STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that WELDON A. &/or IDA MAE WOOD

Hi there,

I did see that too and was a little nervous to rock the boat too much. However, it would be much better for the water rights in the future to add those conditions. These are not objected to and he is giving us a chance to correct them, so I should have gone for it. I'm trying to keep him happy and let us do ADR's to correct these things. If this works I will add more conditions next time. Sorry about that. I will just have Lori add the conditions and make two new ADR's and send them to Ray.

Thanks again,

Hi Jan,
I was stumped by the small quantity on 63-4763 for 30 acres and dug deeper. The recommendation for 63-3035 had the combined limit for the 30 acres with 63-4763 and 63-4764. I think we should take the opportunity to add the same combined remark to 63-4763 and 63-4764, which has an Administrative Proceeding pending in the IWATRS ROA. Yes, the remarks are additions to the DR for both rights, but I think we have the leeway and the opportunity to get it right. Let me know your thoughts and how you want to proceed. I don't mind making the data changes and can work with Ray for the ADRs.

Jan,

I have pulled the following 4 rights from the batches of uncontested rights: 63-3035, 63-4763, 63-4764, and 63-9637. The first three are in the name of the Woodview Acres Property Owners Association, and the last one is in the name of the Woodview Acres Homeowners Association. I don't know if these two entities are really the same. When I search the Idaho Secretary of State's website for "woodview acres" it brings up a corporation that is not in good standing called the "Wood-View Acres Property Owners Association, Inc." I called the phone number the court has for Mr. Don Good and left a message on an answering machine for him to call me back. To answer your question, yes, we will have to get an amended director's report to make the change for 63-4763. Hopefully either you or I can contact some officer of the HOA to give them a heads up. I pulled the other three rights as essentially "uncontested overlaps" just to be safe. Please let me know when you can prepare and amended director's report for 63-4763, and then I will do an "Order Requesting Amended Director's Report" which will ask you to file an amended DR by the date you tell me, and then order that it go out on the docket sheet with an objection deadline.

Ted,

Your right something is wrong on this one. The overall quantity should be .13 cfs (claim was filed for a total of .14 cfs) and the af amount should be 46.4 afa. Since we are reducing the af amount does this have to be docketed or something?

Something is wrong on the quantity element for this right. (1) Domestic use has a quantity of .13 cfs, but the overall quantity is only .09 cfs. (2) irrigation is for .09 cfs, which cannot provide 135 AFY.

Jan,

I have pulled the following 4 rights from the batches of uncontested rights: 63-3035, 63-4763, 63-4764, and 63-9637. The first three are in the name of the Woodview Acres Property Owners Association, and the last one is in the name of the Woodview Acres Homeowners Association. I don't know if these two entities are really the same. When I search the Idaho Secretary of State's website for "woodview acres" it brings up a corporation that is not in good standing called the "Wood-View Acres Property Owners Association, Inc." I called the phone number the court has for Mr. Don Good and left a message on an answering machine for him to call me back. To answer your question, yes, we will have to get an amended director's report to make the change for 63-4763. Hopefully either you or I can contact some officer of the HOA to give them a heads up. I pulled the other three rights as essentially "uncontested overlaps" just to be safe. Please let me know when you can prepare and amended director's report for 63-4763, and then I will do an "Order Requesting Amended Director's Report" which will ask you to file an amended DR by the date you tell me, and then order that it go out on the docket sheet with an objection deadline.

Ted,

Your right something is wrong on this one. The overall quantity should be .13 cfs (claim was filed for a total of .14 cfs) and the af amount should be 46.4 af. Since we are reducing the af amount does this have to be docketed or something?

Jan

Jan,

Something is wrong on the quantity element for this right. (1) Domestic use has a quantity of .13 cfs, but the overall quantity is only .09 cfs. (2) irrigation is for .09 cfs, which cannot provide 135 AFY.
Ted

Water right numbers: 63-3035, 63-9637, 63-4763, 63-4764

Claimant: Woodview Acres Property Owners Assn.

From: Sandy Egbert

Date: 5-3-06

63-3035 – a license for 52 acres of irrigation

Recommendation reduced POU acres to 30 acres since the property was a subdivision in 1987 and approx. 30 acres of lawns were all that was irrigated then. Arrived at 30 acres by digitizing around all the lawns leaving out the houses and buildings.

The original license was for .01 per acre so the same ratio was kept in the Recommendation. $30 \text{ acres} \times .01 = .3 \text{ cfs}$

63-9637 – a license for 56 homes for domestic use

No changes from license

63-4763 – beneficial use claim for 8 homes and 52 acres of irrigation at .003 cfs per acre.

Recommendation reduced number of homes to 7 since the field exam for 63-9637 said only 70 homes were platted for the subdivision. 63-9637 has 56 homes, 63-4763 will have 7 and 63-4764 will have 7 to make a total of 70 homes.

Recommendation reduced POU acres to 30 acres since the property was a subdivision in 1987 and approx. 30 acres of lawns were all that was irrigated then. Arrived at 30 acres by digitizing around all the lawns leaving out the houses and buildings.

The original claim was for .003 per acre so the same ratio was kept in the Recommendation. $30 \text{ acres} \times .003 = .09 \text{ cfs}$

63-4764 - beneficial use claim for 8 homes and 52 acres of irrigation at .006 cfs per acre. Recommendation reduced number of homes to 7 since the field exam for 63-9637 said only 70 homes were platted for the subdivision. 63-9637 has 56 homes, 63-4763 will have 7 and 63-4764 will have 7 to make a total of 70 homes.

Recommendation reduced POU acres to 30 acres since the property was a subdivision in 1987 and approx. 30 acres of lawns were all that was irrigated then. Arrived at 30 acres by digitizing around all the lawns leaving out the houses and buildings.

The original claim was for .006 per acre so the same ratio was kept in the Recommendation. $30 \text{ acres} \times .006 = .18 \text{ cfs}$

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No(s): 63-4763

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout or re-file it. You indicated, when these claims were filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

If no evidence of this priority date is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future. The required evidence supporting the priority date(s) requested needs to be submitted by APRIL 21, 2005.

Please let me know if you have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Sincerely,

Sandy Egbert
GIS Specialist
