Re: ltr dtd August 24, 1020

Dear Mr. Knoblock,

Apparently there is confusion somewhere. I stated that our water has been withdrawn since this home was built and occupied in 1987. I might have made a typo or something. There is however, enough evidence at Building and Planning at the Kootenai county Courthouse to support that a doublewide trailer occupied this land from circa 1947 till the new home was constructed in 1987. You can obviously check this for yourself. In talking to Dr. Rodkey who until recently, was my next door neighbor and good friend, I discovered that his Father withdrew water from the River and used the well on my property for some time before 1947 (year of the big flood). I purchased this property with the well and River sprinkler system intact in 2003 and upon occupancy, paid many dollars to join Post Falls City in order to hook onto the sewer to help in the River discharge problem. I was told however that no one is required to hook to the sewer. Strange indeed.

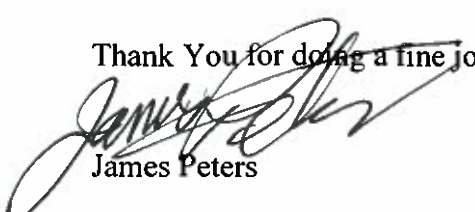

Nevertheless, I can personally document 2003; Dr. Rodkey can document 1947; and Kootenai County can document 1987 as positively having a well and river withdrawl systems on this property. As far as any permits, I doubt they were required at the specified times. If they were, they should be available at the Kootenai County Courthouse.

You charged me \$25.00 for some unknown reason for my well and \$25.00 for the River System also unknown reason. It seems that our tax dollars ought to pay for some or all of these items.

You are welcome to check at the Kootenai County Courthouse as all those records are public records and I am sure you will be more than satisfied. I can only do so for you if the VA, or Medicare will provide transport to and from the Courthouse and I doubt they will.

Perhaps Building and Planning will fax you the records as you are also part of our Government at work for us.

Thank You for doing a fine job,

  
James Peters
