1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source): Quantity

2. Describe the changes you wish to make in the proposed recommendation:

Remove the remark "The quantity of water under this right shall not exceed 13,000 gallons per day."

3. Give a brief explanation as to why you disagree with these portions:

63-4498 includes stockwater for 350 dairy cattle, plus 1000 replacement cattle, plus domestic water for 2 homes. The recommended annual volume of 29 afy correctly relates to the list of uses in this claim. However, there is a 13,000 gpd limit listed that contradicts the 29 afy volume. I believe this limit comes, in part, from a letter dated October 23, 2002 from ERO that summarizes the other water rights associated with the dairy. The October 23, 2002 letter was to provide supporting information for transfer 70232. That letter indicated an annual volume for 63-4498 of 14.56 afy which relates to 13,000 gpd. This annual volume was based on the 350 milking cow limit related to the dairy only, but did not include the 2 homes, which would add volume. The original claim filed in 1977 by Harold Boschma did not identify an annual volume. I believe that the annual volume for 63-4498 should be 29 afy to include all uses. Then the total annual volume of all water rights to this property (not just the dairy) would then be 74.1 afy.

 I AGREE with this proposed recommendation: no changes need to be made.

RE: Application for transfer for water right 63-9156

Dear Mr. Nelson

Your letter dated June 17, 2002, requested some additional information that is needed to continue processing the transfer for water right 63-9156 in the name of Thomas and Susan Bevan. Please accept the following information to satisfy that request.

Item 1: Enclosed, please find the warranty deed for the new place of use (POU). The owner of the property at the new POU is not the name listed on the transfer so I enclosed a letter from the new owner providing permission for the water to be transferred to his property.

Item 2: The new POU is an existing dairy. The dairy is owned and operated by Mr. Steve Boschma and is called the Lone Pine Dairy. The other water rights currently used for the dairy are as follows:

Name	WR No.	Total Diversion Rate (cfs)	Volume (AFA)
Bevan transfer	63-09156	0.04	7.6 C 2.3 S
Harold Boschma (claim will be filed under Steve Boschma)	63-4498	0.04	14.56* (13,000 gpd)
Steve Boschma	63-9103D	0.1	7.4 C 26.8 S
Total		0.18	58.66

*Volume is calculated from 350 milking cow limit.

*dairy only
does not include
2 homes*

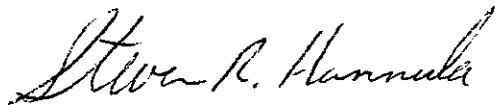

Item 3: See attached dairy worksheet.

Item 4: Enclosed, please find the supporting documentation for the historical use; including an Affidavit by Steven Hannula regarding Pleasant Valley Irrigation Company, a statement from Thomas Bevan about historical use, Table of AGRIMET values of consumptive use of various crops in Nampa, Idaho, and a calculation of consumptive volume.

Also, you have expressed concern about the relatively low commercial water use of the dairy as shown on the enclosed Dairy Requirement Worksheet. Mr. Boschma has indicated that his dairy uses a dry scrape system, no wash pen, and cow prep is performed without water. He beds the cows on fresh straw to keep them clean to minimize prep requirements. His milking system does not use a bulk tank. These techniques keep his commercial demand at a minimum. Mr. Boschma has indicated that he is comfortable with the projected commercial use of 7 afa.

If there are any questions, please feel free to contact me.

CONDITIONS OF APPROVAL

1. Prior to diversion of water under this approval, the right holder shall provide a means of measurement acceptable to the Department from all authorized points of diversion which will allow determination of the total rate of diversion.
2. The total instantaneous diversion of water from all points of diversion under Rights 63-9103D, 63-4498, and 63-31584 shall not exceed 0.18 cfs, nor total combined annual volume of 58.7 af.
3. The place of commercial use authorized by this approval includes land upon which wastewater may be applied for irrigation purposes to satisfy water quality requirements. Water diverted under this approval shall not be used for irrigation unless the water is first used in the dairy as authorized by this water right.
4. Use of water under this approval shall comply with applicable water quality standards of the Department of Environmental Quality.
5. The dairy operation authorized under this approval shall comply with applicable county zoning and use ordinances.
