) SPECIAL MASTER REPORT

Findings of Fact

The Director of the Idaho Department of Water Resources filed his *Director's Report, Domestic & Stock, Reporting Area 10 (IDWR Basin 45)* on March 2, 1998. The Director recommended each of the above 32 claims to the United States of America, Department of Interior, Bureau of Land Management, Idaho State Office, 1387 S. Vinnell Way, Boise, Idaho, 83709-1657, for .02 cfs from springs for year-'round stockwater use in Cassia County with a priority date of January 1, 1873, based on beneficial use. On all of the claims, the Director added the following language below priority date:

4/17/1926 Claimed under federal reserved water right.
This water right is also claimed based on federal law with an April 17, 1926, date of priority pursuant to an Executive Order signed the same date and known as Public Water Reserve 107.

Objections filed by certain private parties were disposed of by an August 29, 2002 *Stipulation and Joint Motion*. *Objections* filed by Bruce and Jared Bedke's were withdrawn by *Stipulation* on August 10, 2007. The State of Idaho's *Objections* were withdrawn by *Stipulations* filed on March 11, 2003, and April 22, 2008. Motions to file late objections filed by Michael and Gary Poulton were effectively withdrawn by various amended lists.

An I.C. § 42-1411A evidentiary hearing was held by telephone on September 16, 2010. R. Lee Leininger appeared for the United States, along with Mr. Price, and Nicholas B. Spencer appeared for IDWR. No one else appeared.

The United States submitted *Affidavits of Frederic W. Price*. Mr. Price, a water rights specialist in the BLM state office, stated that: the federal law basis of the claims is an Executive Order, dated April 17, 1926, and known as Public Water Reserve 107; the claim is located on unreserved federal public domain as of April 17, 1926; the land currently remains under U.S. Department of Interior administration; the claimed water source was confirmed by field investigation; there is sufficient surface water at the claimed site for consumptive use by livestock; the source is a spring or waterhole located at the claimed point of diversion; and the point of diversion and place of use are correctly described in the *Director's Report*.

Conclusions of Law

The United States is entitled to partial decrees adjudicating federal reserved water rights with a priority date of April 17, 1926, as described in the attached *Special Master Recommendations for Partial Decrees for Federal Reserved Water Rights*.

DATED September 20, 2010.
