RE: Notice of Claim to a Water Right No. 63-3264

Dear Claimants:

In initial review of the above referenced notice of claim we find that we need more information. The point of diversion that has been claimed (SE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, T3N, R4W) cannot be verified using our water right file. Enclosed you will find a layout that shows the area under this claim. Please pinpoint the location of the well and draw it on the enclosed layout and return the layout to us.

The point of diversion for this water right was licensed as being within the NE $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 24, T3N, R4W. Since you have claimed a diversion point that has not been verified by the Department **we need to know where exactly you are diverting water for this property and when the change in the diversion point took place.** If the change in diversion point took place after November 19, 1987, we will not be able to recommend the change in our findings to the court. The only mechanism to change the location of a point of diversion after that date is to file an application for transfer of the water right. If the change in diversion point took place before November 19, 1987, we need to be able to document our file as to when the change was completed.

Please submit the layout with the identified location of diversion point and any documentation that you have regarding when the change took place on or before **June 13, 2006**. If we don't receive the information by that date we will recommend the diversion point location as shown in our records. If you have any questions in regard to this matter, please do not hesitate to contact me at (208)287-4953.

Dear Sirs:

Enclosed is the Notice of Claim to a Water Right for Water Right No. 63-03264 that you recently submitted to our office. We are returning the claim due to some discrepancies between the original water right and the claim that you have filed. In addition the required filing fee was not submitted with the claim. Also enclosed is an additional claim form and instructions for Permit No. 63-03268, which also requires a claim be filed in the Snake River Basin Adjudication.

We are enclosing profile reports for right nos. 63-03264 and 63-03268, so that you can base your claims on the original water rights. As you can see 63-03264 has been Licensed for 145 acres of irrigation in Township 3N, Range 4W, Section 24 and 63-03268 is a Permit for 121 acres in Township 3N, Range 4W, Section 4. You must show the number of acres irrigated in each quarter-quarter. One quarter-quarter section is 40 acres.

The filing fees for irrigation claims are \$50.00 flat fee, per claim, plus \$1.00 per acre.

Please complete these claims and return to our office with the appropriate filing fees for processing. If you have any questions regarding these claims, feel free to contact a Water Right Agent in our office, or schedule an appointment to come in and have an agent assist you with these claims.
