Re: Claim #95-13323

Dear Mr. Maxey:

It appears that I placed the wrong parcel number on the Notice of Claim I filed in August of 2009 (Claim #95-13323). The correct parcel number is 48N05E-31-0800. I have enclosed a corrected copy of the claim form and marked on the maps the location of the well and the house it serves.

As to the May 1981 well, the driller did not file or provide any well forms for that well. All I was able to locate in my records was a payment record showing that I paid Brand X Drilling of Smelterville, Idaho for drilling the well in 1981. After drilling the well in 1981, a temporary mobile home was placed on the property and connected to the well while the house was being constructed. Construction of the house began in 1982 and was substantially completed in March 1984. I moved into the house on March 17, 1984. The temporary mobile home was subsequently sold and removed from the property.

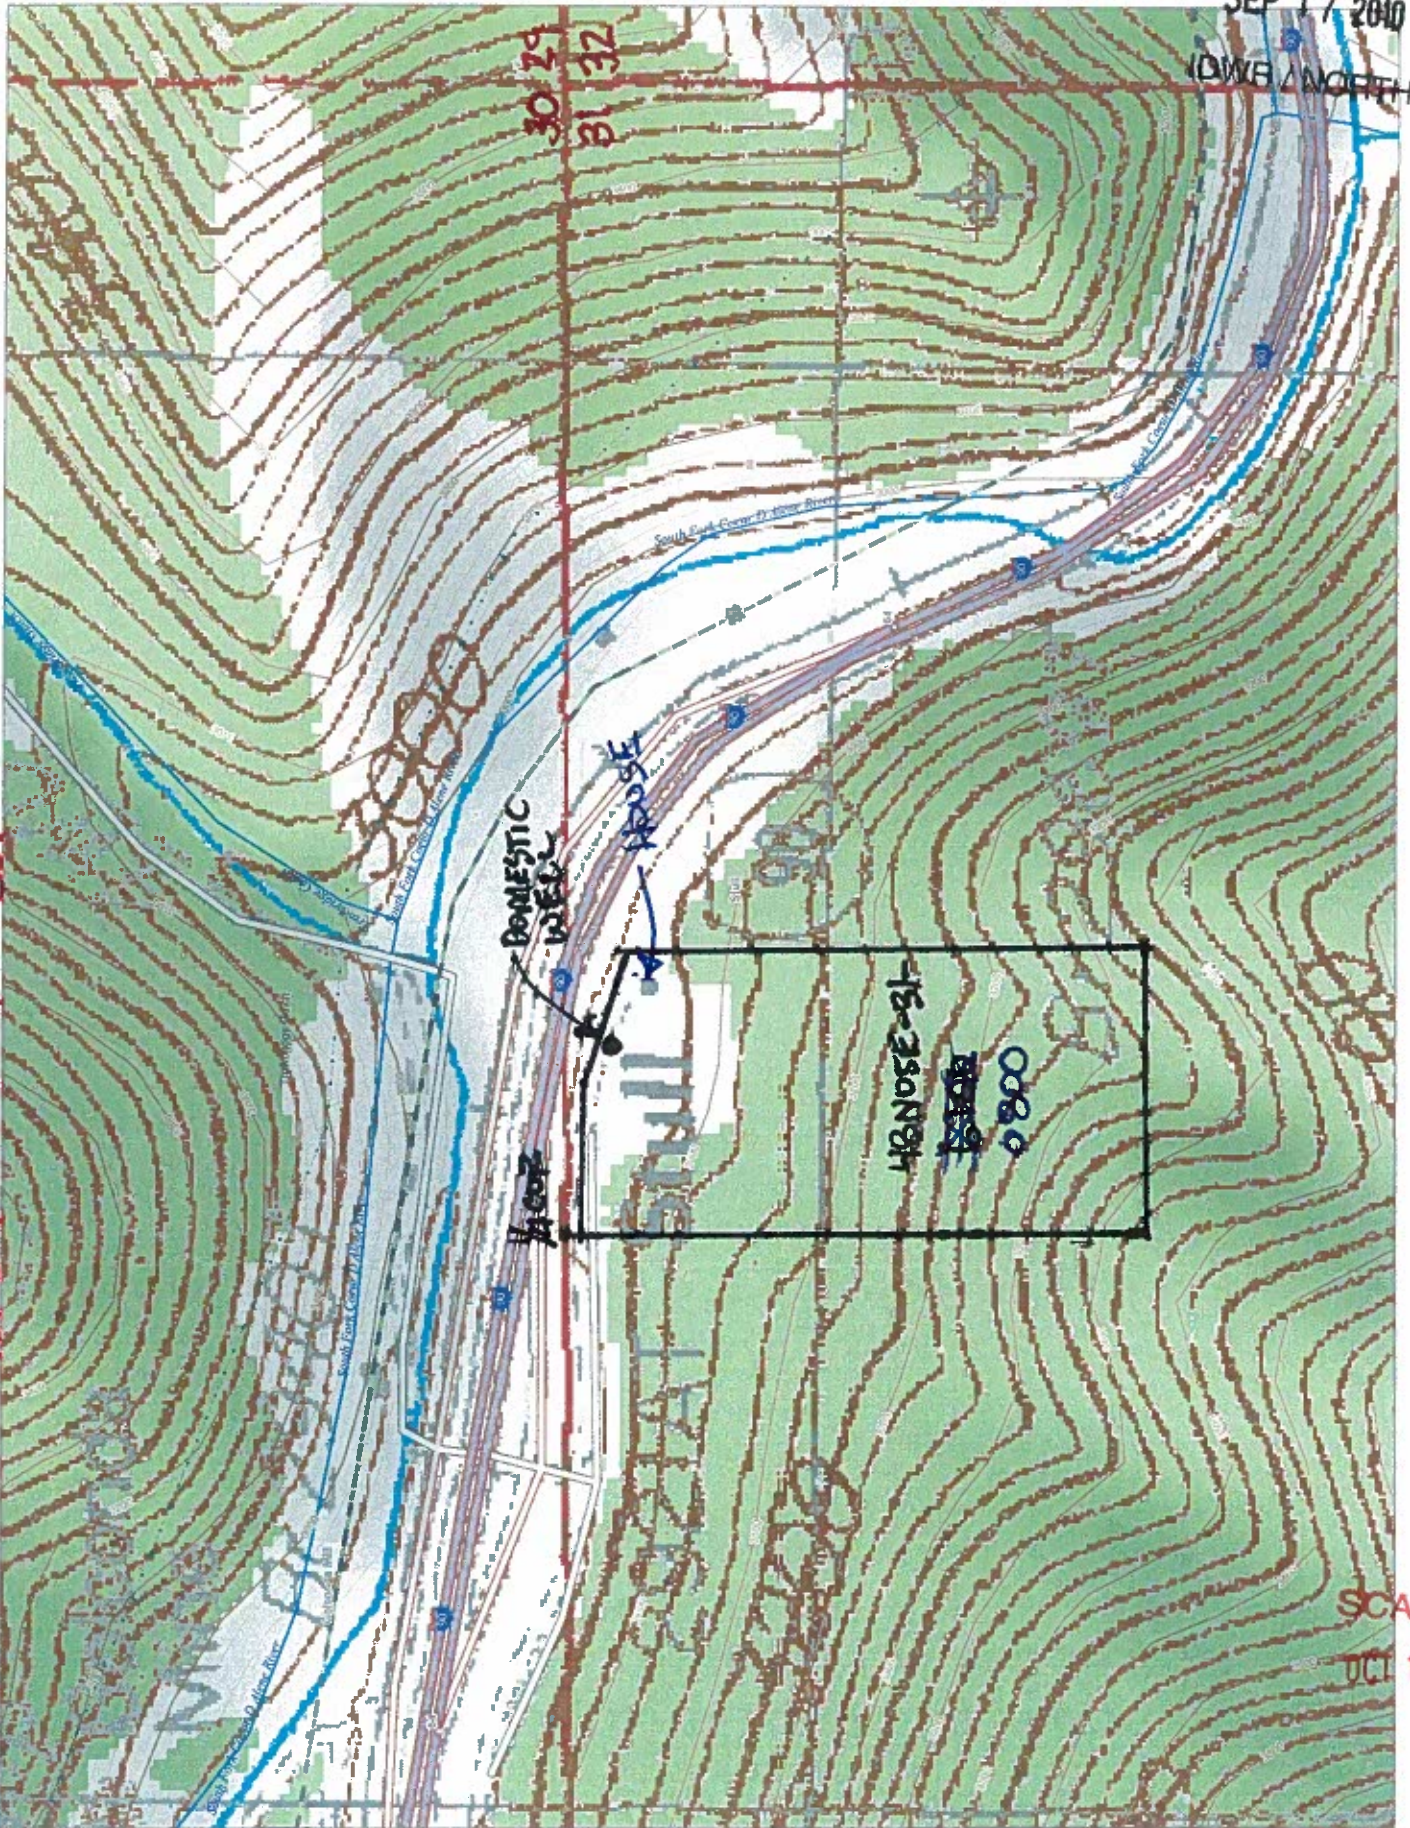

In 2007, I had the well deepened an additional 100 feet from its original depth of 50 feet. The well is now 150 feet deep. The driller obtained a permit (#847294) and placed a tag on the well marked D0051982.

Please advise if additional information is required.

Sincerely:

J. Chris Pfahl
