Julie,

This resurfaced last week. Sorry about not getting back sooner. I am having a hard time keeping up as the only adjudication person here at Western. My sorry excuse. Anyway, I sent Carter an email concerning 63-5220 & 63-5221 because he has been handling the situation there between the state and federal rights fight at the VA Hospital. I will copy you any response he sends directly to me.

I am attaching an email I found for 63-27415 which states, and I agree, that the legal description is wrong. The map in the file that was issued with the recommendation shows that the place of use in the NENE, Lot 1, Sec. 19 (6.4 acres) and the SENE, Lot 2, Sec. 19 (5.8 acres) was a typo and it should be the NENE, Lot 1, Sec. 24, for 6.4 acres and the SENE, Lot 2, Sec. 24 for 5.8 acres both in Twp. 6N, Rge. 6W.

Also attached is a corrected copy of the Director's Report and the map layout showing the correct place of use. Hopefully, you can make the change as a clerical error and issue the partial decree on this one. Let me know if you have any problems with these.

Thanks for your patience,
Jan

Nick / Ray / Jan -

There are notes dated **11/21/08** in the file for water rights 63-05220 & 63-05221 that say, "Nick Spencer phoned today requesting these rights not be decreed with the uncontested as there are problems with them."

Notes in the file for water right 63-27415 say, "Possible error in the place of use recommendation. Check with IDWR before issuing partial decree."

Will you please check on these and let me know what's happening...if anything.
