RE: Evidence of Priority

RESPONSE DEADLINE
FEBRUARY 3, 1992

Dear Claimant:

The Notice(s) of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicate your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. **The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will soon conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.**

The Department will not recommend the Notice(s) be decreed by the court as claimed if no evidence of a priority date is submitted.

Please find enclosed a computer printout of your Notice(s) and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date".

Please submit the required evidence supporting the priority date(s) by **February 3, 1992**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.

Re: Review of Claimed Acres at Coldwater Exit

After reviewing the file and checking the microfiche records for claim 41-04014, I can find no attempt to transfer or use the "lost" acres on other parcels of land. It appears that any developed use of a water right is unable to be confirmed at this time and will not be part of the SRBA recommendation for this claim. This place of use is also known, to the claimants, as the Nielson Place.

The Osborns have stated they attempted to file a transfer on these acres back in 1981 with Jim Stanton. No documentation can be found to support the efforts. Without such evidence, no right can be recommended.

RE: Draft GIS Map for Lusk Place

Dear Mr. & Mrs. Osborn,

Enclosed are two maps that cover the Lusk Place showing the acres and boundaries of the GIS mapping project. Please review these maps and if you need to notify me of any corrections please do so as soon as possible. Total acres for the parts shown in yellow is 166 acres (146 + 5.5 + 3.4 + 11).

I have also done some preliminary plotting for the acres that may have been lost on the Nielson Place when the exit ramps were constructed, however, I have not yet reached a conclusion about the status of the water right on that property. I have shown 51 acres as part of the maps herein (27 + 24).

If you have further questions feel free to call me.

Sincerely,
