POD #1 is on Patterson Creek. Headgate and intake box divert the water from Patterson into a gravity flow sprinkler system.

POD #2 is on the Tilton River. There is a 75 h.p. pump that diverts water into the Patterson system. There doesn't seem to be a claim regarding this POD unless it is in another claim

 80 Field exam showed that claim is mostly farm ground that is irrigated with wheel lines and hand lines. NWSE of Sec 31 should be 32 acres instead of 40 because of sheds and buildings. The rest seems pretty accurate.
