Dear Shaun,

I would like to change my diversion from .01 to .04, after reviewing my well paper work. I found I had installed my well pump on 08-27-09 and started use on 08-30-09. The well is used for my travel trailer, domestic use and any need when doing construction on house, garage and barn.

I will also have 8-9 acres of alfalfa I am considering watering.

Thank you,

Joseph + Dorothy Frahm
