your recent letter of water right
recommendation did not identify all
the water right wells on my property.
Attached is a document from your
office identifying the points of
diversion. Why is there a change
on the recommendation and for what
reason. This matter was discussed with
your office on March 29, 2006. Please give
me a written explanation and description
regarding this important matter.

CONVERSATION MEMORANDUM

SUBJECT: 63-28322

WHOM WITH: Gene Hawker

WATER RIGHTS: 63-28322

BY: SANDY EGBERT

DATE: 3/20/2006

NARRATIVE: Mr Hawker called me a little after 8 am regarding the Evidence of Priority letter I sent him. He was somewhat argumentative on the phone and he decided to come in to discuss his water rights. He arrived at the office a little before 11 am and we discussed 3 of his water rights until around 12:30 pm. Before our meeting I had made copies of some of the papers in the water right file 63-11468 because it was a complete overlap to 63-28322. In those copies was a hand-written protest that Mr. Hawker saw and immediately took objection to. He did not want that in the file and demanded that I take it out because he thought it was coloring my opinion of him and his other water rights. I told him it was public record and it pertained to a licensed right that was already complete. (It was a right that was not in the adjudication)

We discussed for quite some time the issue of the overlap of 63-11468 and 63-28322. He objected to limiters of rate, volume and acres being put on water right 63-28322. He objected to the house in the SWSW being excluded from the shape for 63-28322. I explained that the house and ½ acre of irrigation was included in the domestic and stockwater right 63-28107. He also objected to the road just east of the house being excluded so I removed that exclusion from the shape. At one point he agreed that the well for 63-28322 could not even pump the 2.2 cfs claimed. He seemed to understand that he had claimed too much water and we even laughed about the fact that he had claimed more water than he could pump. I was going to reduce his acreage to the portion that was excluded in the licensed right 63-11468, which is where he said he used the water for growing about 400 trees but he fairly quickly became very argumentative again about losing a portion of the water he had claimed. He believed he was entitled to all the water he had claimed. I suggested several time that the department should do a field exam to determine the capacity of the pump and he very vehemently opposed that. He said he had put in a smaller pump and he would be losing some of his water rights.

During our conversation I also explained to him that he did not own all of the property any more and the other landowners had a right to file a change of ownership and receive a portion of these water rights. He became very irate about that also, saying they were his water rights even though he now only owned about 1/3 of the land those water rights were filed on.

About an hour into our conversation, John Westra joined us to see if he could resolve some of the issues. John basically told him the same things I had been telling him so Mr. Hawker finally decided to put a bigger pump back in this well and then call us to have a field exam done.

As Mr. Hawker was leaving, he asked me how long he had to put in the bigger pump and call our office. I told him we needed to hear from him by May 1 in order to have time to do the field exam and finish the recommendation.

I still did not get evidence of priority for 63-28322.

I sent Mr. Hawker another letter asking for Evidence of Priority. The address we have for Mr. Hawker is 11140 Chicken Dinner Road. That is actually the address of Israel Ray and he said he had bought some property from Gene Hawker and wanted to know what he should do. I told him he needed to file a change of ownership so we could split the water rights involved.

Dear Claimant(s):

We have received and processed a Change of Ownership for a portion of your original Claim to a Water Right Number as referenced above. This change of ownership resulted in a split of your original claim.

When a portion of the original water right claim has been conveyed to another and the original right has been split, then the original claim number is renumbered by issuing a new water right number to represent each split. Each split contains only the portion of the original right for each separate owner. The above referenced new claim number reflects your remaining portion of the original claim after the change of ownership. Enclosed is a copy of this new claim for your records. Please refer to your new claim number when corresponding with our office.

Please note that the enclosed Notice of Claim to a Water Right is not a determination of your right. This claim represents the remaining portion of the claim filed during claims taking in the Snake River Basin Adjudication (SRBA) and has not yet been verified by this Department. Water rights are established and maintained by beneficial use of water for the uses designated on this claim form dating back to the priority date listed. This claim will be investigated, verified and recommended to the SRBA Court for court decree sometime in the near future. You will be notified prior to the beginning of any verification of this water right.

Thank you for your patience, as we have had several water right changes to process. If you have any questions concerning this ownership change, or the enclosed claim copy, please feel free to contact this office.

Sincerely,

Adjudication Section

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No: 63-28322

Dear Claimants,

On March 16, 2006 I sent you a letter requesting Evidence of Priority for the above water right. As yet I have not received any evidence to support the 1950 priority date. Mr. Hawker and I spoke at length on March 20, 2006 but no evidence was submitted that day either.

It is very important that we receive Evidence of Priority so your claim can be recommended to the SRBA court for decree as accurately as possible. We also need to do a field exam on this water right and that cannot be scheduled until Evidence of Priority is submitted. The required evidence supporting the priority date requested needs to be submitted by June 12, 2006.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement.

Please let me know if you have questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): 63-28322

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout or re-file it. You indicated, when these claims were filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled **"Evidence of Priority"** which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. The required evidence supporting the priority date(s) requested needs to be submitted by March 31, 2006.

Please let me know if you have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

Sandy Egbert

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
