CONVERSATION MEMORANDUM

DATE 6-9-95FILE A63-28553NAME OF PARTY File MemoEMPLOYEE Cindy HodgesRE: Rate of flow (Amended)

When original claim A63-02988 was filed, it claimed an incorrect rate of flow per acre. (total=.1)

When the claim was split, each party took .05.

When Mr & Mrs Bish approached me, I explained the discrepancy and offered several options (see corresp. fr. me dated 1-16-93. When the change in ownership was returned, Mr. Bish chose my second option. I prepared & obtained a combined claim showing the correct flow per acre ($.0135/\text{ac} \times 2.5 \text{ ac} = .034 \text{ cfs}$). This is the final claim recorded.

RE: El Rancho Verde Subdivision Claims

El Rancho Verde Sub was developed within NWNW and SWNW Section 3, T01N R02W. In these QQ's, two licenses (63-02988 and 63-03127) had been issued from a common well, providing a total flow of 0.0135 cfs/acre on 65 acres and somewhat less on an additional 15 acres. It is not clear where the 15 short acres are located, but they are suspected to be within the south 1/2 of the SWNW.

When SRBA claimstaking began, various claims were filed as splits off either one or the other of the original rights, with none taking into account the overlapping rights. One claim was filed as a recombination on a part of the acres, but claimed a full inch per acre. During some change in ownership requests, I discovered the mess and attempted to right it by renumbering the existing claims as the changes in ownership were received and requesting amendments as necessary to reflect the combined rights (with latest priority shown).

The attached handwritten list tracks the metamorphosis of the various claims as filed.

Most of the recombined claims are based on the accomplished addition of point of diversion prior to 1987. However, the Chavez claim was for a newly constructed well. This required the transfer (4164) which was filed and approved, creating part "B" of both original licenses in the name of Chavez. To avoid confusion and to remain consistent with the recombination concept, the Chavez's claim was prepared and given a separate number at the same time the transfer was prepared. Unfortunately, I did not reference the claim no. in the transfer, so maybe the transfer number can be referenced in the claim when updated.

At this time, claims have been filed, based on the two licenses, for lots 4 through 9, 11, 12, 14 and 15. A separate license, 63-08110, was issued for lot 13 (claim also filed). It is highly likely that lots 4, 7, 11, 12 and 14, covered under the balance of the Norton claim A63-21174A, have been sold but no change in ownership have been requested. Lots 1, 2, 3 and 10 have no claims filed.

RE: AMENDED NOTICE OF CLAIM NO. A63-28553

Dear Mr. and Mrs. Bish:

Enclosed is the claim representing your ownership of the East 1/2 of Lot 5, El Rancho Verde Subdivision, and reflecting the desired changes which will combine portions of both licenses which were developed on the property. Because of the combination, the claim has been assigned a new number. Since the claim is being amended, your notarized signature is required.

Please affix a notarized signature on page 2 (only one signature is required) and return the original document to my attention. I have included a return envelope for your convenience. I will return a copy of the claim to you after all the data entry is finalized.

Thank you for your interest. Please don't hesitate to contact me or this office if you have further questions.

Sincerely,

A handwritten signature in cursive script that reads 'Cindy Hodges'.

RE: Change in Ownership, Notice of Claim to Water Right No. A63-02988

Dear Mr. and Mrs. Bish:

Enclosed is a change in ownership form which may be used to transfer a portion of the above-referenced claim into your names. A copy of the claim as recorded is included for your information. Please supply information in the highlighted areas, sign the form and return it to this office. An updated claim copy will be returned to you.

Two water right licenses (63-02988 and 63-03127) were actually developed for the 80-acre parcel on which El Rancho Verde subdivision is now located. It is unclear to me whether this claim was meant to be a combination of portions of the two water rights, or if only one water right was intended to be filed on. As the new owner of a part of the claim, you have the option to decide if the claim is to be modified. You may:

Leave the claim as is. However, the rate of flow per acre is likely to be reduced during field verification, as the rate claimed is far in excess of the licensed rate under only 63-02988.

* Amend the claim to include portions of both licenses by taking the later date of priority, 3/26/1958 (63-03127). The combined rate of flow for five acres is much closer to that claimed. This is the option chosen by most other landowners who have claims on record.

File a second claim for a portion of 63-03127. The fee would be \$50.00.

Please let me know at the time you return your change of ownership if you desire to take either the second or third option. I will be more than happy to assist you with any desired changes. Changes or additional filings may be made at this office or by mail.

The anticipated period for claim verification in Canyon County is during the summer of 1994. An adjudication agent will contact you prior to any field visit.

Please don't hesitate to call if you have additional questions.

Sincerely,

Cindy Hodges

Dear Neighbors:

I was doing some work with the Dept. of Water Resources yesterday and came across the water right filed on our subdivision. It appears that you may not have yet filed a transfer of claim for water rights. If that is correct, you may want to do so right away. If you have filed a claim please disregard this letter which I am sending to all who may possibly be concerned. Let me explain briefly, and please realize I am not a State Water expert.

In Idaho, all of the ground water belongs to the State. An individual that wants to use it must file a claim & get a license. When that claim exists, it establishes a DATE OF PRIORITY, which may be used by the State to determine how water may be used in the event of a shortage. The State is in the process of verifying all of these claims at the present time.

ROBERTSON

The previous owners of your land have a Water Right Claim on file, 63-03127, under the name of Larry ~~Richardson~~. Also are two older claims, 63-03127 & 63-0298, under the name of Cecil Reddick. (see enclosed) For your future protection I advise you to contact Cindy Hodges, Idaho Dept of Water Resources, see attached card. She is very helpful and knowledgeable. Cindy will be able to direct you through the process of filing a claim if you desire.

Do not confuse this water right and the existing sprinkler system in the subdivision. They are two separate issues.

I am sure Cindy will take good care of this for you, but if I can answer any question, I will be happy to do so.

Your Neighbor,

Mike Wade
