FIELD EXAMINER:

Judy Hemenway

63-21323 & 63-3031 V1 Gray

Date of Inspection 9/13/2006

Inspector: Sandy Hemenway

Description of diverting works:

63-3031: POD is located ¼ mile south of 10700 Cool Rd, then east 1 mile in the southeast corner of the property. 14" casing, 240' deep (previously 310' deep but has filled in), static 90', pump bowl set at 180', US Turbine Motor 75 Hp, SN#1161988, 8" discharge, 80 psi.

63-21323: POD is located ¼ mile south of 10700 Cool Rd, then east 1 mile in the southeast corner of the property. 14" casing, 240' deep (previously 310' deep but has filled in), static 90', pump bowl set at 180', US Turbine Motor 75 Hp, SN#1161988, 8" discharge, 80 psi.

Note: Same POD/well supplies both 63-3031 and 63-21323 (1.62 cfs capacity)

Delivery System Narrative:

63-3031: 8" discharge from POD to buried 12" tile that runs east to west from the POD to the southwest corner, running along the south boarder next to the concrete tile. There are 4 outlets from the well that discharges into the concrete ditch running east to west on the south boarder. (1) 50' north from the POD, (2) 100' west of #1 outlet, (3) then two outlets located near the southwest corner. Number 1-outlet open discharges whenever the pump is running, and there are control valves for the other 3 outlets to regulate the location of discharge. From outlet #2 gravity flow south to north via 1" siphon tubes. From outlet #1 to the concrete ditch, flow can either go east to west (gravity flow south to north), or around the corner and flow south to north (gravity flow east to west). Continuing north, 6" gated pipe (gravity flow east to west), then turning west to the asparagus field with 6" gated pipe (gravity flow south to north).

The POD/well pumps through 12" tile to the 188' x 55' x 12' sprinkler pond (located near the southeast corner). The US Electric 60 Hp turbine pump, 4' lift, 80 psi (per owner) pump, 8" discharges east (on the south boarder) to above the ground 10" aluminum converting to 8" towards the top of the hill, then converting to 6" aluminum going down the hill on the east boarder (running south to east) to the location for 3" aluminum hand line (1/8" nozzles, 30 psi average, 4 lines, 28 nozzles run at one time).

All run-off from the fields are routed north to the 120' x 30' x 6' wastewater pond. A Fisher 5Hp, 6' lift, 40 psi, 6" discharge, pumps wastewater from the pond southwest through buried 8" PVC to an outlet discharge valve the direct discharges into the concrete ditch on the south boarder (east of the well outlets that have the fertilizer tanks located next to them).

Note: Both ponds are utilized only during irrigation season. There is no year-round use.

63-21323: 8" discharge from POD to buried 12" tile that runs east to west from the POD to the southeast corner, running along the south boarder next to the concrete tile. There are 4 outlets from the well that discharge into the concrete ditches running east to west on the south boarder. (1) 50' north from the POD, (2) 100' west of #1 outlet, (3) then two outlets located near the southwest corner. Note: this first part is identical to 63-3031. The two outlets located near the southwest corner are utilized to open discharge to the concrete ditch, travel west to the southwest corner, then south to north, are piped under the road then discharged into a concrete ditch that runs west to east on the south boarder of 63-21323 (POU directly south of 10700 Cool Rd.) with gravity flow south to north. This flow from the outlet, concrete ditch, and to the POU for 6121323 is demonstrated on the hand drawn map and indicated with "red."

Supplemental Water: None utilized on 63-3031 or 63-21323 land. There is 1 acre across the canal northeast of 63-21323 that is irrigated solely with Mores Canal/Wilder Irrigation. Robert Gray has shares with Mores Canal/Wilder that he pays for annually (per Robert Gray, unknown number of shares he has).

Additional Information:

Robert Gray has a scheduled meeting with Planning and Zoning, with the intent to divide 181 acres into 130 lots, and 20 common lets. The property has already been sold on contingency of the C.U.P. (see attached announcement, and photograph of sign posted).

POU:

Crops that are planted on this land are specialty crops that are rotated. They are seed crops, i.e. potato special hybrid "seed" crop plots for companies in Chile, corn seed, carrot seed, onion seed, asparagus, and many other varieties of seed crops.

GROUNDWATER THEORETICAL ANALYSIS

FILE: 63-21323/63-3031 VI ^{Gray}

DATE: 9-14-2006

BY: Sandy Hemmenway

THEORETICAL RATE OF FLOW: $Q = \frac{(8.8 \times (HP) \times (EFF.))}{TDH}$

Q = CFS

HP = Total Brake Horsepower of pumping plant (including booster) 75Hp

Eff. = Pumping plant efficiency (assume 70% or 0.70)

TDH = Total dynamic head = [(LIFT) + (PSI X 2.31)]

LIFT = Depth to water in FEET from land surface to pumping water level 90' static + 10' = 100'

PSI = Pumping pressure measured in PSI near pump (if open discharge assume [0]) 80 psi

$$Q = \frac{(8.8) \times (75) \times (0.70)}{[(100) + (80 \times 2.31)]} = \frac{462}{284.8} = 1.62 \text{ cfs}$$

Dear Property Owner:

NOTICE IS HEREBY GIVEN that the Canyon County **Planning and Zoning Commission** is scheduled to hold a public hearing on **Thursday, September 21, 2006** beginning at 7:00 p.m. on the following case:

Robert Gray is requesting a **Conditional Use Permit** to divide three parcels that total approximately 181 acres into 130 residential lots and 20 common lots in an "A" (Agricultural) Zone.

The subject property is located approximately ¼ mile south of Locust Lane and approximately ¼ mile west of Perch Road, Caldwell, Idaho, in portions of the NW, NE, SW, & SE ¼ of Section 8, T2N, R3W, BM. (Refer to adjacent map).

The hearing is scheduled in the Public Meeting Room on the first floor of the Canyon County Courthouse, located at 1115 Albany Street, Caldwell, Idaho

All documents concerning public hearing items may be reviewed at the Canyon County Development Services Department, 3rd floor, Canyon County Courthouse, 1115 Albany Street, Caldwell, Idaho, 83605. Office hours are 8:00 a.m. to 5:00 p.m., Monday through Friday, except holidays. If you have questions or would like additional information, please contact the Planning Division at **454-7458**.

You are invited to provide oral comments to the Commission at the hearing. Please note that all comments made to the Commission during the public hearing will be restricted to three minutes per person.

Please submit all written exhibits to Development Services Department five (5) business days prior to the hearing to allow

for due consideration. Exhibits will be forwarded to the Planning and Zoning Commission.

In all correspondence concerning this case, please refer to the case name and case number: **CU2006-57**.

- Auxiliary aids or services for persons with disabilities are available upon request. Please call the Development Services Department at 454-7458 at least 24 hours prior to the hearing so that arrangements can be made.

FIELD EXAM REQUEST

Water Right No. 63-21323

Claimant: Robert and Carol Gray

POD:

- ✓ Is the same well still being used for 63-3031 *Yes*
- ✓ What is the capacity of the well
- ✓ Verify location of well

✓ POU:

- ✓ Verify green boundary as the correct POU – mark any corrections on map
- ✓ Verify irrigated acres

PONDS:

~~None~~

waste water run-off pond + a sprinkler pond/holding pond (pre-existing) only existing during irrigation season

✓ EVIDENCE OF PRIORITY:

I have evidence in file

OTHER QUESTIONS:

- ✓ Are they using any surface water *No, except 1 acre on north east side of canal*
- ✓ How are they getting water from the POD to the POU *Same POD for 63-21323 +*

* Is capacity of well enough to cover both water rights?

Dear Mr. & Mrs. Gray:

Enclosed are copies of the above referenced claims which reflect the change in ownership of the land and appurtenant water right(s) covered under the original filing.

The Department will contact you in the future concerning any requirements that may be needed in order to process these claims for final court decree.

In addition, you had listed water right number 63-23766 on your ownership change form. We are unable to change this water right at this time due to the fact it is located in a different Place of Use. If you have additional information regarding the transfer of this water right, please forward it to this office.

If you have any questions concerning the enclosed information, please feel free to contact this office.

Sincerely,
