Wally,

Recently the State decided to re-register all known and unknown water sources. Attached are the forms that I received toward that goal.

After developing the spring that supplies our old house I filed with the State to insure the water rights. It was not necessary unless it provided a year round stream but I judged that it might have some value should litigation occur.

Hope you are enjoying the Mexico sun down there. Skiing is good here but no there is snow near Sherman Ave.

Regards,
