NOTES: 08/04/1995: The Relks bought the property in late 1961. There was some
irrigation when they moved there - the well & pump were in place. This
is the original homestead of a 120 acre parcel. The Relks have
replaced the pump and continue to irrigate. Dom well is separate well.

01/09/1996: Although irrigation may have occurred earlier, claimed date
is when claimants moved to the property. Claimant's affidavit supports
this date. err

JOHN BELK being first duly sworn,
deposes and says: I moved to this place 1111 E Locust
Lane, in Nampa on 2 Dec 1961 and
the well with pump was on the place.
The pump was in a hole and there had
been a fld over it to keep out water
from rain & snow etc. I later raised
the pump to ground level so that
irrigation water would not accidentally
flood out the pump. It happened
once. I began using this pump &
well during the irrigation season
of 1962 for the five acres as claimed.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.

NOTES: 08/04/1995: Although the place of use is claimed differently than the statutory claim, the actual place of use has not changed. The Relks found out, through the county, that their property extended into the NENE. The parcel is oddly shaped and the Relks were previously unaware that any land was located in the NENE.

01/10/1996: Acres determined using 1987 ASCS map & IDWR Lasico planimeter, Model 428, Serial # B-70848, IDWR NO. 149696. 4.8 acres delineated, which matches the 4.78 acres of irrigated agricultural lands found by the county (see Attachment) with garden(s), irrigation of 5 total acres. nm
