AFFIDAVIT
HENRY BRANDAU

I, Henry Brandau, of HC 79, Box 66, Melba, Idaho have lived in the Reynold's Basin since 1914. My father George Brandau purchased the property in 1907. I have farmed and ranched in the basin all of my life and was Watermaster in 1935 and 36 in the basin. My personal experience has been that the "excess water" in the basin has been used on cropland on or before February 1st as long as the ground was not frozen. During drought years water was occasionally generally available but in average to good water years significant flow was diverted onto cropland in an effort to stimulate growth and prolong the flow of Reynold's Creek later in the year. Use of the excess water often extended into July as long as water was available and the creek was not put on regulation.

Dear Sirs:

My Name is Richard Bass, My address is Rt#1 Box 1117, No. Hogg Rd. Homedale Id. 83628. I am 65 years old and worked and lived on Reynolds Creek for 52 years prior to selling my ranch in June of 1998 to John and Cathy Romero. Prior to owning my ranch I worked for my Father, Jonas Bass, and Uncle George Bass. In 1962 I purchased my Uncle's ranch on Whiskey Hill road and in 1982 we purchased the home ranch from my Mother Launa Bass..

My father Jonas Bass, and my Uncle, always started irrigating in February and my normal practice in irrigation for these ranches was to start running water as soon as the ice went out of Reynolds Creek and Bavington Creek. This usually was the first week in February, I did this practice to take advantage of the early spring run off. In one drought period lasting 5 years I started running water in Mid December.

If I can be of further assistance please call 208-337-6085.
