will not find forfeiture until 5
>years after the Partial Decree and so the June, 2007 deadline would not
>apply. This represents the view of the Department at this time, but it is
>important to realize that if your water rights ever became part of a court
>case in the future, then this question could go before a judge who would
>make the final determination. It is entirely possible that a judge would
>agree with the Department's view and actions, but the Department cannot
>guarantee the outcome of any court case.

>

>In the end, this means that if you resume use of the water on your property
>and duly report to IDWR by June, you will definitely be fine. If you
>decide to not use the water until after June 2007 but before 2012 (5 years
>after the Partial Decree), you will probably be fine, but you accept a
>certain level of risk.

>

>Regardless of your decisions, you and your neighbors should all file Change
>of Ownership forms so that the Department can update its records and direct
>correspondence to the correct owners. I looked in the database, and you
>and your husband still need to fill out a Change of Ownership form which I
>will mail out to you today.

>

>If you need more information, please feel free to contact me.

Re: Notice of Claim to a Water Right No. 63-3162 & 63-4849

Dear Claimant(s):

Enclosed is a copy of the above referenced claim(s), which reflects the change in ownership of the land and appurtenant water rights, covered under the original filing.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim was filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you again for your patience and cooperation, as we have had several water right changes to process. If you have any questions concerning the enclosed claim(s), please feel free to contact this office.

Sincerely,

A handwritten signature in cursive script that reads "Denise Hatfield".

Subject: RE: Field Exams

Ron,

The Echanove Ranch engineer, John Carpenter, is available Thursday, so let's plan on doing the Echanove claims on Thursday, and you and I will do the Frazell-Keys and Brush claims on Friday. Both times will be at 10am at the Hidden Springs coffee shop / merc.

Thanks,
Matt

Subject: Field Exams

Matt,

I'm ready to do field exams for some of your clients next week. The days next week are all open except Monday Veterans day.

We could do the Brush-Frazell-Keys on one day and the Echanove (Bull Development) on another.

I assume you want to do the scheduling and let me know...

Thank you,

Ron Howerton

POD 63-3162
T05N, R02E,
S31, SENWNE

This is a topographic map showing a rural landscape. A creek flows from the top right towards the bottom right. A road or path runs vertically on the right side, marked with a dashed line. A well is located near the intersection of the creek and the road. A callout box points to the well with the text 'POD 63-3162 T05N, R02E, S31, SENWNE'. Another callout box points to a location further west with the text 'X8 TOPO'. The number '2807.' is written near the bottom left, and '31' is written near the bottom center. The word 'Creek' is written diagonally across the upper right portion of the map.

RE: Diversion Pond Plans – Echanove Ranch Estates

Dear Dan:

Pursuant to your earlier request, enclosed please find a copy of the diversion pond plans for the Echanove Ranch Estates. Before advising my client to move forward with construction of the diversion pond, I had conferred with Norm Young and Jeff Peppersack concerning the Department's most recent policy with respect to diversion ponds. My client also retained Dave Shaw to provide consulting on the project. I believe you should find everything in order.

If you have questions, please feel free to contact me.

Very truly yours,

A large, stylized handwritten signature in black ink, appearing to be 'Matt J. Howard', written over the typed name.

RE: COMPLAINT AGAINST ENCHANOVE RANCH ESTATES

Dear Mr. Homan:

We recently received a complaint that you have constructed a large storage pond for Enchanove Ranch Estates. I have spoken to you and your representatives about constructing a small irrigation pond to deliver the water for water rights 63-3162 and 63-4849. A small irrigation is defined as being able to be filled and/or drained within a 24-hour period at the diversion rate established by your water rights.

The diversion rate for 63-3162 and 63-4849 is 1.50 cfs. A diversion rate of 1.00 cfs generally can fill a pond with a volume of 1.98-acre feet volume. This would allow you to construct a pond with a volume of approximately 3 acre-feet in conjunction with your irrigation system without acquiring a water right.

In order to address the complaint about your pond, please send the as-built plans for the pond. The plans should include the width, length, and depth of the pond. This will allow us the opportunity to review the complaint and determine if a site visit is necessary. If the pond has a larger volume than can be used in a 24-hour period, you will need to file a transfer to move water from the appurtenant irrigation land that is now covered with roads to pond storage.

Thank you for your co-operation and if you have any questions or concerns please contact Dan Nelson at the above address.

Respectfully,

Daniel A. Nelson
Sr. Water Right Agent

Comment Report

Application ID 68907

1. dnelson 2/27/2001 Legal Notice Remarks

Comment: This transfer proposes to separate a 1/15 th portion of water right 63-03162 to supply irrigation to one of 15 lots in the Echanove Ranch Estates subdivision. A new well will be added to supply the water for this lot and the original well will be abandoned. The remainder of the right will be split into proportionate shares to supply the other 14 lots of this subdivision with water. Each share of the original right will have its own well, 0.10 cfs diversion rate and 9.27 acres of irrigation. 15 transfers were filed, one for each lot. The following transfers are associated with these subdivision lots: 68907 = Lot 2 Block 1, 68908 = Lot 3 Block 1, 68909 = Lot 7 Block 1, 68910 = Lot 4 Block 1, 68911 = Lot 1 Block 1, 68912 = Lot 5 Block 1, 68913 = Lot 6 Block 1, 68914 = Lot 8 Block 1, 68915 = Lot 10 Block 1, 68916 = Lot 11 Block 1, 68917 = Lot 1 Block 2, 68919 = Lot 13 Block 1, 68921 = Lot 12 Block 1, 68922 = Lot 2 Block 2, 68923 = Lot 9 Block 1.

2. dnelson 2/27/2001 7:54:08 AM General Comments/Analysis

Comment: Water right 63-04849 overlaps the place of use. 63-04849 is a flood right from Dry Creek and Current Creek. This right is rarely used and some years is undeliverable. The main source of water for this 139 acres is the ground water. Upon approval of the transfer, water right 63-04849 should remain attached to each parcel and used first if available. The ditch delivering the water still exists and the new owners will have access to the creek if they wish to change the point of diversion through a transfer. However, this right was originally licensed as a primary right, since the surface water right is only a statutory claim and has not been verified. If the Snake River Basin Adjudication determines that the statutory right is not valid, then the water right associated with this transfer should maintain its primary status.

3. psdaggs 8/30/2001 Transfer Withdrawn

Comment: Transfer Withdrawn 5-9-2001.

NOTICE OF EXTENSION OF TIME TO AVOID
FORFEITURE OF WATER RIGHTS

Notice is given that **Bull Development, Inc.** of 2229 W State St., Boise, ID 83702 has applied to the Department of Water Resources for an Extension of Time to Avoid Forfeiture pursuant to Idaho Code § 42-222, 2-irrigation rights recorded as follows in T5N R2E S31 Ada County:

Both rights cover the same 139 acres in the W ½ NE and E ½ NW.

Statutory Claim # 63-4849 – Priority date 2/21/1883, for 2.78 cfs diverted from Dry Creek in the NWNE, SWNE, and NENW.

License # 63-3162 – Priority date 7/14/1959, for 1.50 cfs diverted from Ground Water in the NWNE.

The applicant claims the land was last irrigated during the 1998 season. This application was filed to allow sufficient time for the applicant to sell the newly subdivided lots, known as Echanove Ranch Estates, and to form a homeowners association of the new owners to take over administration of the water rights.

Any protests against approval of the proposed water right application must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 for each application on or before December 3, 2001. The protestant must also send a copy of the protest to the applicant.

Karl J. Dreher, Director

Published in the Idaho Statesman on November 15 and 22, 2001.

MEMORANDUM

TO: FILE
FROM: DANIEL A. NELSON
DATE: 8/10/2000

RE: BULL DEVELOPMENT TRANSFER, RIGHT 63-03162

There are 15 transfers that propose to split water right 63-03162 into 15 separate water rights and irrigation systems. These transfers were filed to subdivide the original property into a 15-lot subdivision known as Echanove Ranch Estates. A new well will be added to each lot and the original well will be abandoned. Each of the 15 lots will have a 0.10-cfs diversion rate and 9.27 acres of land.

DOCUMENTS AND APPLICATION PREPARATION

Each application consists of 6 pages and 3 attachments. Note the location of the following application items:

Attach. A – Proof of ownership documentation (A1 through A3)

Attach. B – Adjudication claim (B1 through B2)

Attach. C – CSFA aerial photo based on 1999 data.

Applicant prepared the application with my assistance.

Other information used in this review includes 1994 IDWR aerial photo, 1987 NAPP aerial photo, Metes & Bounds sheet, Place of Use Comparison Sheet, and a copy of Snake River Basin Adjudication Claim for overlapping right 63-04849 all attached to this memo.

NARRATIVE

The applicant is attempting to split this right into 15 equal parts to supply water to a new subdivision. The applicant wants the lots to be ready to sell so all the new owners would need to do is file a change of ownership with us.

A 1993 CFSA aerial photo was supplied and the CSFA office told the applicant that the acres listed on the photo were from the 1999 irrigation season. I checked these with the 1994 and 1987 aerial available in our office and I am confident that this land was irrigated prior to commencement of the SRBA and within the last 5 years. The applicant supplied a warranty deed as proof of ownership.

The only real problem that I found was the overlapping statutory claim 63-04849. This claim is for the exact same acres as the groundwater right associated with this application. The original owner applied for the groundwater, because the surface water right was only a flood right and usually did not provide any water after the end of June if there was water at all. The current owners do not know if the statutory right has been used, but they did say that the ditches and diversion point were still there. The groundwater right was licensed as a primary right since the department has not validated the statutory claim.

The applicant wanted to add the surface water right into this transfer, but staff decided that the applicant was not actually transferring anything involving the surface water right. Therefore, it was decided that the surface water could be handled in the change of ownership process. Most of the lots should have access to the ditch if they need it, or they can come in and file a transfer to move the point of diversion since most of the lots border Dry Creek.

RECOMENDATIONS

This transfer should be approved as filed. The Statutory claim, 6304849, should remain attached to all of the splits until the SRBA has had the opportunity to review the statutory claim. If the SRBA determines that the statutory claim has been forfeited or is no longer valid, then this water right should be allowed to remain a primary irrigation right.

MEMORANDUM

TO: FILE
FROM: DANIEL A. NELSON
DATE: 8/10/2000

**RE: BULL DEVELOPEMNT INC. FILED FOR AN EXTENSION OF TIME TO
AVOID FORFIETURE OF WATER RIGHTS 63-4849 & 63-3162**

This application was filed to prevent forfeiture for water rights 63-4849 and 64-3162. The applicant claims the land was last irrigated during the 1998 season. This application was filed to allow sufficient time for the applicant to sell the newly subdivided lots, known as Echanove Ranch Estates, and to form a homeowners association of the new owners to take over administration of the water rights. The water rights are diverted and the land is irrigated in the W ½ NE and E ½ of NW in S31 T5N R2E. The applicant has also submitted documentation to change the ownership of the property from Echanove to Bull Development Inc. The property will now be known as the Echanove Ranch Estates.

DOCUMENTS AND APPLICATION PREPARATION

Note the following items included with the application:

- Attach. A – Proof reports for water rights 63-4849 and 63-3162 (A1-A4).
- Attach. B – Warranty Deed and small plat map showing ownership of property by Bull Development (B1-B4).
- Attach. C – Large plat map of property.
- Attach. D - Affidavit of Pedro Echanove that land was irrigated(D1-D2)
- Attach. E - 1998 aerial photo of property.
- Attach. F - 1987 aerial photo of property.
- Attach G. - 1994 and 2000 aerial photo of property (F1-F2).

Matt Howard, Attorney at Law, prepared the application.

NARRATIVE

This application was filed to extend time to avoid forfeiting the above-mentioned water rights in order to allow the owners to sell all of the lots in their new subdivision known as the Echanove Ranch Estates. The Echanove Family formerly owned the land. The applicants filed a transfer and withdrew the application, because they believed that the main source of water for the farm was the groundwater associated with water right 63-3162. It was discovered in the transfer process that groundwater was actually supplemental to the surface water and that it has not been used in sometime.

The applicant's attorney, Matt Howard, has spoken to Norm Young of the Idaho Dept. of Water Resources (IDWR) and has been told by Mr. Young that the groundwater is supplemental to the surface water and would not be considered forfeited if there was adequate surface water to irrigate the land. Mr. Howard confirmed that this is the case and has marked section 9 of the application for forfeiture form that the groundwater right is supplemental to the surface water right (63-4849).

I have reviewed the 1987 aerial photo and it looks as though this ground was irrigated in 1987. The 1994 and 2000 aerial photos confirm that the ground has been irrigated in the past. The property looks to be irrigated in the 2000 aerial photo, which could raise suspicions of the amount of actual irrigation that has transpired in the past. However, the areas irrigated in 1987 and 1994 do seem more defined than the 2000 aerial photo suggesting that the land was irrigated in these years.

The applicant has supplied a 1998 aerial photo of the property and an affidavit from the former owner stating that the land was last irrigated in 1998. I can find no reason to dispute this information. I tried to contact Kathleen Brady who has filed a complaint against this development and she has not responded. A comment letter was sent to Ms. Brady to give her the opportunity to respond to the application.

RECOMENDATIONS

I recommend that this application for extension of time to avoid forfeiture be granted. The ownership of the right should also be changed with this application into the new owner's name, Bull Development Inc.

WR APPLS – LOCAL PUBLIC INTEREST QUESTION

Seek SO approval for letter to applicants

Proposed ponds

West Nile Virus issue, Idaho has most cases nationwide for 2006

At least 3 counties declared West Nile Virus disaster areas (Ada, Canyon, Owyhee)

Tax dollars in use for spraying

State government dedicating additional resources to other related measures - IDHW public health preparedness programs include West Nile Virus, perhaps with delegation/cooperation with District Health offices

IDWR should ask for additional information under WA Rule 40.05.g – applicants shall seek comments from IDHW &/or District Health regarding West Nile Virus issues for new ponds

Example: Application 65-23077 proposes shallow ground water for ponds to cover about 56 acres, 844 af capacity, adjacent to Cascade Reservoir several miles south of Donnelly, already prime mosquito habitat without adding ponds

Assume all filings for ponds would need this information, regardless of location

ALB-3162

Water Right No. 63-4849

763-3162

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCESAPPLICATION FOR EXTENSION OF TIME TO AVOID
FORFEITURE OF A WATER RIGHT

Section 42-222, Idaho Code, provides that a water right shall be lost and forfeited and the water right revert to the state upon the failure of a water user to apply the water to beneficial use for a period of five (5) years. The Director may allow an additional five (5) year period of non-use without forfeiture upon a showing of reasonable cause.

1. Name of water right holder Bull Development, Inc. (208) 429-1900
2. Mailing address 2229 W. State St., Ste. B, Boise, ID 83702
3. The right was obtained or is evidenced by:
 - a. Decree to n/a in Case of _____
vs. _____, Dated _____ in _____
Court, County of _____. Fully describe decree _____
 - b. _____
 - d. SRBA No. A63-4849
4. Source of water Dry Creek tributary to Boise River
(Name of stream or source)
5. Date of priority of right 02/21/1883
6. Description of Right:

amount 2.78 for Irrigation purposes from 1/15 to 7/01
(cfs/ac-ft)

amount _____ for _____ purposes from _____ to _____
(cfs/ac-ft)
7. Point of Diversion NW 1/4 NE 1/4 of Sec. 31 Twp. 5N Rge. 2E County Ada
SWNE, SENE, NENW Sec. 31, T5N, R2E
8. Lands irrigated or Place(s) of Use:

H. REMARKS AND OVERLAP REVIEW ANALYSIS

has some natural artesian flow (not year round) and this was measured at 30 gpm after the pump had been shut off approximately 15 minutes. The groundwater is used to supplement surface water from Settler's Irrigation District. Mr. Bayless has had up to 500 head of cattle water from this system. No domestic use has been developed using this system. 63-0198A 63-0124F 63-2-40 63-2101 are surface water rights. 63-7700 is used on the land to the south of this land.

I. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)

To
Applications for Extension of Time to Avoid Forfeiture
Water Right Nos. 63-4849 and 63-3162

Bull Development, Inc., purchased the Echanove Ranch, which includes the places of use for right nos. 63-4849 and 63-3162. Purchase of the ranch was based on a series of agreements entered into beginning in late 1997 and ending on November 5, 1998. After purchase of the Echanove Ranch, Bull Development undertook the required studies, engineering work, and related development actions to comply with federal, state, and local regulations for development of the Echanove Ranch Estates Subdivision, including required permit and plat approvals. Because of the ongoing development of the Echanove Ranch as a residential subdivision, irrigation of the Echanove Ranch has not been undertaken since 1998.

As part of the residential development, Bull Development has constructed a pressurized irrigation system to provide irrigation water to the various lots located within the original place of use. (Plans of the irrigation system were previously provided to IDWR on September 14, 2001). Lots in the Echanove Ranch Subdivision are currently being marketed and are available for sale. A five (5) year extension of time is needed to allow sufficient time for the lots to be sold, houses to be constructed, and for the new lot owners to begin irrigating their lots and putting water to beneficial use.

Do not use this space

D. FLOW MEASUREMENTS

☐ Additional Data Sheets Attached

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
2' rectangular weir		Waterusers				
staff gauge						
5 gallon bucket						
stop watch						

2. Measurements:

Head of 0.43' over a 2' crest length rectangular weir. 1.81 cfs from Table 3 pg. 22 U of I Bulletin 552.
 Filled a 5 gallon bucket in 10 seconds from natural artesian flow. (WITHOUT PUMP)
 $5 \times 60 = 30 \text{ gpm}$ 500 head cattle allow 0.12 cfs

E. FLOW CALCULATIONS

☐ Additional Computation Sheets Attached

1. Measured Method: Allow 1.81 cfs $\frac{30 \text{ gpm}}{448.8} = 0.07 \text{ cfs}$

2. Alternate Method for Checking Purposes:

Est. 20' lift $\frac{75 \times 8.8 \times 0.6}{20 + 2.3(0)} = 19.8 \text{ cfs}$

F. PUMP EFFICIENCY DATA (Optional)

Discharge Pressure: _____ psi x 2.31 = _____ ft (1); Dynamic pumping level: _____ ft (2)

Total Head: (1) + (2) = _____ (3) : Flow rate: _____ cfs (4)

Water HP: (3) x (4) ÷ 8.8 = _____ (5)

Meter Input KW: 3.6 x _____ KH x _____ CTR or _____ MULT x _____ PTR x _____ N/ _____ T = _____ (6)

Meter Input HP: (6) x 1.34 = _____ (7)

Panel Input KW: _____ Ave PF x _____ Ave Volts x _____ Ave Amps x .001732 = _____ (6)

Panel Input HP: (6) x 1.34 = _____ (7) Efficiency: (5)/(7) x 100 = _____ %

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 92 \times 4.5 = 414.0 \text{ afa}$

$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 1.81 \times 245 \times 1.9835 = 879.6 \text{ afa}$

$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} = 414.0 \text{ afa}$

2. Volume Calculations for Other Uses:

500 head cattle allow 6.7 afa

IN THE MATTER OF APPLICATIONS FOR)
EXTENSION OF TIME TO AVOID)
FORFEITURE OF WATER RIGHT NOS. 63-) AFFIDAVIT OF PEDRO ECHANOVE
4849 AND 63-3162 IN THE NAME OF)
BULL DEVELOPMENT, INC.)

STATE OF IDAHO)
) ss.
County of Ada)

PEDRO ECHANOVE, being first duly sworn upon oath, deposes and says:

1. I make the following statements based on my personal knowledge.
2. I am a resident of Ada County, Idaho. My address is Route 1, Dry Creek Rd., Boise, Idaho 83703.
3. In the early 1920's my family purchased the land now known as the Echanove Ranch located off Dry Creek Road in Ada County. I am 76 years of age, and I have lived on the ranch all my life.

AFFIDAVIT OF PEDRO ECHANOVE - 1

3. Source: Ground water tributary to _____

B. OVERLAP REVIEW

1. Other water rights with same place of use: 63-0198A 63-2040 63-2101 63-4983
63-0124 F ☒ Copies Attached
2. Other water rights with same point of diversion: none
_____ ☐ Copies Attached ☐ Copies of Field Exam's Attached

C. SYSTEM DESCRIPTION

1. Diversion System Diagram: Indicate all major components and distances between components. Indicate weir size/ditch size/pipe i.d. as applicable. ☐ Alternative diagram attached

Scale: 1" = 5'

2. ☒ Copy of U.S.G.S. Quadrangle Attached Showing location(s) of point(s) of diversion and place(s) of use (required). ☐ Aerial Photo Attached (required for irrigation of 10 acres or more).
☒ Photo of Diversion and System Attached (required for all but single household domestic groundwater, and stockwater).

4. During the time that I lived on the ranch, my family and I irrigated and farmed the ground every year up until I sold the ranch in late 1998. We mostly grew alfalfa and grain. To irrigate, I used my Dry Creek water right, no. 63-4849. I would also use my supplemental ground water right, no. 63-3162, to irrigate in years when there was not enough Dry Creek water to irrigate my crops.

5. The last year that I grew crops and irrigated the Echanove Ranch was in 1998.

Further your affiant sayeth naught.

thence along said South line
North 89 degrees 19'13" West a distance of 1024.92 feet
to an aluminum cap marking the Southwest corner of said West Half; thence leaving said South line of the West Half and
along the South line of the said East Half
North 89 degrees 19'32" West a distance of 551.11 feet to
a 5/8 inch rebar on the Northeasterly right-of-way line of
Dry Creek Road; thence leaving said South line and along
said right-of-way the following courses:
North 33 degrees 48'28" West a distance of 212.00
feet to a 5/8 inch rebar; thence along the arc of a curve to
the left having a radius of 379.00 feet, a central angle of
22 degrees 39'30", a length of 149.88 feet, and a long chord
bearing
North 45 degrees 08'14" West a distance of 148.91 feet
to a 5/8 inch rebar; thence
North 56 degrees 27'59" West a distance of 480.56 feet
to a 5/8 inch rebar; thence along the arc of a curve to the
right having a radius of 166.00 feet, a central angle of 42
degrees 56'04", a length of 124.39 feet, and a long chord
bearing
North 34 degrees 59'56" West a distance of 121.50 feet
to a 5/8 inch rebar; thence
North 13 degrees 31'54" West a distance of 60.77 feet
to a 5/8 inch rebar; thence along the arc of a curve to the
left a radius of 145.00 feet, a central angle of 10 degrees
56'14", a length of 27.68 feet, and a long chord bearing
North 19 degrees 00'01" West a distance of 27.64 feet to
a 5/8 inch rebar on a non-tangent curve on the Easterly
right-of-way line of Broken Horn Road; thence leaving the
right-of-way of said Dry Creek Road and along the Easterly
right-of-way of said Broken Horn Road the following course:
Along the arc of a curve to the right having a radius
of 675.00 feet, a central angle of 24 degrees 28'40", a
length of 288.37 feet, and a long chord bearing

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. G-23046This proof is for Completion of Works & Bene. Use In Water District No. _____/Echanove1. Name of applicant Pedro, Petra, and Elena Anita Gibbons2. Source of water supply: subterranean3. Location of point of diversion: Is in the NW 1/4 of Section 31T. 51 R. 2 E County of Ada

4. Describe works as they exist, giving dimensions and capacities of same: 20 HP US Hailshaft Motor 32524, E-M Pump PE 8738, 6" discharge cast into open ditch. They use a portable sprinkler system that pumps out of the ditch and creek to irrigate land not reached by gravity irrigation.

5. Water is used for: irrigation6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

NW 1/4, E 1/4, Section 31, T5N-R2E making a total of 160 acres to be irrigated.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? _____

Remarks: Mrs. Pedro Echanova consulted. (wife)Measured over 2" Cipolletti weir 37' = 1.8 cfsThis examination was made on the _____ day of August 19 65

MEMORANDUM

TO: FILE
FROM: DANIEL A. NELSON *DAN*
DATE: 8/10/2000

RE: BULL DEVELOPMENT TRANSFER, RIGHT 63-03162

There are 15 transfers that propose to split water right 63-03162 into 15 separate water rights and irrigation systems. These transfers were filed to subdivide the original property into a 15-lot subdivision known as Echanove Ranch Estates. A new well will be added to each lot and the original well will be abandoned. Each of the 15 lots will have a 0.10-cfs diversion rate and 9.27 acres of land.

DOCUMENTS AND APPLICATION PREPARATION

Each application consists of 6 pages and 3 attachments. Note the location of the following application items:

Attach. A - Proof of ownership documentation (A1 through A3)

Attach. B - Adjudication claim (B1 through B2)

Attach. C - CSFA aerial photo based on 1999 data.

Applicant prepared the application with my assistance.

Other information used in this review includes 1994 IDWR aerial photo, 1987 NAPP aerial photo, Metes & Bounds sheet, Place of Use Comparison Sheet, and a copy of Snake River Basin Adjudication Claim for overlapping right 63-04849 all attached to this memo.

NARRATIVE

The applicant is attempting to split this right into 15 equal parts to supply water to a new subdivision. The applicant wants the lots to be ready to sell so all the new owners would need to do is file a change of ownership with us.

A 1993 CSFA aerial photo was supplied and the CSFA office told the applicant that the acres listed on the photo were from the 1999 irrigation season. I checked these with the 1994 and 1987 aerial available in our office and I am confident that this land was irrigated prior to commencement of the SRBA and within the last 5 years. The applicant supplied a warranty deed as proof of ownership.

page 2
Bull Development

The only real problem that I found was the overlapping statutory claim 63-04849. This claim is for the exact same acres as the groundwater right associated with this application. The original owner applied for the groundwater, because the surface water right was only a flood right and usually did not provide any water after the end of June if there was water at all. The current owners do not know if the statutory right has been used, but they did say that the ditches and diversion point were still there. The groundwater right was licensed as a primary right since the department has not validated the statutory claim.

The applicant wanted to add the surface water right into this transfer, but staff decided that the applicant was not actually transferring anything involving the surface water right. Therefore, it was decided that the surface water could be handled in the change of ownership process. Most of the lots should have access to the ditch if they need it, or they can come in and file a transfer to move the point of diversion since most of the lots border Dry Creek.

RECOMENDATIONS

This transfer should be approved as filed. The Statutory claim, 6304849, should remain attached to all of the splits until the SRBA has had the opportunity to review the statutory claim. If the SRBA determines that the statutory claim has been forfeited or is no longer valid, then this water right should be allowed to remain a primary irrigation right.

**NOTICE OF PROPOSED CHANGE OF WATER
RIGHTS, TRANSFER NUMBERS 68907 - 68917, 68919, and 68921 - 68923**

Notice is given that **BULL DEVELOPMENT** of 2229 W State Street, Boise, ID 83702 has applied to the Department of Water Resources to add points of diversion and split a water right pursuant to I.C. § 42-222 for an irrigation right recorded as follows in T5N R2E S31, Ada County:

License 63-03162, priority 7/14/1959, 1.5 cfs, Groundwater (one well) diverted in NWNE and used in W½ NE and E½ NW for 139 acres

PROPOSED CHANGE FOR ALL RIGHTS

15 transfers have been filed to split the right into 15 proportionate parts with each part having its own well, 0.10-cfs diversion rate and 9.27 acres of irrigation. Each part will be associated with one of the 15 lots known as the Enchanove Ranch Estates Subdivision. The 15 wells and proportionate rights will be spread throughout W½ NE and E½ NW. A subdivision plat map showing the proposed wells and lots is available for review at the department address listed below.

Any protest against approval of the proposed change must be filed with the Department of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705-5082, together with a protest fee of \$25 for each application on or before April 2, 2001. The protestant must also send a copy of the protest to the applicant.

Re: Original Notice of Claim to a Water Right No. 63-31737, 63-31739
Renumbered Notice of Claim to a Water Right No. 63-32405, 63-32414

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of the original Claim to a Water Right Number as referenced above. This Change of Ownership required a split of the original claim resulting in renumbering this claim, using a new water right number to represent each split. The new Notice of Claim to a Water Right number for your portion is referenced above and a copy is enclosed.

Your portion of this claim has a specified point of diversion, nature of use and place of use. If you plan on changing the nature of use, place of use, or point of diversion under this right, including adding a new point of diversion, then an Application for Transfer on your portion of this right is required. Please contact this office for further information on the Application for Transfer form. If you do not plan on changing any items on your claim, then no further action is required at this time.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your water right. This claim represents a split of the claim filed by a previous owner during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. Please feel free to contact this office if you have any questions concerning your claim or this letter.

Sincerely,

Adjudication Section
