OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THE QUANTITY OF WATER DECREED FOR THIS WATER RIGHT FOR
STOCKWATER USE IS NOT A DETERMINATION OF HISTORICAL BENEFICIAL
USE.

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS
NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT
ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY
DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE
ENTRY OF A FINAL UNIFIED DECREE. I.C. SECTION 42-1412(6).

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

John M. Melanson

**IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE
STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS**

In Re SRBA	)	SPECIAL MASTER'S REPORT
	)	
Case No. 39576	)	FINDINGS OF FACT AND
	)	CONCLUSIONS OF LAW
	)	
	)	FOR WATER RIGHTS 63-05335,
	)	63-05340, 63-05342, 63-15291,
	)	and 63-15292,

I. FINDINGS OF FACT

Notices of claim were filed for the above-captioned water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of these water rights.

On January 31, 2003, the previous claimant of the water right, Boise Cascade Corporation, through its attorney Bruce M. Smith, filed an objection to the *Director's Report*, asserting that the water right should be decreed as claimed. On May 5, 2008, the parties filed a *Standard Form 5 – Stipulated Elements of a Water Right* in each of the subcases, which resolved the objections. The Idaho Department of Water Resources concurred with the stipulations.

It should be noted by the parties that this Special Master has recommended a remark under the "point of diversion" element of each right that was not present in the *Standard Forms 5*, as follows: "WATER FOR COMMERCIAL USE IS DIVERTED FROM THE STREAM REACH(ES) DESCRIBED HEREIN." This remark is not intended to modify the elements of the water right or limit its use by the claimant; rather the remark is intended to clarify that the water right is for both an instream (stockwater) use and a diversionary (dust abatement) use.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Forms 5*, IT IS RECOMMENDED that water rights 63-05335, 63-05340, 63-05342, 63-15291, and 63-15292 be decreed with the elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.

Dated May 12, 2008

RECOMMENDATION

Water Right(s): 63-05335
63-05340 63-05342 63-15291
63-15292

On May 12, 2008, Special Master THEODORE R. BOOTH issued a SPECIAL MASTER'S RECOMMENDATION for the above subcase(s) pursuant to SRBA Administrative Order 1 (AO1), Section 13a.

Pursuant to SRBA Administrative Order 1, Section 13a, any party to the adjudication including parties to the subcase, may file a Motion to Alter or Amend on or before the 28th day of the next month.

Failure of any party in the adjudication to pursue or participate in a Motion to Alter or Amend the SPECIAL MASTER'S RECOMMENDATION shall constitute a waiver of the right to challenge it before the Presiding Judge.

DATED May 12, 2008.

STANDARD FORM 5

**STIPULATED ELEMENTS OF A
WATER RIGHT**

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

RE: Western Pacific Timber LLC

Dear Nick:

Attached is a Notice of Change in Water Right Ownership form for the water rights transferred from Boise Cascade Corporation to Western Pacific Timber LLC and accompanying deeds. Please call me if we need to go over this in detail. Also, please check your calendar for a date when we can schedule a meeting to review the water rights and IDWR data needs. Thanks.

Sincerely,

MOORE SMITH BUXTON & TURCKE,
CHARTERED

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
 Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

Water Right No(s).	Adjudication Claim No(s).	Split	Water Right No(s).	Adjudication Claim No(s).	Split
<u>See attached</u>	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____
_____	_____	_____	_____	_____	_____

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).
OR
 If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

3. Name and Address of Former Owner/Claimant(s) Boise Cascade Corporation
- PO Box 50, Boise, ID 83707
4. New Owner/Claimant(s) Western Pacific Timber LLC
- Name Connector (Check one): ☐ and ☐ or ☐ and/or
- New Mailing Address 101 S. Capitol Blvd., Ste. 1601
- City, State and ZIP Code Boise, ID 83702
- New Telephone Number (208) 947-0978
5. Date you acquired the property March 31, 2005

6. If the change in ownership affects the entire water right for each water right or adjudication claim number listed in item 1, THEN SKIP THIS ITEM AND GO TO ITEM 7. If the change in ownership divides the water right(s) among multiple owners, you must describe, in detail, your portion of each water right after the change. Fill in the appropriate spaces in the box(es) below to describe your water right(s) after the change (one water right per box, you may copy this page as necessary). If your quantity of water is greater than a proportionate split, you must attach documentation to show justification for a larger amount. If you are not sure how to identify your portion of the original water right or adjudication claim records, please contact the nearest IDWR office for assistance.

DESCRIPTION OF YOUR PORTION OF WATER RIGHT (If the right(s) will not be split, skip this area and proceed to item 7)

QUITCLAIM DEED

(Boise County, Idaho)

This **QUITCLAIM DEED**, made this 31st day of March, 2005, from **GALLATIN IDAHO LAND & TIMBER LLC** (formerly known as Boise Idaho Land & Timber, L.L.C.), a Delaware limited liability company, having an address of c/o Forest Capital Partners, One Financial Center, 28th Floor, Boston, Massachusetts 02111 ("Grantor"), to **WESTERN PACIFIC TIMBER, LLC**, an Oregon limited liability company, having an address of 71-534 Sahara Drive, Rancho Mirage, California 92270 ("Grantee").

WITNESSETH, that Grantor, in consideration of Ten and 00/100 Dollars (\$10.00) and other good and valuable consideration paid by Grantee, does hereby remise, release and forever quitclaim unto Grantee, and the heirs or successors and assigns of Grantee:

ALL those certain plots, pieces or parcels of land, with the buildings and improvements thereon erected, situate, lying and being in the County of Boise and State of Idaho, as further described on Exhibit A attached hereto and made a part hereof (the "Property");

TOGETHER WITH all right, title and interest, if any, of Grantor in and to any streets and roads abutting the Property to the center lines thereof, and all access rights of Grantor in and to the Property (collectively, the "Access Rights"); and

TOGETHER WITH the hereditaments and appurtenances and all the estate and rights of Grantor in and to the Property, including, without limitation, timber rights, mineral rights and water rights (collectively, the "Property Rights");

TO HAVE AND TO HOLD the Property, the Access Rights and the Property Rights, unto Grantee, the heirs or successors and assigns of Grantee, forever.

(Signatures on Next Page)

IN WITNESS WHEREOF, Grantor has duly executed this deed by its duly authorized officer or representative on the day and year first above written.

SPECIAL WARRANTY DEED

(Boise County, Idaho)

This **SPECIAL WARRANTY DEED**, made this 31st day of March, 2005, from **GALLATIN IDAHO LAND & TIMBER LLC** (formerly known as Boise Idaho Land & Timber, L.L.C.), a Delaware limited liability company, having an address of c/o Forest Capital Partners, One Financial Center, 28th Floor, Boston, Massachusetts 02111 ("**Grantor**"), to **WESTERN PACIFIC TIMBER, LLC**, an Oregon limited liability company, having an address of 71-534 Sahara Drive, Rancho Mirage, California 92270 ("**Grantee**").

WITNESSETH, that Grantor, in consideration of Ten and 00/100 Dollars (\$10.00) and other good and valuable consideration paid by Grantee, does hereby grant, bargain, sell, convey and confirm unto Grantee, and the heirs or successors and assigns of Grantee:

ALL those certain plots, pieces or parcels of land, with the buildings and improvements thereon erected, situate, lying and being in the County of Boise and State of Idaho, as further described on Exhibit A attached hereto and made a part hereof (the "**Property**");

TOGETHER WITH all right, title and interest, if any, of Grantor in and to any streets and roads abutting the Property to the center lines thereof, and all access rights of Grantor in and to the Property (collectively, the "**Access Rights**"); and

TOGETHER WITH the hereditaments and appurtenances and all the estate and rights of Grantor in and to the Property, including, without limitation, timber rights, mineral rights and water rights (collectively, the "**Property Rights**");

SUBJECT only to taxes, assessments and other governmental charges not yet delinquent, and the following exceptions, none of which, individually or in the aggregate, materially impair the

current use (or materially detract from the value as currently used) of either the Property, the Access Rights or the Property Rights: (i) mechanic's, workmen's, repairmen's, warehousemen's, carriers, or other like liens arising or incurred in the ordinary course of business for amounts which are not delinquent; (ii) easements, quasi-easements, licenses, covenants, rights-of-way and other similar restrictions, including any other agreements, conditions, restrictions or other matters which would be shown by a current title report or other similar report or listing; (iii) any conditions that may be shown by a current survey, title report or physical inspection; (iv) zoning, building and other similar restrictions; and (v) such encroachments, boundary line disputes, access restrictions or absence of access, adverse possession claims, easements, covenants, use restrictions, zoning restrictions and other third-party rights which are common to commercial timberlands (collectively, the "Permitted Exceptions").

GRANTOR hereby binds itself and its successors to warrant and forever defend the right and title unto Grantee, its assigns and successors, subject to the Permitted Exceptions, for all purposes, against the claims of all persons owning, holding or claim by, through or under Grantor, but against none other, and Grantor hereby represents and warrants further that it has no knowledge that such warranties are untrue as against the claims of any persons owning, holding or claiming, by, through or under any holders in title to the Property prior to Grantor.

GRANTOR covenants to Grantee that Grantor is the owner in fee simple of the Property, that the Property is free from encumbrances created or suffered by Grantor excepting those as may be herein set forth, and excepting those of record, and that Grantor will warrant and defend the same from all lawful claims.

TO HAVE AND TO HOLD the Property, the Access Rights and the Property Rights, unto Grantee, the heirs or successors and assigns of Grantee, forever.

(Signatures on Next Page)

IN WITNESS WHEREOF, Grantor has duly executed this deed by its duly authorized officer or representative on the day and year first above written.

GALLATIN IDAHO LAND & TIMBER LLC
(formerly Boise Idaho Land & Timber, L.L.C.),
a Delaware limited liability company

By: Forest Capital Partners, LLC, its Manager

RE: Notice of Completed Administrative Proceeding for Western Pacific Timber LLC

Dear Diana:

The Department received a change of ownership from Bruce Smith on behalf of Western Pacific Timber LLC to change the ownership of nine claims in Basin 63 from Boise Cascade Corporation to Western Pacific Timber LLC. However, three of the nine "claim numbers" listed on the change of ownership form were for statutory claims in which there are no corresponding Snake River Basin Adjudication claims, even though objections were filed to those numbers. The numbers without SRBA claims are 63-5336, 63-5338 and 63-5339.

Additionally, the change of ownership included claim 63-5337, which was recommended as disallowed. The deeds accompanying the change of ownership do not describe any of the land claimed as the place of use for 63-5337; therefore, we are unable to process a change of ownership for claim 63-5337.

These discrepancies have been brought to Bruce Smith's attention, and we anticipate the objections to the four records we are unable to change the ownership on will be withdrawn.

Sincerely,

A handwritten signature in cursive script, appearing to read 'Carter'.

Carter Fritschle
Section Manager
Adjudication Bureau

Enclosure:

Notice of Completed Administrative Proceeding for
63-5335, 63-5340, 63-5342, 63-15291 and 63-15292

Case No. 39576

Water Rights: 63-5335, 63-5340, 63-5342, 63-15291, & 63-15292

**NOTICE OF COMPLETED
ADMINISTRATIVE
PROCEEDING**

IDWR has completed the following administrative proceeding:

- ☐ Address change
- ☒ Substitution of Party
- ☐ IC § 42-222 transfer
- ☐ Point of diversion ☐ Place of use
- ☐ Period of use ☐ Nature of use
- ☐ Split of water right ☐ Change in ownership
- ☐ Other
- ☐ IC § 42-219 license

IDWR certifies that it has completed its investigation into the changes to the elements of the water rights listed above as set forth in the attached *Amended Director's Report(s)* for said water right(s). No other changes have been made to the elements of these water rights except as set forth above.

IDWR has served copies of the *Notice of Completed Administrative Proceeding* and *Amended Director's Report(s)* on the claimant(s), prior claimant(s) and all parties in the subcases affected, if any, as reflected on the attached certificate of mailing.

DATED: 6-8-06

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

THE QUANTITY OF WATER DECREED FOR THIS WATER RIGHT FOR STOCKWATER USE IS NOT A DETERMINATION OF HISTORICAL BENEFICIAL USE.

THIS PARTIAL DECREE IS SUBJECT TO SUCH GENERAL PROVISIONS NECESSARY FOR THE DEFINITION OF THE RIGHTS OR FOR THE EFFICIENT ADMINISTRATION OF THE WATER RIGHTS AS MAY BE ULTIMATELY DETERMINED BY THE COURT AT A POINT IN TIME NO LATER THAN THE ENTRY OF A FINAL UNIFIED DECREE. SECTION 42-1412(6), IDAHO CODE.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Memorandum

June 7, 2006

Western Pacific (formerly Boise Cascade)

63-5335, 5336, 5337, 5338, 5339, 5340, 5342, 15291, 15292

This meeting was to discuss the information still needed to settle the objections filed by Boise Cascade to our recommendations in 2003.

What was agreed upon to be submitted by Western Pacific:

1-GIS map containing pts of diversion for dust abatement (commercial use left off of recommendations due to lack of information)

2-GIS map containing place of use for the roads upon which the water will be used for dust abatement (by 1/4 1/4) also information left off of recommendations as none had been submitted.

3-A volumetric capacity for the dust abatement based upon the average number of trucks filled per day, gallons each truck holds and the time it takes to fill each truck. This would give us an acre foot amount for volume in order to counteract the .20 cfs amount originally claimed from all sources.

4-If all of the above information is submitted we will then recommend commercial use for dust abatement and need evidence of priority for the 1923 and 1925 dates claimed. They will be submitting affidavits as to that affect also.

Western Pacific attorney Bruce Smith, General Manager Idaho Lands, Steve Gurnsey and Andy (last name unknown) all agreed that 63-5336, 5338 & 5339 upon which no SRBA claims were filed, however, objections filed in the SRBA Court by Bruce Smith are actually not their land and not necessary – Bruce will withdraw the objections. Also, we disallowed 63-5337 as only 3/4s of a section was on Boise Cascade land at that time and the source was a spring with 9 sections listed. During this meeting all of the three above agreed it was not owned by Western Pacific and they are not interested in this right, therefore, the disallowal will stand and the objections will be withdrawn.

The filings remaining, awaiting the information in #1, 2, 3 & 4 above are 63-5335, 5340, 5342, 15291 & 15292. Status conference on these is scheduled for 9-7-2006.

RECEIVED

MEMORANDUM

TO: Boise Cascade File #'s 63-5335, 5337, 5340, 5342, 15291 & 15292

FROM: Jan Shurte

SUBJECT: Elimination of Commercial Use for Dust Abatement from recommendations

DATE: January 27, 2003

In December, 2002, Nick Spencer, Craig Saxton and myself met to discuss the hows and whys of trying to list the commercial use for dust abatement claimed on the above referenced Boise Cascade claims. This use was omitted from the Director's Report recommendation. Bruce Smith, attorney for Boise Cascade, did call questioning our omissions of this use.

As referenced in my previous memo to these files, we did not have enough information at that time to recommend the commercial use for dust abatement. Evidence of priority for the date of first use had not been submitted. We did not have the information necessary to compute the amount of water that would be needed to fill the trucks used for dust abatement which in turn would have given us a more accurate rate of diversion and a volume limitation.

The manner in which the claims were filed made it difficult to grant .20 cfs to be used for dust abatement on any logging road Boise Cascade may be using at any one time. There needed to be a volume limiter in order to protect downstream users from injury.

Therefore, we came to the conclusion that if these are objected to and a request is made to include the commercial use for dust abatement that we will request the number of trucks used on a daily basis, how much each truck holds, how fast a truck can be filled (size of pump, pipeline). We would also need digital format for the place of use listing road sites rather than an entire place of use for all Boise Cascade's lands. With this information we can accurately recommend a cfs amount with a volume limiter, along with the place of use and points of diversion.

If this information cannot be obtained, Boise Cascade can obtain temporary permits for dust abatement as other companies do.

MEMORANDUM

TO: Claim Nos. 63-5335, 5337, 5340, 5342, 15291 & 15292

FROM: Jan Shurte

SUBJECT: Commercial Use for Dust Abatement

These claims were originally filed claiming multiple sources and multiple 1/41/4's for stockwater, fire protection and commercial use for dust abatement. The place of use claimed was so vast and included public land and private land that Boise Cascade (now Boise) was contacted and information requested concerning the exact location of their uses.

Information was first submitted for the instream stockwater use and 5 of these claims are being recommended including that information. Fire protection is being recommended for the same place of use as stockwater. One claim is being recommended for disallowal due to no evidence of priority being submitted with most of the place of use being located on public land. Information was later submitted in June, 2002, concerning the commercial use for dust abatement.

The information submitted for commercial use for dust abatement was a GIS map showing multiple points of diversions and places of use in numerous sections. The commercial use for dust abatement raises concerns about how this type of use could be regulated during scarcity on the streams included if these claims were recommended with fairly early priority dates. Normally, water use for dust abatement is covered by temporary permits issued by the Dept at the point and time the use is actually occurring. There are some dust abatement water rights, however, these cover dust abatement on feedlots for ongoing, continuous use.

There has been no evidence of priority submitted for these rights for the commercial use for dust abatement, although evidence of priority was requested on August 15, 2001 and in subsequent conversations. If evidence of priority for the dust abatement portion is submitted, indicating continuous use from these sources, then the Department and SRBA Court can consider how or if this type of water use should be recorded.

To: Shurte, Jan
Cc: Peppersack, Jeff
Subject: RE: Dust Abatement question

Jan,

I can't recall an example of a permit or license for occasional dust abatement anywhere within a huge place of use. Sharla and I don't know of any guidance on the subject either. I have been trying to think of potential issues, but I only have a couple of thoughts. If they are pumping at a high rate from a small stream, they could potentially de-water a stretch of stream for a short period. That could have adverse consequences on wildlife. It could also impact a downstream pumper. Are they in a Water District? If so, how would the diversions be regulated in a water short year? If they pull up in a truck, fill up, and disappear, it could be easy for them to take water out of priority. Are they proposing to take enough water for out-of-priority diversions to matter?

I'm sorry I couldn't be of more help. Let me know if I can do anything else.

Shelley

Subject: Dust Abatement question

Jeff & Shelley,

My question is not necessarily how much water is allowed, rather whether we have any guidelines on dust abatement water rights. I know we have issued some permits for commercial use for dust abatement of feedlots. However, these claims are for dust abatement for roads when Boise Cascade is logging an area. They have filed claims with large places of use and multiple points of diversion from multiple sources.

I am trying to find out if we have issued permits for this large of use for dust abatement in the past. I do know we issue temporary permits for this type of use. I am trying to get all the information I can on previous history of this type of water use and filings with the Department.

If you could tell me whatever you can remember, I sure would appreciate it.

Thanks,

Jan

*General Provision from B65 original PRBA
Not carried forward in SRBA*

Page 173

- 12) Water for stock is commonly an incidental use on irrigated ground.
- 13) Regulation of the diversion and use of water from the Payette River and its tributaries requires that each user who diverts must install and maintain a suitable headgate and measuring device for use by the watermaster.
- 14) Regulation of artesian sources of supply requires that all flowing wells be capped or equipped in a manner that will allow the flow of water to be completely stopped when not being used beneficially.
- 15) "Fire Protection" is an alternate use to which any right could be beneficially applied.
- 16) The practice of sprinkling dirt roads to improve visibility has been identified in some claims to water rights. The amount of water used for this purpose is negligible and the point of diversion and place of use is difficult to identify; however, this use has been found to be beneficial.
- 17) The practice of holding stored water in a reservoir has normally been year around.
- 18) A branch of the Payette River called Sevenmile Slough has traditionally served as a main channel for Payette River water during periods of low flow. This usage has caused water diversions from the channel to be delivered as if they were from the Payette River.
- 19) Water has been diverted and applied to a beneficial use as described in the recommended decree of water rights. In addition, the water users in the Payette River Drainage Basin have historically diverted the so called "high water" or "flood water" generally during the months of May and June.

CONCLUSIONS OF LAW

- 1) This recommended decree includes all of the rights established before October 19, 1977 to the waters of the Payette River and its tributaries including groundwater, and upon its adoption supercedes all prior judgments of the Court. Any water user who heretofore diverted surface water or groundwater from within the boundaries as described in Exhibit 1, or who owns lands to which previously established rights were appurtenant and who, upon being joined to this action, failed to claim such water rights has forfeited such rights as provided in Section 42-1411, Idaho Code.
- 2) The United States holds rights to the use of water on national forest lands within the Payette River Drainage Basin. The priorities for the reserved rights of the United States (where necessary to preserve timber or to secure favorable water flows for private and public uses) are based upon the dates when the various forest lands were reserved. The priorities for nonreserved beneficial use rights of the United States are based upon the dates such waters were diverted and applied to a

Hi, Jan,

I talked with Kay this afn to make arrangements for licensing Lucky Peak -- we will try to license this one -- thanks for the nudge...

I have been giving some thought to the Boise Cascade dust abatement claims. One requirement for having a water right is to show possessory interest in the place of use. In this case it is my understanding that the roads that Boise Cascade has been sprinkling are federal and are not, for the most part, owned by the claimant. It is difficult to imagine that they have this possessory interest. Perhaps the claims should be recommended for disallowal on this basis...

How did we handle the preliminary recommendation for these? Have we had contact with the Boise Cascade people recently? How would they respond to this question, and to your idea about encouraging them to apply for temporary permits?

Dave

Subject: Lucky Peak Permit & Boise Cascade dust abatement claims

Hi Dave,

Have you had any luck with the Lucky Peak permit? That's ironic - luck with the Lucky Peak permit. If this permit does not get licensed, do we recommend it as a permit. We have received some duplicate filings and would still disallow those stating recommended as 63-3618.

Also, did you have a chance to look at my question concerning the Boise Cascade dust abatement claims. I still feel it is questionable to recommend commercial use for dust abatement on many many points of diversion and places of use in the upper Boise drainage. This would give them a priority right to pump from any of those sources at any time. I thought normally companies would receive a temporary permit. I don't know if there is any law that prevents them from receiving a permanent right. Attached is my email message sent previously which explains the whole situation. I still have not had anyone go through the map they sent or request them to do it- for the reasons stated in my message.

I notice you will be gone next week, so I thought I'd get back to you.

Thanks,

From: Shurte, Jan
Sent: Friday, June 21, 2002 3:17 PM
To: Tuthill, Dave; Shaff, Don
Subject: Boise Cascade Dust Abatement claims

I just need some help here. The situation is that Boise Cascade (aka Boise) submitted some claims in B63, Part I, Upper Boise River drainage. The claims were for stockwater, commercial and fire protection. The claims were filed for entire sections on pds and pous. The commercial use was for dust abatement.

Craig worked with them on putting together and recommending their stockwater rights which turned out to be instream stock. Fire protection we dropped off with their approval since it was a given. The dust abatement could not be included on the instream stockwater claims because the points of diversion and places of use were vastly different.

So, they submitted a map showing all the points where they divert water out of a stream into a truck for dust abatement in the upper boise drainage. Then the map showed all of the places of use for every logging road they had. Therein lies the problem. They will not send us the shapefiles for this map and right now I do not have anyone who has the extra time to go through this map and data enter points of diversion for all the pods they have shown, plus pous, plus sources onto claim forms. I could just say they have to hire a consultant to do the claims themselves, however, they did submit claims during claims taking that included the commercial use pods and pous for dust abatement. Mel had not completed these when he retired - but not after trying to get information from Boise Cascade. Craig picked it up after he came, however, he is now busy with Basin 29.

To me there are a couple of alternatives. We could call them and state that they need to hire a consultant or whatever and make them complete claims for the dust abatement portion of their claims - this of course I want to do, however, we did receive claims with some legal issues, although wrong, in the first place and I'm not sure a consultant would put something together that we wouldn't have to unravel anyway. Another thought is to do it ourselves and I could make someone here take the time to do that if I had to. We do have initial hearings for B65, III, next week, plus Ron and Sue are trying to keep going on part 2 and all are helping me with making sure all of the part 1 recommendations are in order. During the last checks, claims are returned for alterations, etc. Maybe there is someone available at the state office to compute pods and pous and I could have Denise or Lori do the data entry. Another thought is to tell Boise Cascade that normally dust abatement diversions are done with temporary permits and not recommend the claims at all. I don't know if we can legally do that. These claims do give them the opportunity to divert from all of these creeks at anytime for dust abatement without notification to the department.

What do you think I should do?

Derrick,

I agree that the map provided does look to contain the information necessary for determination of Water right claims for Commercial/Dust suppression place of use.

Priority date information will need to be provided for the commercial/dust suppression claims.

I am a little confused with your last question. I didn't recommend dust suppression on any of the claims you had previously submitted. New claims will need to be submitted for the use of water for dust suppression. The map provided will be sent to the state office and another agent will work on writing up those claims based on your maps and the priority evidence you provide (I am moving onto Idaho Falls assignments).

Does this make sense? If not feel free to give me a call and we can talk about it.

Thanks,

Craig

To: 'DerrickCrowther@bc.com'
Cc: Shurte, Jan
Subject: In-stream Stock and Fire Protection Recommendations for B-63 part 1

Hello Derrick,

How is life treating you?

Anyway, I got some information for you on the Boise claims. I made recommendations on 5 of the 6 claims in my possession. The recommendations are significantly different than how they were claimed, but I feel they describe your use of water for stock watering purposes as best as I can interpret.

There are a couple of things to address:

Dust Abatement Issue:

- As we discussed, I cannot and did not recommend Dust Abatement/commercial use on any of these rights. Dust abatement will require separate claims because I don't have the information to recommend that portion yet, and mainly due to the fact that per our discussions the Dust abatement water rights will have different priority dates.
- Upon receiving the map from Scott Noble that I requested the department will look at it and try to figure out a good way to write the new claims. I personally will probably not be working on this issue since my responsibilities are going to direct me toward work in the Pocatello area. My guess is that the Dust Abatement claims will not make it into the report due at the end of June but will rather be included in the following report in a year or so from now. I am not positive on this, but that is my guess.

POU Recommendations for In-stream Stock and Fire protection:

- The 6 claims that I have been reviewing claim use on lands that, according to my information, are not owned by Boise (Cascade). I did not recommend a place of use (POU) under your claims on any lands that are not owned by Boise.
- Fire protection POU was recommended as the same POU that was recommended for in-stream stock.
- In-stream stock POU recommended only included POU's/ 40 acre tracts that contained streams (named or un-named).
- Each claim was recommended for a particular drainage. Thus, any Boise land that contained Stock use in a particular drainage was generally recommended on one claim.
- Sources listed included main sources and not necessarily sources that were tributary to the main drainage. However, POU's were recommended for the sources not listed. Thus, if there is an un-named stream tributary to Elk creek, only Elk creek will be listed as a source. However, the POU covered by the un-named stream is recommended.

63-05337:

I am having some issues with this claim. This is a claim for Stockwater, Commercial and Fire Protection from a Spring. However, only Section TN7, R4E, Section 7, NW1/4, SW1/4, SE1/4 seem to be on Boise land. In addition, the POU claimed includes use in 9 different sections. For this to be valid the water would have to be diverted from the one spring claimed and run through a pipe (or some means of conveyance) through these 9 sections.

In addition, diverting from a spring would require evidence of priority which I don't have. At this time, I am going to have to disallow this claim based on the fact that I don't have enough information to recommend it.

I am heading to Pocatello next week. Our time frame is limited. At this time, I do not plan on making any major changes to the current recommendations. However, Boise can still object to the recommendations if they disagree with my recommendations sent to the SRBA court. I am guessing we have the week of the 24th thru the 28th to work out any disagreements outside of the court. After that, we will have to go through the SRBA court.

Attached are my preliminary recommendations along with JPG/image files that are an attempt to explain what I felt was the valid water use.

Respectfully submitted,

Craig L Saxton

Subject: SRBA Map

Hi Craig,

I will be sending you, and Derrick, the map you requested tomorrow morning via regular mail (06/11/2002). The map contains points where streams cross roads and our ownership boundary crosses streams. If this is the points of diversion referred to by Saxton then things are fine, otherwise we will need Derrick to clarify the points of diversion.

If you have any questions or would like additional data on the map please contact me.

Scott Noble

b63-1-bndy.sbx

b63-1-bndy.sbn

b63-1-bndy.dbf

b63-1-bndy.shp

b63-1-bndy.shx

Hello Scott,

At this point I think a hard copy of the map would be sufficient.

The situation is Boise filed Snake River Basin Adjudication claims for use of water for dust abatement on the Boise roads. In order for the department to make a recommendation on these water rights I need to see where the roads are that the water is used on and where water is diverted for the streams. So, the purpose of requesting this information is to allow the department to make positive recommendations on Boise's claims to the SRBA court.

So, what I would like to see on the map is:

- Boise's private roads, or any road water is used on for Dust abatement.
- Points of diversion where water is taken from the streams for dust abatement use.
- Property boundary for Boise land
- Section lines
- Quarter Quarter lines

In addition, I am sending you an ArcView shape file that shows the boundary of Basin 63 part 1. I am only concerned with use of water within this boundary.

If this shape file doesn't fit your projection please contact Mark Larson at:

mlarson@idwr.state.id.us

Thank you for your time and feel free to contact me with any questions.

Respectfully submitted,

Craig L. Saxton

Subject: GIS data

Hi,

Bruce forwarded your message concerning a data request.

Can I send you a paper map of what you need? Sending digital data to anyone outside of the company is rarely done and requires quite a formal process. New data sharing guidelines are in place and we have a very conservative approach to sharing/distributing digital data. In most cases any outside requests for data are fulfilled with a hard copy map.

If you feel digital data is necessary then I will need a letter from you with a statement of intent and reason. If approved you will be required to sign a data sharing agreement which restricts the data usage. I have already discussed your request with the Timberlands Manager and his response was that a paper map should suffice.

If you would like a paper map simply send me a request. Please indicate what you desire, what purpose it will serve, and what you would like displayed on the map. Sorry for the inconvenience. If you have any questions feel free to call me.

Bruce,

Wasn't sure if you got the below E-mail since I haven't heard back from anyone yet.

Thanks,

Craig Saxton

Hello Bruce,

When Derrick came into my office on 4/12/02 he showed me a map with the Boise Cascade (BC) roads and it also showed the BC property Boundaries. I have Boise County Parcel data but I would like to compare it with your Property Boundary shape files. Could you send Mark Larsen (mlarson@idwr.state.id.us) and/or myself a copy of the Property Boundary (polygon) and Road's (line) shape files. That would help me out a lot.

Thanks,

Craig Saxton

Hi Craig,

You should pass on the following info to Mark:

Projection Info:

Stateplane
Idaho West
Units: Feet
Datum: NAD27

Let me know if you have any trouble making the conversions....

Bruce

WaterRightsPoints.
zip

Derrick,

Per Bruce's request, I thought I would drop you a line and let you know that I did get the ArcView shape files from Bruce. However, they don't fit my projection so I passed it onto Mark Larson in our GIS department to take a look at them.

I have also passed on Bruce's contact information in case Mark needs additional information from Bruce in order to make the shape files work with our system.

I will keep you informed as things progress.

Thanks,

Craig Saxton

Craig,

Here are the two water rights points shape files. Please look them over and let me know if they will meet your needs or not.

Please contact Derrick as well so that he knows what is going on with all of this.

Talk to you later,

Re: Claim No(s) 63-5335,

63-5337, 63-5340, 63-5342

63-15291, 63-15292

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "**Priority Date**" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by **October 15, 2001**, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
