

TO IT MAY CONCERN

In Feruary, 1970 my husband, Roy and I, Itha, Hughes had a well drilled so we could move his folks over here from Kettle Falls as they needed extra help. We moved in a mobile home for them to live in.

Then in 1975, probably July , our daughter got married and they had no where to go so we moved in another mobile home for them to live in. So the water was run over to their place from this one well.

I hope this is the information you need.

*Itha C Hughes*
