RE:

He came in to apply for permit on supplemental water (63-11741) A check of his adj. filing showed only 86 ac. claimed when it should have been 120 (as licensed).

Also - in 1992 a new well was put on line to supplement the old well so there are now 2 wells in section 10, NENW.

Note the dates of start & finish of on well log. Apparently he had much trouble on this new well & ended up finally buying a drilling rig & finishing it himself. Rob Whitney & Mark Slifka are both aware of the situation, & everything's ok as far as well drilling permit is concerned.
