)
) STIPULATED ELEMENTS OF A
) WATER RIGHT

This form is used to report the stipulated elements of water rights acquired under state law. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

To resolve the objections the whole of the parent water rights on Attachment A were split into two or more water rights and renumbered as shown on the Attachment. The parties and IDWR agree and stipulate that the parent water rights should be disallowed. The split water rights now supersede the parent rights. The parties and IDWR have further indicated their concurrence to these renumbered rights by signing below and initialing the attached pages.
