Gentlemen:

One of the conditions of approval of your water Permit No. 95-7538 (see last page of your approved permit) was that evidence of the extent of development be submitted as proof of application of water to beneficial use to this office on or before December 1, 1976. Enclosed is an affidavit form which must be used to submit the required proof of beneficial use.

If you have not fully completed your project, and you have not previously received an extension of time, you may request an extension of time provided the delay is for reasonable cause as indicated in Section 42-204, Idaho Code, amended. If you have been prevented from proceeding by a governmental agency or by litigation, more than one extension of time can be granted.

Either the beneficial use affidavit or a request for an extension of time must be received by this Department on or before the above mentioned date, otherwise the permit will lapse and be of no further force or effect.

Dear Mr. Haynes:

Thank you for your letter of October 29 concerning Permit No. 95-7538. This permit covers a well to supply water for the Post Falls River Park on the south side of the Spokane River.

Application was made for 0.5 cfs such that all lawn sprinkling could be performed after dark when the park was not in use. It was estimated that approximately 200 gpm, or 0.45 cfs, would be necessary to satisfy this condition. The park is in a state of development so actual needs will not be known until the project is essentially complete.

Please contact me if you have any further questions.

Very truly yours,

Gary A. Frame

Re: Application for Permit No. 95-7538

City of Post Falls
City Hall
Post Falls, ID 83854

Gentlemen:

Some time ago, I contacted the City of Post Falls regarding Application for Permit No. 95-7538. This water is to be used for lawn irrigation and rest-room facilities at the City of Post Falls River Park.

The application asks for 0.50 cubic feet per second of water for the irrigation of 5 acres. Idaho law (Section 42-202) restricts the amount of water that can be permitted to 0.02 c.f.s. per acre, unless it can be shown to the Director of the Department that an amount exceeding that quantity is required.

I was referred to the firm of LePard and Frame, as they apparently designed the system. I contacted Mr. Gary Frame and explained the situation to him. He stated that he would provide the necessary justification. As of this date, we have not received the information.

This is to inform you that if a statement of justification regarding the excessive amount of water is not received within 30 days from the date of this letter, the Department will take action to reduce the amount for irrigation to 0.10 c.f.s., which is the amount allowed by law.

If there are any questions in this matter, please contact me.

Very truly yours,
