Western Regional Office

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: IDAHO CONCRETE COMPANY 208-459-6311
Address: C/O TIM JOHNSON
PO BOX 670
CALDWELL, ID 83606

2. Date of Priority: SEP 15, 1960

3. Source: GROUNDWATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4 of	Lot	County
04N	03W	21	NW	NW	NW	3	CANYON

5. Description of diverting works:
12" CS, 90' DEEP

6. Water is used for the following purposes:

Purpose	From	To	C.F.S.	(or)	A.F.A.
INDUSTRIAL	01/01	12/31	2.100		

7. Total Quantity Appropriated is:
2.100 C.F.S. (and/or) A.F.A.

8. Total consumptive use is Acre Feet Per Annum.

9. Non-irrigation uses:
I/WASHING SAND & GRAVEL.

10. Place of Use:

Township	Range	Section	1/4 of	1/4 of	Lot	Use	Acres
04N	03W	21	NW	NW	3	INDUST	

11. Place of use in counties: CANYON

INDUSTRIAL USE VOLUME

* Please keep in mind that these questions pertain only to the use of the water listed on the enclosed Adjudication Claim Report #A63-3216.

Type of Establishment: (example - camp, church, country club, bar/lounge, boardinghouse, factory, motel, highway rest area, hospital, laundry, office, park, restaurant, school, service station, theater)

For use of washing Sand & Gravel For Ready mix Batch Plant
For Dust control (Water Truck)
and cooling of Agg. on hot DAYS
(aggregates)

Type of Facilities: (example: kitchen facility/cafeteria, lavatory facilities, shower(s), bath(s), sink(s), trailers, flush toilets)

N/A

Number of Fixtures: (example: number of flush toilets, number of bathtubs, number of bathroom/kitchen sinks, number of showers, etc.)

N/A

How many employees (and/or public individuals) per day use each of the facilities your commercial use is based upon?

N/A

How many hours per day is the facility open for this specific use?

12-16 hrs per DAY

How many days per week is the facility open for this use?

6 DAY weeks

Is this facility open year round? X Yes ___ No

If not, please indicate the length of time the facility is open during the year.

** Most businesses have a good idea of how many gallons of water per day they use. If this is true in your case, please indicate how many **total gallons of water you use** for the industrial purposes explained above:

768,000 gals per day

Additional information you feel may be pertinent:

This is our only source of water
for our wash plant

CONVERSATION MEMORANDUM

RE: Snake River Basin Adjudication Water Right Nos. A63-3215 & A63-3216

June 12, 2006

Since the letter requesting Industrial Volume information was returned, I called #459-6311. When I asked to speak with Timothy Johnson, I was told that Mr. Johnson no longer works there. The man who answered the telephone said that they closed off the old P.O. box and that their new address is: P.O. Box 1310, Nampa 83653. Since Timothy Johnson is no longer an employee, I asked if there was another contact that I should send the water right information to. It was suggested that I send the information to: Kirk Ellingford. Therefore, I faxed (#455-2061) the request for industrial volume information (ATTN: Kirk Ellingford) and also re-mailed the originally requested information again (plus a *Change in Address* form) to ID Concrete's new P.O. Box address.

June 20, 2006

Kirk Ellingford, the Production Manager, came into the Western Region office and we went through everything together.

Regarding Claim #63-3216, we decided to call this well "**Well #1**." (The three well numbers were created by me and Mr. Ellingford only for our own purposes of making sense of the three wells and keeping everything easily understandable; especially for the wells' locations on the enclosed aerials.) According to Mr. Ellingford, Well #1 has a 12" casing, a 50 HP pump, and runs (estimate) approximately 600-800 gal/min. In addition to being used to wash sand and gravel for the ready mix batch plant, it's also used to fill-up the water trucks and used for dust control and to cool "material" (or aggregates).

Regarding Claim #63-3215:

- Mr. Ellingford said that "**Well #2**" has a 6" casing, is the sole water source for the batch plant, and is used to produce ready mix and wash out the trucks. According to Mr. Ellingford's estimate, Well #2 probably produces approximately 40,000 to 60,000 gal/day.

- “Well #3,” which is located in the NENW, is used for “the Shop” has an 8” casing. According to Mr. Ellingford, it feeds the shop’s restrooms, wash basins and guards. Mr. Ellingford said that Well #3 also is used for the batch plant’s restrooms and to supplement the wash-out of mixers at the end of the day. Mr. Ellingford also informed me that Well #3 can connect to Well #2. Basically, if Well #2 goes down, Well #3 is used as a backup.

I asked Mr. Ellingford if he was aware if there was a pre-existing well to Well #3 prior to 1972. He replied that he would look into it and have an answer for me when he returns in a few days time to submit all of the Industrial Use Volume questionnaires and the Change of Address form.

June 22, 2006

When Mr. Ellingford came back to the office to deliver all of the completed *Industrial Use Volume* questionnaires, etc., he also informed me that there was no pre-existing Shop well (Well #3). According to Jerry Nall, a long-time employee, the Shop was built in the 1970s and there was no well prior to that.

Therefore, I can only assume that Well #3 was drilled in 1972 when the shop was constructed (see Well Driller’s Report in #63-3215 file dated 11/22/1972).

FROM Kimberly Brown DATE 6-12-06
TO Kirk Ellingford, ID Concrete FAX # 455-2061
RE Water Claims # 63-3215 & #63-3216

Mr. Ellingford - I recently sent this information to P.O. Box 670 and was just informed, over the phone, that P.O. Box 1310 is correct. I am faxing these documents to you today and will mail the hard copies to you tomorrow, since there are two aerial photos that won't fax well.

TOTAL PAGES SENT 8 + COVER SHEET

IDWR INFORMATION & THE INTERNET

-KB

You can search for IDWR records on the Internet at www.idwr.idaho.gov

See main menu in the upper left corner. Click on any of those main menu for a more specific homepage with more information. Most IDWR records are organized by township, range and section. Township, range and section information is usually available from county offices. For best results, try a broad search first and narrow the search as needed to avoid overlooking the information you seek.

Water Right &/or Adjudication Information: click main menu on-line data for that homepage, then click water right & adjudication search. For type of query, select all rights & water rights then click the where tab and enter township, range, section (and maybe 1/4 or 1/4 of section). Be sure to choose "Point of Diversion" or "Place of Use" depending on the information you need ("both" means diversion and use within identical search parameters, not that either are within the parameters).

Well Log Information: on-line data, then well construction search. Enter the township, range and section. Results will list information about 1/4 location in a section. Many well logs have been scanned and are available on the Internet.

Forms, Rules and Statutes: click that main menu item to find this homepage.

If you cannot find any information or have trouble interpreting the information, contact the IDWR staff person on duty each day. This person is called the "office day" person and is available to provide general assistance. Call the office day person at 208-334-2190 between the hours of 8 and 5 Monday through Friday.

Your cooperation in using the Internet is appreciated. Your help in asking for the "office day" person for general help instead of a particular IDWR staff member helps us improve our efficiency and provide better, more cost effective service to the public. Thank you.

For type of query, select all srba & water rights then click the where tab and enter township, range, section (and maybe 1/4 or 1/4 1/4 of section). Be sure to choose "Point of Diversion" or "Place of Use" depending on the information you need ("both" means diversion and use within identical search parameters, not that either are within the parameters).

Well Log information: on-line data, then well construction search. Enter the township, range and section. Results will list information about 1/4 1/4 location in a section. Many well logs have been scanned and are available on the Internet.

Forms, Rules and Statutes: click that main menu item to find this homepage.

If you cannot find any information or have trouble interpreting the information, contact the IDWR staff person on duty each day. This person is called the "office day" person and is available to provide general assistance. Call the office day person at 208-334-2190 between the hours of 8 and 5 Monday through Friday.

Your cooperation in using the Internet is appreciated. Your help in asking for the "office day" person for general help instead of a particular IDWR staff member helps us improve our efficiency and provide better, more cost effective service to the public. Thank you.

RE: Industrial Use for Snake River Basin Adjudication Claims #A63-3215 & -3216

To Whom It May Concern,

The Idaho Department of Water Resources is currently reviewing the water right claims you filed during claims taking in the Snake River Basin Adjudication (SRBA). During the initial review of both claims, I found that you claimed industrial uses that require a volume amount be included in our recommendations to the SRBA Court (please refer to the enclosed copy of your adjudication claim report: under **Annual Volume**). In order for us to calculate your annual volume, it is necessary that we ask for additional information not gathered when you, or the original claimant, filed this water right.

Please refer to the **Industrial Use Volume** sheet (enclosed), answer the appropriate questions as specifically as possible, and return it to this office by **June 23, 2006** so that we are able to calculate the annual volume associated with your water rights; as required by the SRBA Court.

This review of your claim, in addition to the submittal of our recommendation to the SRBA Court, will result in a decreed right for your property. This water right then remains with the land as long as it is being used. We will give you the opportunity to review our recommendation and provide feedback, if necessary, prior to its submittal to the SRBA Court.

Please feel free to contact me at 334-2190 if you have any questions.

Respectfully submitted,

Kimberly Brown
Water Resource Agent

License and Certificate of Water Right

Water License No. G-29026

Amount 2.1 c.f.s.

Water District No.

Priority Sept. 15, 1960

THIS IS TO CERTIFY that UTAH-IDAHO CONCRETE PIPE CO., Inc.
 of Nampa, Idaho, made application for a permit to appropriate the
 public waters of the State of Idaho, dated September 15, 1960; that Permit No. G-29026
 was issued under said application; that Certificate of Completion of works, with a carrying capacity of
 2.1 second feet, was issued thereunder on March 22, 1961, showing that said works
 were completed on the 16th day of November, 1960; and that on the 16th
 day of November, 1960,

UTAH-IDAHO CONCRETE PIPE CO., Inc.

of Nampa, State of Idaho, made proof to the satisfaction of the
 State Reclamation Engineer of Idaho, of the right to use the waters of

, a tributary of subterranean flow, for the purpose of manufacturing
 , under Use Permit No. G-29026 of the Department of Reclamation
 and that said right to the use of said waters has been perfected in accordance with the laws of Idaho,
 and is hereby confirmed by the State Reclamation Engineer of Idaho and entered of record in Volume
 11 of Licenses at page 7062, on the 22 day of March, 1961;
 The right hereby confirmed dates from September 15, 1960;

The Point of Diversion is located Lot 3
 in the NW 1/4 NW 1/4, Sec. 21, Tp. 4 N., R. 3 W., B. M. Canyon County

That the amount of water to which such right is entitled and hereby confirmed, for the purposes
 aforesaid, is limited to an amount actually needed and beneficially used for said purposes, and shall
 not exceed 2.1 cubic feet per second.

Description and location of use:

Twp.	Range	Sec.	Forty-acre Tract	No. Acres Described in Permit	No. Acres Actually Irrigated
4 N.	3 W.	21	NW 1/4 (Lot 3)	Manufacturing - Use	in Batch Plant

The right to the use of the water aforesaid hereby confirmed is restricted to the lands or place
 of use herein described, as provided by the laws of Idaho.

WITNESS the seal and signature of the State Reclamation Engineer, affixed at Boise, Idaho, this

22nd day of March, 1961.

APPLICATION FOR PERMIT To Appropriate the Subterranean Waters of The State of Idaho

Application No. G- 37017
Permit No. G- 29026
District No.

1. Name of Applicant: Utah-Idaho Concrete Pipe Co., Inc.
Postoffice address: Box 972, Nampa County: Canyon State: Idaho
2. Quantity of water claimed:
 - (a) Rate of withdrawal in cubic feet per second 2.1 or Idaho
Miners' inches or gallons per minute 950 gallons
 - (b) Annual withdrawal in acre feet per annum
3. Source of water supply: Water well
4. Location of point of diversion or well is in the Lot 3 ~~Section~~ ^{NE 1/4} of Section 21
Twp. 4 North, Rge. 3 West, B.M., County of Canyon
5. Water is to be used for: Washing of sand and gravel
6. If for municipal, industrial or recreational purposes, give:
 - (a) Point of use of water is in the Lot 3 ~~Section~~ ^{NE 1/4} of Section 21, Twp. 4 No.
Rge. 3 West, B.M.
 - (b) Waste water or sewage effluent is to be returned to Boise River
at a point in the Lot 3 ~~Section~~ ^{NE 1/4} of Section 21, Twp. 4 N., Rge. 3 W., B.M.
7. Kind of works: Drilled well, together with casing, pump and motor
8. Estimated cost of works: \$ 10,000.00
9. (a) Is reservoir to be used? No
(b) Capacity of reservoir:
10. The time required for the completion of such work and complete application of the water to the proposed use is 5
years. Well pump installed and all works completed as of June 10, 1959.
11. If applicant is a corporation, give:
 - I. (a) Date and place of incorporation: June 13, 1946, at Salt Lake City, Utah; (a foreign corp.
authorized to do business within the State of Ida.)
(b) Amount of capital stock: \$ 1,000,000.00 (c) Amount paid in: \$ 400,000.00
(d) Names and addresses of directors: George R. Jessen, Box 972, Nampa, Idaho; Marco Messina,
Salt Lake City, Utah; Elisabeth S. Jessen, Box 972, Nampa, Idaho; (Managing Agent in Idaho:
Robert Tedeschi, Box 972, Nampa, Idaho)
 - II. The financial resources of the applicant are (a) Cash onhand: \$
(b) Treasury stock: (c) Bonds to be issued:
(d) Other resources:
12. The land to be irrigated is described in the following tabulation:
13. Existing water rights and/or valid permits appurtenant to the lands to be irrigated are:
 - (a) (cubic feet per second, inches or gallons per minute) of the water herein applied for is to be supple-
mental to the existing water rights.
 - (b) (cubic feet per second, inches or gallons per minute) is for new lands.

P.D.

Remarks:

BE IT KNOWN THAT The undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

s/ UTAH-IDAHO CONCRETE PIPE CO., INC., Applicant.
