RECEIVED

AUG 30 2010

IDWR/NORTHERN

We originally purchased the home in 1992. The address was 3905 So Hayden Lake Road at that time. There was a pump in the house with pipes going to the lake for domestic irrigation. The information I received with the purchase and from talking with Dick and Marge O'Neill (they lived next door since the early 1950's). E. C. Wert and Jocelyn Wert, husband and wife owned this house in the early 1950's and installed the pump and pipes. When we purchased the home, we remodeled and installed a new pump and pipes. I have no documentation other than a quick claim deed showing the Werts owned the home at that time. I hope this will establish the priority date.
