Re: Sun Valley Company Water Right No. 37-7170 and 37-7340 Points of
Diversions
Project No. 212-12-2008

Dear Dylan:

As you requested, we have located the point of diversion for the Sinclair Oil Corporation water rights, 37-7170 and 37-7340. The point of diversion for these water rights is shown on the attached map (Figure 1).

Water Rights 37-7170 and 37-7340

Water right licenses 37-7170 and 37-7340 authorize Sinclair Oil Corporation to divert water from Warm Springs Creek for commercial application (snowmaking). The priority dates and discharge for water rights 37-7170 and 37-7340 are 10/31/1972 for 2 cfs and 2/8/1974 for 0.23 cfs, respectively. The period of use for these rights extends from Nov. 1st through April 10th. IDWR recommendations for the point of diversion are identical for both rights, as shown by Point A in Figure 1 and listed below:

Point A: T4N R17E Sec. 14 Lot 10 NENW

On Thursday, April 23, 2009, I visited the point of diversion for these water rights and recorded the location using a handheld Garmin GPS unit. The point of diversion was slightly different than the IDWR recommendation for these water rights. The Latitude/Longitude and the PLSS locations for the point of diversion as recorded in the field are listed in Table 1.
