IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 63-32455

NAME AND ADDRESS: BIGFOOT FARM LLC
DAVID PALFREYMAN MANAGER
5001 FIFESHIRE PL N
BOISE ID 83713

SOURCE: GROUND WATER

TRIBUTARY:

QUANTITY: 0.150 CFS
54.00 AFY

PRIORITY DATE: 04/01/1954

POINT OF DIVERSION:
T01N R02W S3 NWNE Lot 2 Within CANYON County

PURPOSE AND
PERIOD OF USE:

	<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
	IRRIGATION	03/01 11/15	0.150 CFS 54.00 AFY
PLACE OF USE:	<u>IRRIGATION Within CANYON County</u>		
	T01N R02W S03 NWSE	12.00	
	12 ACRES TOTAL		

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

This right is a split from former right 63-5311 .

Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.

Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.

CHANGE OF OWNERSHIP IN 63-32449

ADDITIONAL INFORMATION NEEDED FOR IRRIGATION FIELD EXAMS

Field Examiners, please complete the following checklist. Mark "unknown" or N/A if information doesn't apply or information is unavailable.

IF CURRENT OWNER DOES NOT MATCH PROOF REPORT PLEASE GIVE NEW OWNER CHANGE OF OWNERSHIP FORM TO COMPLETE.

1.) Pump information:

Well or Diversion Identification No.*	Motor Make	Hp	Motor Serial No.	Pump Make	Pump Serial No. or Discharge Size
Well P10	General Electric	40	MODEL # 5K404XA70A	UNKNOWN	6.68"

2.) Lift (distance from pump to water) UNKNOWN

3.) How was lift determined (well log, measurement, owner)? N/A

4.) Pressure against pump (this is checked using the owner's psi gauge, your gauge, or an estimate by owner) Open Discharge

5.) Was a measurement made? Yes If no can a measurement be made at a latter time? _____

6.) What type of measurement device was used? Thymer Flyte Polysonic meter

7.) Is there a pump curve available for pump? N/A

8.) Please fill out the following:

Number of sprinklers _____

Sprinkler nozzle size _____

Number of Pivots (include gpm rating for each pivot) _____

Cement Ditches.

9.) Please outline all acres irrigated on attached aerial photo. ✓ DONE

10.) Please clearly mark all points of diversion on map and GPS. ✓ DONE

11.) Please clearly mark all mainlines, ditches, and other conveyances.

✓ DONE

12.) Pictures taken of place of use and point of diversion. ✓ DONE

13.) Please show where and how water from other sources are diverted into the irrigation system.

FIELD EXAMINERS NOTES (descriptions, other uses, questions, ect.)

The water from this claim is diverted from a well in the northwest corner of the NWSE. The water runs down a cement ditch to the south and irrigates by furrow irrigation to the east. A buried pipe comes off the cement ditch on the southern border of the NWSE and open discharges into another cement ditch that irrigates the 13 acres in the SESE. A ditch from the north can also irrigate the SESE (from another well). NO canal water is used on this property. 85 acres were found to be irrigated from this system. ~~with~~ The well was measured @ 453 gpm or 1.01 CFS. This claim should be recommended for system capacity of 1.01 CFS and 373.5 afa (83 acres x 4.5 = 373.5 afa). For 83 acres of irrigation.

WELL P/D

This is an aerial photograph of a rural area, likely in the United States, showing a grid of agricultural fields. The fields are divided into sections, some of which are labeled with acreage and names. A well is marked with a small circle in the upper left, and a cement ditch is visible in the lower right. A buried pipe is also indicated in the lower left. A text box in the upper right explains that well water from another well can be used for irrigation. The map is oriented with North at the top.
